Filial Duty Conquers Cupid—A Suicide.
Wm. Wright and Charles Orth were rivals for the hand of Miss Olive Webb, a pretty young lady of Muir. The rivalry grew intense and bitter feeling existed between the young men. Wright was the favored one, however, and all arrangements were made for the wedding. The aged mother of Miss Webb is totally blind and needed her daughter's services at home. A struggle between love and duty led Miss Webb to change her mind and she told Wright she could not marry him while her mother lived. Wright went to his home near North Plain in a very despondent frame of mind. Soon afterward his father, upon going to the barn, was horrified to see his son's body hanging from a beam.

The Dread Yellow Fever Appears in the South and Quarantine Is Being Established—Nitro-Glycerine Explosion Kills Six People at Cynnet, O.

Yellow Fever Appears in the South.
"Yellow Jack," the dreaded yellow fever which has in years past caused such fearful devastation in portions of the southern coast and gulf states, has again made its appearance. Ocean Springs, Miss., the aristocratic summer resort of New Orleans' wealthy classes is the first point on United States soil to feel the grasp of the terrible visitant, and as a result New Orleans is now practically in quarantine. There were several hundred cases at Ocean Springs with frequent deaths and the boards of health of Alabama, Mississippi and Louisiana took precautions to prevent its spread, but Raoul Gelpi, who had been spending the summer at Ocean Springs, was taken to his home at New Orleans and died the next morning. Dr. Walmsley, acting president of the board of health there, after an autopsy, announced that Gelpi had died of yellow fever. The death of young Gelpi naturally caused much excitement in the city.

All of the principal cities of the south are now quarantining against Ocean Springs, Biloxi and other gulf points and should there be the least sign of a spread of the disease in New Orleans quarantine will be declared against that city.

A telegram from Edwards, Miss., states that Hon. S. S. Chapman, a member of the state legislature since 1890, and a prominent politician, died from what was supposed to be yellow fever, after having visited a neighboring family—seven of whom were ill—soon after they returned from Ocean Springs.

The U. S. authorities have ordered Dr. John Guiteras, of the University of Pennsylvania, a Cuban and a yellow fever expert, to visit the infected districts and report the condition of affairs as soon as possible.

Terrible Nitro-Glycerine Explosion.
An explosion of nitro-glycerine occurred at Cynnet, O., which resulted in the death of at least six persons. Preparations were made for shooting an oil well which was a gasser and when the 120 quarts of glycerine was let down into the well and exploded the gas ignited and with a roar the flames shot high above the derrick. As soon as the drillers saw the flames several climbed into the derrick to shut off the gas, but they had hardly gotten there when there was a second terrific explosion. The burning gas had started the remaining glycerine in the empty cans standing in a wagon near the derrick. In another wagon near by was another 120 quarts of the stuff and this was exploded. The second was blended with the first in a mighty roar and the town and surrounding country for miles trembled from the shock. The National Supply Co.'s building was completely demolished and nothing remains but a big hole where the wagons stood. There is not a whole pane of glass in any window in the town and every house and store was shaken to its foundations.

The known killed are Sam Barber, Allen Fallis, John Thompson, Charles Bartel, Henry Lansdale and Havens, a boy.

The damage to the Ohio Oil Co. will amount to \$3,000. Eight buildings are a total wreck and many others damaged.

Farmers' National Congress.
The farmers' national congress was held at St. Paul, Minn., Dr. A. M. Sotelo, of Venezuela, congratulated the farmers on the return of prosperity, and sketched the prospects and possibilities of his own country. He hoped soon to see the establishment of a colony of American farmers in Venezuela. Senor Romero, Mexican minister to the United States, expressed the belief that American farmers would do well to turn their attention that way. Ex-Gov. Hoard, of Wisconsin, was chosen president, Secretary Stahl was re-elected, and N. G. Spalding, of New York, was made treasurer. Samuel Gibson was elected vice-president for Michigan, and Alex. Dunlap, of Manitoba, Mich., was elected second assistant secretary.

Seven Killed by Natural Gas Explosion.
Broad Ripple, a suburb of Indianapolis, was the scene of two of the most terrible disasters that has ever visited the state. Seven persons were burned to death and thirty people are lying in the homes of neighbors burned, scarred and racked with pain from broken bones. Four buildings occupying a block of the town are ruined. Of the seven dead nothing remains but charred and blackened bones with hanging strips of foul smelling flesh. The disaster was caused by natural gas leaking into the cellars of the buildings from a three inch main that ran in the street from which the houses were supplied.

It is reported that Haddad Mullah has abandoned the idea of attacking the Khaz-Dir and is gathering his forces for an attack upon Peshawur.

The corporation of Brown university at Providence, R. I., voted to request President Andrews to withdraw his resignation. The trustees came down from their "high horse" and declared that they made a mistake in their previous action censuring President Andrews for expressing his views on certain political questions. It is not likely that Prof. Andrews will withdraw his resignation.

THE NERVE OF THE JAPS.

Planning to Steal the Nicaragua Canal from Uncle Sam.

According to semi-official advice from Nicaragua, the Japanese government is secretly negotiating with the diet of the Greater Republic of Central America, which recently met in Salvador, for the construction of the Nicaragua canal, independent of and in defiance of the interests and influence of the United States. If Japan can compass it she would like to obtain the abrogation of all treaty rights possessed by the United States in relation to interoceanic transit and the forfeiture of the American canal concession from Nicaragua and to immediately make a treaty with the diet of the Greater Republic of Central America, giving her control of the great route through Nicaragua. It has been suggested in some quarters that England may be working in collusion with Japan, but this idea has no tangible basis.

Lots of Gold at Michipicoten.

The first party of Michigan prospectors to arrive from the newly discovered gold region at Lake Wawa, seven miles from the shores of Lake Superior, back of Michipicoten, Ont., was a party of eleven residents of the " Soo." They substantiated without exception all that has been said of the great richness of the new gold field. They were among the "first outsiders" to arrive at Wawa and all secured promising claims, which were staked out and for which application will be entered at once. In all the party will make application for 4,000 acres. Three members of the party were left on the ground to protect their interests. Many samples of quartz were brought back by them and they say that where the veins are laid bare the gold particles can be seen everywhere in the quartz.

The distance from the mouth of the Michipicoten river to Lake Wawa is not to exceed seven miles and the party experienced no difficulty getting in and out. With their camp equipage the trip was made in about three hours time. The location is such that mining machinery can be cheaply transported there. The quartz is of a nature that is easily mined and milled and from all appearances there are inexhaustible stores of it.

Large numbers of prospecting parties are flocking into the Lake Wawa district by every boat and a lively mining camp of goodly proportions has already sprung up.

Consul-General Lee Leaves Cuba.

Gen. Fitzhugh Lee, the U. S. consul-general to Cuba, accompanied by his son and private secretary have sailed on the Ward line steamer Segura, bound for New York. Gen. Lee said he was simply availing himself of a 30-days' leave of absence granted to him by the state department. Previous to leaving Gen. Lee called upon and bid farewell to Capt. Gen. Weyler and the Marquis Ahumada, the governor of Havana. It is reported that a successor to Gen. Lee will be appointed by the President at once, but Assistant Secretary Day of the state department says that Gen. Lee is expected to return to Havana about Oct. 1.

Amidst Still Cause British Trouble.

The Cuban press, through which the Peshawur column is trying to reach Kohat, is reported to be strongly held by Bazaris. Heavy fighting is anticipated. It is reported that a punitive expedition consisting of 20,000 British and native troops will shortly be sent into the Arab country with orders to push on to Tirah.

Dust Explosion Kills 12 Miners.

An explosion of dust occurred in the old Sunshine coal mine of the Colorado Fuel and Iron Co., near Greenwood, Colo., and at least 12 miners were instantly killed. The 12 bodies were recovered in a short time by rescuing parties who continued at their work, as it is believed that there are other bodies in the debris. The bodies taken out were horribly mangled and most of the identifications had to be made by the clothing. Nearly all of the dead were Italians.

JAPAN WILL ARBITRATE.

Willing to Submit Her Differences With Hawaii to the King of Belgium.

The Japanese government has accepted the proposal to arbitrate its differences with Hawaii. The imperial government are firmly convinced that their complaints in this matter are well founded and that their demands are just and reasonable. Nevertheless, in a spirit of conciliation and in the hope that their action may contribute to the good relations of the two countries they have resolved to accept, subject to certain necessary limitations and qualifications, the proposal of the government of Hawaii. . . .
