A severe illness coming on compelled him to dispose of his interest in that pany. 'Tis hard to describe what Mr. White has gone through, but he attempted to do so denly taken ill with severe pains right under the cause of the return of the trouble. However, when I got there I had to go to a docworse. The pain was in my back and side. My back swelled up in a great ridge, and I finally grew so bad that I was taken to bed as helpless as a child, where I remained for two weeks. My doctor said the pain was from gravel stones. I frequently passed blood and when the pain was at its worst I was like one crazy. I could not stay in any one position. It was simply awful. The doctor injected morphine to give me relief, but further than that he said he was nowerless to do anything and nothing would do me any good but a surgical operation. I believe my flesh was literally cooked in the attempt

years ago he contracted a severe cold which laid the foundation for kidney trouble, which grew upon him with such severity as to almost totally disable him from working at his trade, finally compelling him to give up the horseshoeing branch thereof; that he has used every remedy called to his atten-tion by friends and advertisement for relief, but without receiving any permanent ben-eft; that fortunately a few months ago he heard of Doan's Kidney Pills and their marneard of Doan's Kidney Fills and their mar-velous effect upon others, and was induced to give them a trial, which resulted in a gradual but sure removal of all traces of this kidney trouble. He began to feel the beneficial results after taking two doses of the Fills, and upon continued use for a few weeks his pains from kidney trouble entirely disappeared and to all intents and myrroses disappeared, and to all intents and purposes made a new man of him. He has resumed the horseshoeing department of his trade without any suffering or inconvenience from said disease, and believes himself thoroughly and activaly mand from it. and entirely cured from it.

pills and improved rapidly, so that I was soon able to get ap and around again. I took in all six boxes and feel today entirely well. Mine has been a wonderful case; my condition was almost indescribable. I feel that I cannot say anything strong enough for Doan's Kidney Pills. My great wish is that they may become well known, as I know they will prove a boon to mankind."
