A Disease to Michigan The most brutal and blood curdling wise fight ever held in Michigan occurred at Wyandotte. Yank Tuneof Detroit, ex-amateur heavyweight o Michigan, and Frank Reller, of Ypsi Michigan, and Frank Keller, of Ypsis of a ferrific rainstorm.

Janti, were the contestants before a crowd of 300. Twenty-seven rounds were fought when, amid a scene of ferrific rainstorm. There were present at the funeral a congressional delegation, consisting of Senators Gibson, of Maryland: MeMiliterific howling, eries of "Kill him." curses and yells the referee called it a result of the rules of fighting and the referee knew still less of his share of the pontest than they did. In the bloody and sarphy-seventh round the men rolled over each other and growled and snarled like fighting dogs. The crowd spressed in upon them, and as each pighter tried to strangle his opponent into submission yells and shricks filled Grand Rapids were present. Excloy the dir. All semblance of a fair fight had disappeared. Only the press. had disappeared. Only the presence of the gloves on the fighter's ence of the gloves on the fighter's hands prevented them from tearing out each other's eyes. Seconds, time-keepers and spectators crowded in upon them. Efforts were made by, a few to stop the contestants while still more urged them on. Spectators raised chairs and threatened to smash their neighbors. The citizens and officials of the town could not help helps.

The mother, Mrs. Caroline Coxey, of Massilon, O., is the divorced wife of the general, and secured her decree on the ground of excessive cruelty and was made legal custodian of the girl. Young Jesse Coxey succeeded in get-ting his sister to run away with him. After their departure a note was found in Mamie's room written by Car Browne, in which he says: "There can be no harm in your visiting Washing-ton accompanied by your brother." Mrs. Coxey announces her intention of having Browne and Coxey arrested the moment they put foot on Ohio soil and she may carry the war into the Dismoment they put f she may carry the trict of Columbia.

CONGRESSIONAL NEWS.

SENATE—116th day.—Mf. Hear tried to pass his anticlottery bill, but it went over. Mr. Squire, of Washington, made the only speech of the day on the tariff bill—in opposition. House—Representative Johnson, at Ohio, created a gensation by latroducing a resolution calling for a Congressional investigation of the beating of citizens by the police during the Coxey demonstration at the capitor. He urged it as a question of privilege, declaring that the offense occurred on the grounds, and purparted to be in defense of members of Congress. Speaker Crisp ruled that the resolution did not present a question of personal privilege and ruled it out of order. Mr. Johnson said that not only was the regular police force marshaled in front of the capitol. but geveral hundred deputies—had been sworn in, inexperienced and excitable men, who had lost their berds and olubbed in mocent people. Old-Timer of Twenty-three Years to Chewing and Smoking Cured and Gains Twenty Pounds in Thirty

communication from Lake Geneva wis, says: The ladies of our beauti-wis, says: The ladies of our beauti-mental town are making an interest-ing and exciting time for tobacco-using husbands, since the injurious effects of tobacco and the ease with which it can be cured by a preparation called No-To-Bac have been so plainly demonstrated by the cure of Mr. F. C. Waite. In a written statement he says: "I smoked and chewed tobacco for 23 smoked and chewed tobacco for 25 years, and I am sure that my case was one of the worst in this part of the country. Even after I went to bed at hight if I woke up I would want to thew or smoke. It was not only killing me, but my wife was also siling from the injurious effects. Two boxes of No-To-Bac cured me, and I have no more desire for tobacco than I have to jump out of the window. I have gained 20 pounds in 30 days, my wife is well, and water indeed both happy to say that No-To-Bac is truly worth its that No-To-Bac is truly

weight in gold to us."

The cure and improvement in Mr. Waite's case is looked upon as a miracle—in fact, it is the talk of the town and county, and it is estimated that over a thousand tobacco users will be over a thousand tobacco users will be using No-To-Bac within a few weeks. The peculiarity about No-To-Bac as a patent medicine is that the makers, the Sterling Remedy Company, No. 45 Randolph street, Chicago, absolutely guarantee the use of three boxes to the core or refund the money, and the guarantee the use of three boxes we cure, or refund the money, and the cost, \$2.50, is so trifling as compared with the expensive and unnecessary use of tobacco that tobacco-using husbands have no good excuse to offer when their wives insist upon their take the control was and getting the state. when their twives insist upon their taking No-To-Bac and getting result in the way of pure, sweet breath, won derful improvement in their mental and physical condition, with a practical revitalization of their nicotized nerves.

WEATHER AND CROPS

Weekly Reset for M chigan by the U. S. NOBTHERN SECTION: Reports from

correspondents throughout this section indicate that the weather of the past week has continued very satisfactory, and that all crops are making fine growth. There seems to be no excep-tion to this rule. Since the last report growth. There s farmers have been busy putting in early potatoes and preparing the ground for corn. The weather has generally favored this, and a large generally favored this, and a large acreage has been put in shape. Oats and peas are practically all in, little if and peas are practically all in little if any, remaining to be sewn. Grass and meadows are in good condition, and traits of all kinds promises an abundant come. In the upper penin was gar-dening is reported to be generally under way, pastures are green and fruit trees are beginning to leaf out.

CENTRAL SECTION: The past seven days has seen a rapid growth of wheat casts and grasses. At the close of last week many farmers intended to start week many farmers intended to start planting eorn, but on account of frequent and heavy showers, the ground got too wet. This also delayed other farming operations. It was, however, on the main, very beneficial, as passimes are now generally good and stock is being turned out. It aided a strong growth of oats and wheat and helped veretation. With dry weather conrowsn of ossessing wheat and neiped vegetation. With dry weather con-siderable corn and potato planting will be done next week. The pros-pects for fruit are improving steadily and all varieties which have blossomed, show a fine setting of fruit.

Southern Section: Farm work has been delayed in most of the counties of this section by too much rain, which has made the ground too wet for working. Crop growth however has made creat strides and is reported in excelhas been planted on light, sandy soi but the main portion of the crop has yet to go in. Grass, wheat oats, ryd and barley are coming up rapidly. Al kinds of fruit trees show an alundance of blos oms and the outlook for fruit in this section is flattering. In Washten naw county some farmers are shearing sheap, and stock are being turned out to pasture.

SUMMARY: Conditions have contin ued favorable during the past week, the season being about two weeks in the season being about two weeks in advance of last year. All spring sown grain has had exceptionally fine weather for germination and growth, while excessive blossoming of fruit trees give promise of a heavy yield. Pasturage is good and stock is in prime condition.

Ocean and Railroad Freight Rates

Few people realize the extraord nary di erence between ocean teriffs and railroad rates, or tent the opening of the Manchester ship canal will reduce the cost of transportation to Manchester from this country. Publ shed rates show that grain is now carried 8, 110 miles at the same rate for the entire distance as is charge by the railroads for the hour's journey batween Liverpool and Manchester, while the publisher rates between Eiverpool and London are equal to a 14,003-mile tariff at sea. This is not suggesting that the Englis 1 rates are very much higher than those charged in this country, for it is a well-known fact that the river an I rail oad rates here differ so greatly that percentages can scarcely be calculated—St Reuls Republic.

S. W. Farmers? Club.

Friday May 4th, was a lovely day, and there was a good attendance of the club at the pleasantly situated home of Mr. & Mrs. H. C. Calhoun, in Bridgewater, and the meeting was honored by the presence of several ladies and gentlemen from town; who were glad to drive over the pleasant country

President English called the meeting to order with fitting remarks about the pride of farmers in their club, especially the farmers of the S. W. farmers' club, who have abundant cause for pride and congratulation in the long continuance and steady growth and improvement of their organization.

Mrs. Frank Palmer'read for her selection, The influence of the Chautauqua circle upon the farmer's home." The Chautauqua course although not a college course, embrace many branches of the regul ar college course, science, religion, and literature. The stu-dents read from four to six hours per week with examinations, and at the end of four vears receive a diploma. It is calculated to benefit the large class of people who had not the advantage of a good education in youth, and as a review for those who care to renew old pursuits. Parents are thus able to understand the studies and interests of their children who are attending college. Such a course is of great benefit to farmers who can thus relieve the monotony of daily life with the bright thoughts of some of the world's greatest minds. Farmers are training boys and girls for the future. Let us brighten up our intellects, polish our brains, keep our souls alive, keep informed as to the current events of the day as well as past history Let no day pass without a new fact to remember. Man must look to his laurels, as women constitute the great majority of the students, who know a good thing when they

Little Elma Short then told in an interesting manner, about a little boy who stole a bird's nest and was very much ashamed of the fort.

Genevieve Brown followed with a pathetic tale of a kitty beloved by her to such an
extent that she refused to attend a party
given by a young friend because her pet had
come to an untimely end white taking a
bath in a rain water barrel, but finally she
concluded to go and bury her sorrow in
"eccans of ice cream and candy."

Miss Lucy English read an essay about "The force of contrast." Progression is the central idea of our times. By contrasting objects changes seem greater, sickness and health, poverty and sufficiency, defeat and success, all seem greater by contrast. We contrast our circumstances with those of our associates. Observing the accomplishments of others is a stimulous. Those who share

their gifts with others derive the most good from them. Selfishness is at the bottom of all evil. Our ideas are often affected by our ideals instead of the reality, ideals are good to have. We can never be idle, save for necessary rest, without loss to our-elves, physically and mentally. If not exercising muscle, mind or limb, they become helpless, so with the heart impulses. Seek to do and be good, avoid evil. Success is accounted sweetest by those who never have it. No one is quite satisfied with the result of his own efforts, as contrasted with others. A bright day, when the blue sky is occasionally clouded, is symbolical of life. We care not always for sunshine, it shines brighter after emerging from a cloud. Life is made up of contrasts. Life itself is associated with its opposite, death. Let us strive to make the most of life and its varying fortunes, and be ready for a newer, better life beyond.

Notwithstanding president English's assertion that he had been president for three years and would gladly see some one else in the chair, he was unanimously re-elected, as were also secretary and treasurer. Geo. S. Rawson of Bridgewater, was elected first vicepresident, Wm. Pease of Manchester, second and S. M. Merithew of Sharon, third. The president appointed as programme commitree: Messrs & Mesdames Frank Spafard and S. M. Merithew.

The secretary's and treasurer's reports were read and approved.

At the request of Mr. & Mrs. Calhoun, the club gave to their place the appropriate name "Brookside"

After having done ample justice to the supper served by the hospitable hostess of Brookside, the club adjourned to meet with Mr. and Miss Hitchcock, in Sharon, on Friday, June let.
