This was the case with Mary out her days in misery happines and do work that would shame many a younger woman. Ever since my finds herself so active and strong she can do work that would shame many a younger woman, happy, healthful years of indestry. But let her tell her story:

"Thirty-six years ago I had great mouble with my liver. The doctors all weed that there were tumors growing on it and they blistered my side in an cit of to give me relief. I was at that time carping my living as a tailoress but for five years, between the pain in my side and the blisters I was in constant mirery, and work was a drag to me, with no prospect of relief, fortunately for me, however, a friend advised me to take Dr. Ayer's Sarsapatilla, and finally piervuaded metotake a regular course of it. When I first commenced taking the Sarsaparilla my side was a basinful that I could not fasten my dress, and for a time I did not get any Mary Lingard Legan with a complete cure.

THE - CUBAN - JUNTA.

AT HEAD OF THE AMERI-CAN END:

Delicate Dutles Imposed on Them President Palma Has Shown Remarkable Sagacity and Has Become Known as the Cuban Franklin.

The Cuban Junta, with its head-quarters in New York, represents the legation of the Cuban republic abroad. and the head of the junta, as it is called, is T. Estrada Palma, Properly speaking he is the delegate, and with members of his ministerial and diplomatic-household constitutes the delegation of the Cuban republic.

The term "junta" has been applied

because such a body or council was attached to the diplomatic department of Cuba during the ten years' war. As the authority of the junta frequently restricted the action of the delegate the promoters of the present revolution decided to eliminate it; yet the name remains, and is used and accepted to designate Mr. Palma and his associates.

This junta, as the representatives of the Cuban republic, acts on high authority, for the delegation was ap-pointed on Sept. 19, 1895, by the constituent assembly that formed the govern "ent and commissioned Maximo Gomez chief commander of the Cuban army. At the same time it made Mr. Palma delegate and Cuban representative abroad, with authority to appoint ministers to all governments and to have control of all of Cuba's diplomatic relations and representatives throughout the world. Besides this Mr. Palma is the duly accredited minister from Cuba to the United States, and in the event of the Cuban republic being recognized would be received as such

Under his authority Mr. Palma has appointed sub-delegates, or diplomatic agents, in France, Italy, Mexico, and the Central and South American republics. Cuba's independence not being acknowledged by these nations. her ministers are not officially recognized, but are often unofficially re-ceived at the "back door," and exert an influence for the benefit of Cuba in the countries for which they are appointed. Mr. Palma is in reality the head of the Cuban revolutionary party abroad, which is one of three departments of the Cuban revolutionary government, the two others being the civil government and the army of libbranch was founded by Jose Marti. who is regarded by Cubans as the apostle and master mind of the Cuban ma, all others received their appointering head and front of the junta, but he is head and front of the junta, but he is him until it influenced his every word and act, and finally received his entire devotion. So direct, gentle, yet determined are his methods, and so unassuming and plain is he in speech and manner that he soon became known as the "Cuban Franklin," and more firmly has the name become attached to him since the potent influence of his diplomacy has been felt throughout the world. During the ten years' war Mr. Palma was president of the Cuban republic; was made prisoner by Spanish troops, and sent to Spain, where he was imprisoned until the close of the conflict. While in Spain, absolutely suffering under the hardships of imprisonment, he was offered freedom if he would swear allegiance to the Spanish crown "No" was his answer. "You may shoot me if you will, but if I am shot it will he as the president of the Cuban repub-

TRIALS OF SALESWOMEN.

Mrs. Pinkham Says Standing Still is One Woman's Most Trying Tasks.

Have you ever thought · it is that so many women or girls rath .cfor an hour than stand still for ten mi It's because most women suffer from some derangement of their delicate organism, the

discomfort from which is less trying when

they are in motion than when standing. So serious are these troubles and so dangerous to health that the laws in some states compel employers to provide resting places for

their female employees.
But no amount of law can regulate the hard tasks of these women. Customers are exacting, and expect the saleslady to be always cheerful and pleasant. How can a girl = cheerful when her back is sailed by lassitude and bearingter how sweet tempered she is way under the pain after a while.

Do not he sitate to write her all the little things that make you feel miserable. by any man, and Mrs. Pinkham's advice will cost you nothing Read this letter from Mrs. MARGARET ANDERSON, 463 Lisbon St., Lewiston, Me.

'DEAR MRS. PINKHAM:-For years I had suffered with painful menstruction every month. At the beginning of menstruation it was impossible for me to stand up for more than five m.nutes, I felt so miserable. One day a little book of Mrs. Pinkham's was thrown into my house, and I sat right down and read it. I then got some of Lydia E. Pinkham's Vegetable Compound and Liver Pills.

I can heartily say that to-day I feel like a new woman; my monthly suffering is a thing of the past. I shall always praise the Vegetable Compound for what it has done for me."
