A smiling face and joyful manner often cover many troubles—an effort perhaps to hide them. Because a man looks the picture of health is no sign his back is burdenless. The most common affliction found "in every walk in life" is a bad back. There is more misery in every household through the back than from any other cause Of course it's harder on the poor man, he must furnish the bread for "the little ones," and day after day he struggles along with a weak, lame or aching back. If everybody knew why the back was lame and how to cure it, happiness would reign supreme in thousands of worrying homes. Michigan people are learning fast, are finding out the secrets of the back. Since the advent of "the little conqueror" it has become plainer that a "bad back" means "sick kidneys." That Doan's Kidney Pills make "sick kidneys" well, and healthy kidneys mean a good back. Doan's Kidney Pills have lifted the burdens from more backs in Michigan and cured more kidney ills than all other kidney remedies combined. Here are Michigan cases:

[A Bay City Echo.] Mr. H. G. Miller is a resident of Bay City; his home is at 219 Fraser street. He says:
"Stretching over a period of 15 years, I
have suffered more or less from kidney complaint. I have tried almost everything, porous plasters, electric plasters and such remedies, and physicians as well, but I failed to get anything like permanent relief until in a lucky moment I got a box of Doan's Kidney s. Oh! what suffering my back has sed me at times. I could scarcely turn caused me at times. I could scarcely turn over in bed, the seat of the pain was right over my kidneys, above the hips. The urine became unduly frequent; it would cause me to get up 10 to 15 times during one night, and was very dark colored. I had been this way for some time, getting no better, when I decided to try Doan's Kidney Pills, and got a box: for the first few days after taking the on taking them regularly, and at the end of the third day I could see an improvement, and from that day on I continued to improve and feel better. The urine was soon clear, and the pain across my back and kidneys left en-That was months ago, and I have never had a pain or an ache since. To me it is simply wonderful. Doan's Kidney Pills have made my kidneys as sound as a bell. I now feel as good when the day is over as when it is but beginning. There is no words that ean properly express my gratitude and the praise I would bestow on Doan's Kidney Pills. told, and carries its own moral. He says: "Some months ago my attention was attracted by a swelling of my groins; the swelling began to increase to such an extent that I was alarmed. It spread down my legs, right into my feet, so bad I could not get my pants or shoes on. I had to open my shoes a distance of fully two inches. My condition was very bad; my face even puffed up and my whole system seemed affected; I could hardly walk up stairs to unlock my men. I went to a physician, one of the ablest in the went to a physician, one of the swelling was caused by my kidneys, and I commenced treatment with him. but my condition did not change and I seemed to be getting worse. About this time a friend strongly urged me to try Doan's Kidney Pills, and I finally consented week of their use I commenced to notice a change, and I continued taking them, five boxes in all, with the happy result that I was completely cured. I must confess I was surprised at the result. I have never heard. week of their use I comme a radical effect and vet leave the system is such a good condition. I feel better now than I ever did. After the effect was once established the swelling gradually disap-peared until entirely gone. I consider Boan's Kidney Pills simply wonderful as an agent in curing any form of kidney disorders."

THE REST CURE AT HOME.

It should Be Taken by All Hard-Working. Nervous People.

It is not alone in this country that the great benefits arising from the "rest cure" are acknowledged, says the Kansas City Star. On the borders of a beautiful lake in Switzerland is an institution entirely devoted to this form of treatment. The patients spend a great part of their time in bed, and at other times lie out on long chairs in the sunshine, not being allowed to do anything whatever except, perhaps, to talk to each other a little. For the first few weeks, at least, reading is forbidden and not even writing letters, sewing or knitting is allowed. History of a Woman Who Could Not

Walk for Six Years.

From the Paliadium, Richmend, Ind.
Miss T. E. Osborne is the name of a
young lady living at 126 North Seventeenth
Street, Richmond, Ind. She is the daughter of Mr. William Osborne, one of the most
promineat borsemen in Eastern Indiana.
She told your reporter a most interesting
and remarkable story. It will interest physicians, as it was a most unusual case, and
to the various ones who treated her, diagnosed it differently.

"None of the doctors; and I tried all of
them," said Miss Osborne, "knew what was
the matter withme. Some said I had rheumatism, while others frankly admitted that
they did not know. I was at first taken
with pneumonia. One of my feet pained
me almost constantly, when the doctors pronounced it rheumatism. Walk for Six Years.

nounced it rheumatism.
"Gradually but steadily, the trouble grew "Gradually but steadily, the trouble grew and spread until my entire body was involved and I was utterly helpless. Then we changed doctors. No relief came, and we changed again. We tried nearly all of the local physicians, and I was taken away to the baths. Nothing did me any apparent good, and I suffered very much.
"It is now six vears since I became unable to walk. Afterward I grew worse and was absolutely helpless. Braces were used in the hope of strengthening my fimbs so as to make me able to walk, but they did no good.

as to make me able to walk but they did no good.
"I was completely disconraged and so were my people. My friends gave me up to die, and the doctors, each one of whom at first declared he could have me walking soon, all declared that I never could walk again. I had no longer any faith in any doctor or any remedy."

Finally, after persistent effort, her friends induced her to take Dr. Williams Pink Pills, but against her will, for she was discouraged. She says of the results:
"I noticed no change after taking the first box or so, but they asked me to give the medicine a fair trial, so they kept on pre-

edicine a fair trial, so they kept on prescribing it.
"I took no other at the time, so that if any good were to come we would know what had brought it about. Pretty soon a change was noticed. My muscles became more flexible, and I suffered much less. At the end of three months I found I could move my limbs, could lift myself up, and was no longer helpless. I kept on and still refrained from every other sort of medicine.

still refrained from every other sort of medicine.

"In one year from the time I began the use of Dr. Williams' Pink Pills for Pale People I could walk, something all the doctors had decided I never could do again.
"At first, having been helpless for so long, I could not trust myself to walk on the street, as I fet a fraid. Soon, however, I grew more confident, and walked everywhere as well as ever, and have been doing so ever since. I took the pills for two years, as I was a fraid to stop until I was sure the cure was complete. Before I took them I was a wreck, and now my general health is very good."

was a wreck, and now my general health isvery good."
Miss Osborne was repeatedly questioned
as to her opinion of what cured her, and
she has often declared it to have been 1r.
Williams' Pink Pills for Pale People, as
she had been growing steadily worse until
she had been growing steadily worse until
she had begun using them, and as she used
no other medicine after taking the pills.
Druggists in Richmond now have a large
sale of these pills, and it is a frequent occurrence to have a customer ask for the
medicine that cured Miss Osborne.
Dr. Williams' Pink Pills for Pale People
are not a patentmedicine in the sense that
name implies. They were first compounded
as a prescription and used as such in general
practice by an eminent physician. So great
was their efficacy that it was deemed wise to
place them within the reach of all. They
sere now manufactured by the Dr. Williams'
Medicine Company, Schenectady, N.Y., and Medicine Company, Schenectady, N. Y., and are sold in boxes (never in loose form by the dozen or bundred, and the public are cautioned against numerous imitations sold in this shape) at 50 cents a box or six boxes for direct by mail from Dr. Williams' Med. Co.

Halleck Dane had been physician in charge of the Lindley hospital for little town, with a military station town hall, an atheneum, and several noiseless apparition.

Dane avoided making the acquaintance of Miss Durande, the belle and beauty of the place. In fact, he had not even seen her as yet. "So," said Dr. Dane to himself, "it "I came here to work, not to flirt,"

he said, brusquely, Miss Dorella Durande did not understand this in the least. She was a pretty, sweet natured young girl, who liked world to like her. And at last she Dane did not want to cultivate her acquaintance.

"Let him go." said Dorella, pretending not to care a pin's point. "There sat alone by the corpse, Dr. Dane spoke are plenty of pleasant people in Lind-And after that she was careful to

"Of all nights in the year for old Hannah Hopkins to fall sick-on the edge of Owl Glen!" said Dr. Dane, looking dolorously at his order tablet, as shook the snow off his coat collar in front of the fire. "But I suppose there's no help for it-she's old poor, and has no troops of friends to rally to her aid."

THE MYSTERY IS SOLVED.

His horse, unfortunately, was dead lame, and having no fancy for driving the poor teams turned out by the local livery stable, Dr. Dane resolved to walk to forgive myself." the four solitary miles, bounded by pine forests and surrounded by des late hills that lay between the village and Owl Glen.

He had not gone far, however, behe became dimly conscious. through the snow, of a little buckboard wagon in front of him drawn by a stout, gray pony and driven by a woma dread-naught gray sacque with a fur cap, pulled down over her

"Some farmer's wife returning late," he thought. "I wish she would be polite enough to offer me a ride." He spoke up briskly. "Madame," he said, "I am Dr. Dane."

"Them it can't be Miss Martineau, after all," cogitated the doctor. "Oh, UT, Hal, you would I see now-it's Phebe Otway, the villike her," said Col. lage nurse, whom all the poor people send for. But I can't imagine Daniel Otway's wife with such a sweet, musically modulated voice. It's a gift of heaven to save people, I suppose. Well remarked I respect Phebe for having the energy and resolution to face a storm like this for the very problematical payment which she has to expect from old Hannah Hopkins!"

And then he relapsed into silence after one or two more remarks, to which his companion did not seem inclined to reply, save in monosyllables, until they stopped in the midst of a whirling snowdrift, before old Hannah's cabin, on the edge of a thicket of pines.

"Shall I put the horse out?" Dr. Dane asked. "There is neither man nor here to render such services

### A WOMAN'S BODY.

What Its Neglect Leads to. Mrs. Chas King's Experience.

A woman's body is the repository of the most delicate mechanism in the whole ealm of creation, and yet most women will let it get out of order and keep out of order, just as if it were of no consequence Their backs ache and heads throb and burn; they have wandering pains, now here and now there. They experience extreme lassitude. that don't-care and want-to-be-left-alone feeling,

excitability, irritability, nervousness, sleepless

ness and the blues, yet they will go about their work until they can scarcely stand on their poor swollen feet, and do nothing to help themselves. These are the positive fore-runners of serious womb complications, and unless given immediate attention will result in untold misery, if not death. Lydia E. Pinkham's Vegetable Compound will, beyond the question of a doubt, relieve all this trouble before it becomes serious, and it has cured

many after their troubles had become chronic. The Compound should be taken immediately upon the appearance of any of these symptoms above enumerated. It is a vegetable tonic which invigorates and stimulates the entire female organism, and will produce the same beneficial results in the case of any sick woman as it did with Mrs. CHAS. KING, 1815

Rosewood St., Philadelphia, Pa., whose letter we attach: "I write these few lines, thanking you for restoring my health. For twelve years I suffered with pains impossible to describe. I had bearing-down feelings, backache, burning sensation in my stomach, chills, headache, and always had black specks before my eyes. I was afraid to stay alone, for I sometimes had four and five fainting spells a day. I had several doctors and tried many patent medicines. Two years ago I was so bad that I had to go to bed and have a trained nurse. Through her, I commenced to take Lydia E. Pinkham's Vegetable Compound, and I never had anything give me the relief that it has I have taken eight bottles, and am now enjoying the best of health again. I can truthfully say it has cured me."

There are many of them. Not a citizen of Michigan that does not have them in his household. It's the Old Story, too much to do; can't do the work. Backs forced to carry heavy burdens are not confined to toilers of the street. They are found "in every walk of life;" people of "high degree" have bad backs, too, because they all have kidneys. Do you know what kidneys are for? They filter the blood, take out the poisons. Filters can only work just so fast, try to crowd them, they become blocked; then they kick; that's the time to help them, otherwise they soon are "Chronic Kickers." Ever have your kidneys kick? Know where they strike? Perhaps you have had a bad back, a lame, weak aching one. Didn't know the cause. Well, that's how the Kidneys Kick. The kidneys are near the small of the back and when their work gets too hard, they warn you. Your back aches, is weak or lame. Help the kidneys out or many troubles come. Kidney troubles, Urinary troubles and oftimes Bright's disease. There is only one kidney helper always at hand. DOAN'S KIDNEY PILLS are perfect mechanics in their line and made for kidneys only. If you would help the kidneys, take DOAN'S KIDNEY PILLS. For any kidney ills take DOAN'S KIDNEY PILLS, because they cure. Here is Michigan proof that this is so:

[A State Official.]

Mr. A. P. Gale is at present engaged in the Department of Secretary of State, and is well-known in Flint, as his home is at Atlas P. O., near that city. The following letter, written by Mr. Gale will interest many readers:

"Gentlemen:—For over 10 years, for more or less of the time, I have been a sufferer from Kidney trouble, and at times have been so bad as to be unable to lie in bed at night on account of the very severe pain across the small of my back; and for the past two years I have been rapidly growing worse until I be-came discourageed and felt that unless I could get some help soon my chances for life were pretty slim. The urine was very highly colored and at times deposited a red sediment. This continued until it was almost impossible for me to perform my work in the office, while at times I was compelled to quit work entirely. This condition lasted until about a month ago, when I saw your advertisement of Doan's Kidney Pills and concluded to try them, though without much faith of receiving any benefit, but, to my great sur-prise, before I had taken half a dozen doses. I felt so much relief that I began to be encouraged; and now, after using six boxes, I am sure that they will do just what you claim for them also recommended them to friends i with me who complained as I did and they claim the same results from them that I have experienced. I was afraid of them at first for fear they would act as a purgative, but I had no trouble of that kind from the use of them. Doan's Kidney Pills have benefited me so much that I feel very grateful to you. (Signed) A. P. GALE."
