ZAMBEZIA

Zambezia is the journal of the University of Rhodesia and its publication has been made possible by the generous support of the Publications Committee of the University. The main focus of the journal, as its name implies, is South Central Africa; but inaugural lectures and articles of a more general interest will also be published. A series of monograph supplements to *Zambezia* is also provided to cover the main disciplines in the University (Education, Engineering, Humanities, Medicine, Science and Social Studies); and this series will not necessarily have the same regional focus as *Zambezia* itself. Two such supplements have appeared so far: *La Cloche Fêlée* by R. A. Lewis and *A Feedlot Profit Model* by E. M. Wilson; at least two are planned for 1977 on the development of maternity services in Rhodesia, and on the leisure activities of Europeans in Rhodesia.

Henceforth it is planned that *Zambezia* will consist of an annual volume issued in two parts: thus Volume 5, No.1 will appear in July 1977.

The publication of an author's views does not necessarily imply the approbation of the Editor or of the University of Rhodesia.
