Grip is a treacherous disease. You think it is cured and the slightest cold brings on a relapse. Its victims are always left in a weakened condition - blood impure and impoverished; nerves shattered. Pneumonia, heart disease

and nervous prostration are often the drive every trace of the poisonous derms from the system, build up and enrich the blood and strendthen the negrot Pr. Williams' Pink Pills for Pale People will and strengthen the nerves. A trial will prove this. Read the evidence:

when the grip last visited this section Herman H. Eveler, of 811 W. Main St., Jefferson, Mo., a well-known contractor and builder, was one of the victims, and he has since been troubled with the after-effects of the disease. A year ago his health began to fall, and he was obliged to discontinue work. That he lives to day is almost a miracle. He says:

"I was troubled with shortness of breath, palpitation of the heart and a general debility. My back also pained me severely. It ried one doctor after another and numerous remedies suggested by my friends, but without appearent benefit, and began to give up hope. Then I saw Dr. Williams' Pluk Pills for Pale People extelled in a St. Louis paper, and after investigation decided to give them a trial.

"After using the first box I felt wonderfully releved and was satisfied that the pills were putting me on the road to recovery. Hought two more boxes and continued taking them. "After taking four boxes of 1rt. Williams' Pluk Fills for Pale People I am restored to good health. I feel like a sew nor, and having the will and energy of my former days returned, I am capable of transacting my business with increased ambition.

"the Williams' Pluk Pills for Pale People are wonderful medicine and any one suffering from the after facts of the grip will find that these pills are the specific. H. H. Evel. Ex. HOW CREAM TARTAR IS MADE

Cream of Tartar-which enters so largely into the manufacture of Dr Price's Cream Baking Powder-is obtained from the tart Wines of France, Germany, Austria, etc. The Crude Tartar, called Argolis, is deposited on the sides of the wine casks during the fermentation of the wine. After the wine is drawn off, this crystal deposit is removed. dried and exported to America where the elaborate process of refining takes place, producing the snow-white erystals of Cream of Tartar.

In singling out Dr. Price's Cream Baking Powder from all its competitors and bestowing upon it a special Gold Medal, the California Midwinter Fair concurred in the verdict given by the World's Fair jury, which awarded both medal and diploma to Dr. Price's Cream Baking Powder, declaring it superior to every other brand.

The victories won by it at all the great fairs, and its wonderful growth in popular favor, due to its purity, uniformity, wholesomeness, keeping qualities and excellence, have confirmed and emphasized it as
