The Lewistown Gazette says every paper in the United States ought occas () Nor about ionally to keep the fact before its readers that burnt corn is a certain and speedy cure for hog cholera. The best way is to make a pile of corn on the cobs. ef feetually seorch it, and give the effected hogs free access to it. This remedy was -descreed by accident, by E. E. Lucke, Esq, at the time his distillery was burn 'ed in this county, together with a large lot of stored corn, which was so much

injured as to be unfit for use, was hauled out and greedily eaten by the hogs, sev eral of which were dying daily. After the second day not a single hog was lost, Watches, Clocks. and the disease entirely disappeared. The remedy has been tried since in a SILVER & PLATED-WARE, number of cases and has never failed.
