Notes for Contributors

Manuscripts intended for publication should be sent in tripli-
cate to the editor, or guest editor, as the case may be. Con-
tributors are asked to adhere to the Journal's referencing
system.

Normally, refereeing takes about six weeks, so authors can
expect to hear from us within two months of our receipt of the
manuscripts. Where less than three copies are submitted, the
refereeing process will take longer, and the Journal accepts
no responsibility for loss of manuscripts. Referee reports
are sent to authors whose papers need modification.
