> We read in your paper that more goods have been sold during this holiday season [Furniture we mean] than was ever disposed of before in Manchester at a holiday time. This is as it should be, only it ought to be five times the quantity that it was.

We would hate, yes fairly dread to do business in a town where we had no competition. We might be Abraham Lincoln or a George Washington, but even then some one would think as we had it our way that we were charging twice as much for an article as we should. And we actually would be afraid of ourselves. We would be afraid that we would get lazy, shiftless, and indifferent, that our store, our stock, our methods would get behind the times. We earnestly believe that bright, honorable, hustling competition is a blessing to the people directly engaged in the business, and of untold value to the whole community. Manchester with two Furniture stores can satisfy and please all its people-taking a train and leaving Manchester dollars somewhere else is a thing of the past. Now you do not have to pack your satchel and travel, and on the other hand you CAN AND SHOULD cause lots of your friends and relatives to come to Manchester by telling them of the splendid stores and fine assortments we have in your city. Speaking of our own store, you will never find us standing still, we are always trying to make our place, our methods and arrangements better and better. Before we are done we promise you that many a customer will come to Manchester for their goods, that have never left a dollar here before. Is this as you want it?" If so, don't be afraid to advertise a little yourself by telling your friends. Come with them to our store. You will not be disappointed.
