ONE MAN Alone WILL NOT

- 1 Be able to increase tariffs against foreign vegetable and other cheap substitutes that now compete with American farm products.
- 2 Be able to secure a more just portion for farmers of the Nation's annual income and correct situation wherein farmers making up 25 per cent of the people of the United States and owning 21 per cent of the wealth receive less than 10 per cent of the Nation's annual income.
- 3 Be able to increase farmers patronage and co-operative business so as to continue to make quality merchandise available at economical prices.
- 4 Be able to work effectively for a happier and more prosperous farm life.
