JUDGE CRANT, RECENTS SUT-TON AND DEAN ELECTED

By Large Majorities - Republicans Alse Elected a Large Majority of the Circuit Judges - The Constitutions Amendments Safely Carried.

Fair weather in the state did not ng out as large a vote as might have been expected. The returns thus far received indicate that Judge C. B. Grant was re-elected by an estimated plurality of 30,000, and, that Col. Eli R. Sutton and Col. Henry S. Dean were elected regents of the university by a plurality of perhaps 35,000, running ahead of their ticket in many locali-ties. The Republicans also elected a

big majority of the circuit judges in the 36 judicial circuits of the state although the result is in doubt in one or two districts. Returns from 48 cities in the state show that the Democrats elected 18 mayors, while the Republ captured 23. The others were elected on Union or Citizens' tickets and the ssues were purely of a local nature. Many cities and villages voted favorably on the question of bonding for improvements. Returns on the con-stitutional amendments are meagre, but results at hand warrant the statement that they have carried. In some cases the majorities were heavy in favor of them.

WAR NOTES.

It is now believed that the backbone of the rebellion in the Philippine Islands is broken. Many of the natives have already laid down their arms and are returning to their homes. Those who have surrendered, and have learned that the promises of good treatment are fulfilled, are inducing their relatives to return to their homes, and thus it is believed the war will finally be brought to a close, or rather confined to the habitual revolutionists.

Rep.
