nothing. Vegetable paring and kitchen refuse of all kinds, boiled soft and thickened with bran, is all that is necessary. Do not give more at a time than they will eat clean. Try it, and see if you do not get more eggs.

PACKAGE FOR BUTTER -Can we not seks the Live Stock Journal, invent a simple and easily-constructed package for butter, which may be sealed air-tight and easily opened? Glass is, probably, the best material from which to make it. as it is light and strong, permits no soakage and imbibes no taints. Such a package can be incased in wood to protect There must surely be some easy way of making a self-sealing glass package for butter, when they are so extensively used for fruit. Three-fourths of the bad butter in market is spoiled after

Prowing Last year a farmer plowed orty acres in the fall and in the spring started to plow it again, when an old resident remarked that he was having did just as well on fall plowing without plowing again. As he had plowed deep and well he thought he would try it, and after harrowing the whole, he owed his grain. The twice plowed land was the first to show the grain, and on it throughout the wheat was a deener color, thicker and taller, and the dividing ine perceptible. Our informan! has no doubt that the twice-plowed land yielded once plowed. This was ample remuners. cupfuls of white sugar, one-half cupful My orchestra ish invamous! He Defended a Brewer.

Rev. J. N. Spear, at a temperance meeting at Reading, Pennsylvania, arose and defended a brewer named Laner, who was being personally attacked, and the good brethern took Rev. Mr. Spear by the coat collar and forcibly walked him out. Mr. Spear published a bitter letter, and promises to get up a new organization.

Miss Frankie Watson, a young lady living at the first direct evidence when the last winter, and all on board, hearify 100 semis-garded and promises to get up a new organization.
