NOTES ON CONTRIBUTORS

Manuscripts intended for publication should be sent in triplicate to the editor, or
guest editor, as the case may be. Contributors are asked to adhere to the
Journal's referencing system.

Normally, refereeing takes about six weeks, so authors can expect to hear from
us within two months of our receipt of the manuscripts. Where less than three
copies are submitted, the refereeing process will take longer, and the Journal
accepts no responsibility for loss of manuscripts. Referee reports are sent to
authors whose papers need modification.
