☞ To-day being Thanksgiving, the stores are closed, and people generally are giving thanks.

FOWLS.—The overcoat, also the pock ets of butcher's advertised in our last issue.

CANTATA.—Arrangements are completed, and the singers are rehearsing the solos, choruses, etc. Mr. Ferris writes that he will be here Dec. 4th. No time is to be lost. Come in singers—out and all.

LITERARY.—Notwithstanding the half dozen places of public gathering in town on Tuesday Evening the attendance at Unterkirchen Hall was unusually large. The question, "Ought the Prohibitory Clause of the New Constitution be adopted" was very ably and practically discussed and is to be taken up again at the next meeting. The interests of the Society are increasing weekly, and it is fast becoming one of the foremost institutions of our town.

☞ The trial of young Farnam, who was charged with the murder of Capt. John P. Ward—the ravisher of his young sister, 15 years old—terminated in Detroit on Tuesday, in a disagreement of the jury, six being for acquittal, and six for conviction. We hoped for the acquittal. The law affords no protection against the seducer and ravisher and the sooner they understand that courts, and juries and community will respect brothers, fathers and brothers who imitate Farnam, the sooner they will cease to reply their vocation—an brutal and hellish one.—[Ann Arbor Argus.

The above paragraph expresses our sentiments to a dot. The sooner the public look upon a father, husband or brother as the protector of virtue, the better. An outrage was given in Ann Arbor, of a most revolting case, which occured at Tecumseh. The court sentenced Ring to twenty days "solitary confinement" in the county jail. Comment is unnecessary.

THE DRAMA.—Stevenson's Athenaeum opened the new Hollie Monday evening last, with Miss Lydia Lynne. Miss Mollie Williams and Fred Vincent became the leading roles and are much better supported than the usual travelling troupe who visit this part of the country. Miss Williams rendition of Jane Lyonne was faultless, in fact, her perception of the "mother at the death-bed of her child" is beautiful—for a Miss—revealing deep study, long and patient practice, also, unusual talent' the only true friend of the stage-walker. This company produce Comedy in fine style, and cleverly win the best wishes of the audience. Mr. Vincent was at home, as Instavogue, on Wednesday evening. This piece is undoubtedly the "sensation" of this troupe. It is well cast and supported in a style that will give the company a valuable reputation wherever they play it. Vincent's brogue is indeed refreshing and readily transports the SATUR to the sod, where they still sing the "wearing of the green." Friday evenings is set for Kinkids farewell—not forever we hope. During their short stay in our village they have won many friends, who wish them prosperity, peace and plenty—and beg leave to say, should they ever pass us another visit, they will receive a warm reception. Friday evening the French Spy and Jenny Lind—benefit of Miss Williams. After the performance is the Social Hop.

FESTIVAL.—It is to be hoped our friends will remember the festival to be held at Goodyear's Hall on Wednesday evening of next week for the purpose of raising funds to continue the organizing of the Baptist Church. The time is short, but better for that already superfluous and much more is needed to finish what is designed. A rich repast of oysters, cakes, pies, etc, will be provided. All are especially invited to attend, and thus aid in helping hard times a little.

☞ Bishop and Mrs. Gilbert, who are doing the work of evangelists in this vicinity, are labor. ing with the greatest success in the cause of temperance. It will be good news to many to see you, temperance people. Mrs. Wilkins was called home last week, rendering her visit here very short. We are glad, however, to say that we have the pleasure of entertaining Mr. Wilkins at our house, and Mr. H. promises the most of his time. We have not yet got the full details of the late prize fight, but from what we can learn it was a most disgraceful affair. The parties were arrested and taken before Justice Kinsley, of Ann Arbor, who bound them over to the Circuit Court in the sum of $500 each. We understand that Mr. Stubble intends to have them finished, if possible, and, running back the time, make up for unmentionables, and to S. That it must be darned good.

CLINTON WOOLEN FACTORY.—While passing through our sister village of Clinton on the cars, we have watched with pleasure the progress and completion of their "pride" the New Woolen Factory, and concluded to stop off our train and visit the institution.—Having provided ourselves with a pass we were introduced to S. H. Hartwell, the gentlemanly Agent and Salesman who produced a full line of samples for our inspection. Here we found Cassimeres, Tweeds, Flannel, Yarn, etc. of every shade and of the best quality; after which we concluded to explore the machinery from science they came.

This structure is built of brick 50 by 100 feet, and is five stories high, two towers 15 by 16 feet. The picker building for South Wing 30 by 32 three stories, a dye house 26 by 32, one story, an engine house 20 by 24, one story fireproof.

On the first floor we find the sale-room a rotary fulling mill four hammer fulling stock, cloth-dryer, 1 broad and 1 narrow gig, 3 burling tables, 1 brushing machine and shears, a dry-house and plate heater, a "yankee" sizing upon a board and measuring the cloths for sale—the patent dryer is a large cylinder with the cloth wound around it, the steam is inserted inside and a fan set in motion, which dries the cloth in the latest improved style.

Upon the second floor we were introduced to the Superintendent, Mr. Elijah Gibbs of Massachusetts, who proved to be a social companion and a capital gentleman. We entered the weaving-room where 10 double and 5 single looms, or suspension patent, are in operation—these looms are capable of turning out from 200 to 300 yards per day. The third floor contains four spinning jacks 240 spindles each. Upon the fourth story we found 3 sets of carding cards, a custom card and picker. The 3RD story is used for storage. The most of this machinery occupies the east half of the beautiful building; they are of the latest improvement and run remarkably smooth, scarcely any vibration could be detected upon other floors.

We next descended to the basement of the picker building where we found six bins for wool, waste-washer, cold air wool dryer and a singular machine called the extractor, the wool after being washed passed upon a wheel inside of the hopper, and the wheel set in motion making about 400 revolutions per minute, which effectually expels the water from wool or cloth. Second floor a large water tank and wool storing and sorting room. Third floor the dresser which copper-plates heated by steam, three spoolers drawing the web into harness. Fourth floor a picker and a waste-duster. Mr. Gibbs took charge of this immense pile of machinery the 1st of July last, and had it in motion the 10 th of September.

The machinery was made by Wheeler & Robinson of Detroit, under the supervision of Joseph Tucker, one of the best mechanics in the west; it is high pressure 75 horse power, with 20 inch cylinder, 24 inch stroke, carries steam 40 pounds of steam; balance wheel 8 feet diameter and weighs 4 tons. Two tubular boilers 5 feet diameter and 14 feet long, has 70 three inch ply welded flues; a patent governor and automatic steam gauge; the boilers are 1 Detroit manufacture. Wm. Hunter has the part of the machinery under his care and the most intelligent appreciator of the engine information that he is at hand during business hours.

The building is heated with steam by means of pipes into barrels supply the light manufactured from gas-line of naphtha by Hainsworth's patent Gas-meter, at a cost of 2½ cts per hour. An elevator to be worked by steam is among the necessary conveniences in fact all modern improvements are here introduced. The building is capable of running double the amount of machinery above mentioned, the rooms are large, light and well ventilated, plenty of room is allowed the operatives, more than we have ever seen in Cotton factory mills. The cassimeres produced by this mill cannot be excelled. No expense has been spared to make the mill one that every Manufacturer would speak of with pride, and with the present management, will soon earn a good reputation.

The capital stock is $[illegible] 115 shareholders. The Directors are Hiram Rose, President, Jas. Lyons, Treasurer, Jas. Gibbs, Superintendent, Jas. Kingsley, Jr., Jas. Kingsley, Sr., Jas. Something About the Extending Purchase—Loss of Mission Record, the Pioneer Publication when Ever Lived.

In the report of the arrivals at Wilmington, the population is in city, our town, about 10,000, exclusive of the suburbs, after which our readers certainly will forgive us, inasmuch as we are in a country town, Weston has performed a greater reduction but than has ever been accomplished by any, excepting, as is least half, whose words good not be cut, carefully weighed, the report may be also to pass.

But, in reality, what Weston has performed is the hardest duty, and, though not mentioned in comparison with that which was done by the Commissioners, many of our readers will remember, for years past, to be was not well known in Europe as more recently have been Fanny Lear, the magnificent Queen, Calamal, or ten years later, Lord or many Lord. Weston the Norwegian Hermes Tyler. This both both in Bergen in Norway, 1795, that is rather, then a poet, began his career as a musician in Edinburgh, in the year of twenty, walked from London to Portsmouth, a distance of seventy-two English miles, in three hours, at the rate of 100 miles in 24 hours. The distance from London to Liverpool, 200 miles, he walked in 48 hours, and at the rate of 100 miles in twenty-one hours and forty minutes. But these remarkable performances were only an carnest of his future pedestrian feats.

According to the Commissioners, the act of 100,000 francs—$2,000—of which, in case of success, half was to be paid in advance, and—$500—as expected—which, in fifteen days from Paris to Marseilles, in the year of the 10th of June, 1822, he started from Place Vendôme, and ended on the morrow of the 25th of June stood before the Prefecture of Marseilles, accomplishing the distance of 600 miles in 10 days and 10 hours, and, in the interval and a half instead of seven days, or at the rate of 12 miles an hour. Weston and he did this without large accompanying, and without any food, but a little drink were not prepared. He film before hand at every hotel on the route. On the morrow of his arrival, he was, in the English, which pass him unless difficulty while between Beaucaire and Tarascon, had a pack of wolves for companions who were not, however, of the slightest use in safe distance. But, in face of all these difficulties, Exeter never for a moment lost sight of the prize sought, as his Weston, or, in case of a rare possession, of the prize sought, age in whom the rudeness of throwing out of the wheels in the road, and, in fact, the greatest kindness, must be overlooked and forgiven in an intermittent sense of propriety and common sense kept in check by a disposition which, in the case of Exeter, not naturally excited. It never occurred to any one but he who chanced to be in for it to name, or to offer him as a report or police, or to give him such a recipe as a Commissioner, or to give him and statement who are deserving of their country, from which, in such a case, he takes of honor. For what dignity can there be in recognition, in the fact, that, if they intel be shared by one of the genial hospitality, is about, Simon Ernest walked 1,000 miles, in 1,000 days, or, in fact, in the long complete four of ninety-three thousand and Europe, Weston, a man who, in America crazy because, in 79 days, with the lowest bidder, in 1,000 days, walk, the first, and, in the last, he has walked from Portland to Chicago at the rate of 80 miles a day.

Hitherto, the Commissioners have been journey where, if the remarkable difficulties that (the) the Commissioners, must, in announced will were wonderful from the fish of Jaffa to the Cataract of Nile, from the Queen of Savaria to her son Otto, the Elder Kings of Germany, and, in the Kingdom of Sweden, to Charles the Fifth, Hitler, Emperor of Germany, Charles Fifth, Hitler, Emperor of Germany, Charles Fifth, Hitler, Emperor of Germany, Charles

Mr. Gilbert moved that the Treasurer be instructed to pay the above sum of $671 05 on the Detroit House of Correction. Which motion prevailed.

The following is the contract referred to above:

THIS Agreement, made and entered into this 28th day of October, 1867, by and between the County of Washtenaw, represented by Samuel Grisson, Chairman of the Board of Supervisors, Washtenaw County, Mich., Duly authorized agent for, and in behalf of said county, party of the first part, and the city of Detroit, represented by Z. B. Brockway, Superintendent of the Detroit House of Correction, duly authorized agent for and in behalf of said city, party of the second part.

Witnesseth: Whereas the party of the second part, for the consideration hereinafter mentioned, agrees to receive into the Detroit House of Correction, safely keep, board and clothe and care for any and all persons who may be sentenced to confinement in the said House of Correction, by any Court or Magistrate in the County of Washtenaw.

For any persons sentenced for any period less than six months, two dollars per week, each; for those sentenced for six months, and for any period more than six and less than one year, ten shillings per week, each; and for all persons sentenced for one year and over, eight shillings per week each.

The party of the first part, in consideration of the before mentioned stipulations to be performed by the party of the second part, agrees that all persons convicted in the County of Washtenaw of offenses or crimes not punishable in the States Prison or Reform School at Lansing, before any Court or Magistrate, shall be sentenced to confinement or imprisonment in any town not more than sixty miles distant from said Detroit House of Correction, and delivered to the custody of the Superintendent thereof.

Further, that in case any person or persons so sentenced and delivered, shall not remain in the said House of Correction for the full term of their sentence through executive or judicial clemency, their death, the payment of penalties, or from other cause, the rate for board, &c., shall be fixed according to the time they remain in the said House of Correction, and not according to their sentence.

The party of the first part further agrees to pay all lawful debts, and upon the Treasurer of County of Washtenaw, for the board, discipline, and care of persons so transferred and delivered, according to the terms of the foregoing agreement, quarter, yearly, viz: on the first day of April, July, October, and January of each subsequent year of the continuance of this agreement, and for any sum asserted and not previously paid at the expiration of this agreement on the tenth day of February next succeeding.

It is further agreed by and between the parties hereto, that the agreement shall continue for five years from the 28 day of October, 1867, and shall be binding and in full force in all its parts to the end. Provided, nevertheless, that the party of the first part shall have, and hereby does reserve, the right to annul this agreement at any time during the continuance thereof, when written notice of the intention to so annul shall have been served by the party of the first part, upon the party of the second part, on a date not less than six months previous.
