Zambezia is the journal of the University of Rhodesia and its publication has been made possible by a generous grant from the Library and Publications Committee of the University. The title *Zambezia* has been chosen to convey a primary interest in the life of human societies in countries on, or around, the Zambezi; and it is hoped that the name will carry the same wide interest and reference that it did in the past.

The Editorial Board plans to produce the journal once a year and will welcome contributions in the field of local art and literature, education, sociology, social medicine, political science, history, linguistics, and indeed in any aspects of society. It is therefore hoped that contributions will be forthcoming not only from members of the University, but also from other scholars with a knowledge of Rhodesia and other parts of Central and Southern Africa.

SUBSCRIPTION
