

(Hall)

Theresa Gayle ~~Frash~~ Frash^{er} 3-16-06

6191 Kreuse - Ovid, Mi 48866

Sensitivity - 8-22-77

Born 4-16-55

Military - Army Reserve - Married

Born in Kans - raised in Missouri -

Father - night Policeman / mother - Housewife

Worked in Hosp - Aide Lane - 1974

Why Fisher Body - Media - Hiring off street -

Die Aug - 22-77 - Line at Plant 1 1/2 to 2 hrs.
doesn't remember anyone in line.Reported to main off. Supervisor took her to
job, to learn it, but couldn't place on job.
Went back to Supervisor off. till found job. ^{next} day.Trim Shop - 1st Shift (few months) then went
to NS.

Money was main factor for hiring in.

People she worked with Daystack, Don Martinuck
1st shift - ~~people~~ ^{1st job} - Floyd Johnson - John Powers -
Gail + Rose Rodriguez, putting sun-roofs on
cars - then put on job behind ovens doing
re-work job of putting patches on gap for vinyl
roofs.Difference between DS/NS - missed out
alot with son - when on NS.Went from Hosp. to factory life - alot of difference.
Layoff around Christmas, but missed her
so ~~he~~ could stay working.

did alot of collections for work - worked hard to get a few minutes to do collections. People were receptive when collection was done right -

Pranks, were done all around the plant. Breaks played cards mostly Ecure. Had a house behind the Irish Pub, would walk to work. Didn't have to get up as early when lived so close. Neighbors didn't have complaints about plant. Husband still works at plant, had alot of good friendships from plant.

did alot of dinners at work, everybody brought in dishes of food, would try to get people to sign up - certain people had their own special dishes. Had dinners every Sat.

Supervisors - good - Bob Laughn, Paul Grant would leave people alone, let you do your job as long as doing good job.

Bad memory - when Man was killed in 3x, took people along time to respond. Won't pronounce anyone dead in plant. E.P.A. supplied counseling - but didn't go to it. People didn't talk about it - Outside contractor was suppose to have spotter.

Always in Trim, but was NS wanted days because of children.

Door line, pulled out door trim panels and sequenced them. Cart for panels - 20 doors

Had to push cart around. Got Vally Inaba.
to get Ergonomics involved - got new cart
that was motorized. Her brother Will Clayton
got ergonomic started at Chassis.

Quality - wanted to do a good job.
Name changes - always Fisher Body and
will always be Fisher Body.
