What Do You Pay For Coffee That's a practical question! Are you paying too much? If you're paying a high price, you're probably paying as much for a name as for the coffee Arbuckles' Coffee is a plain, substantial coffee with an excellent aroma and delicate flavor, sold in a substantial way at an honest price. You don't want better than good coffee, do you? You can't afford to pay twice the price that's necessary, can you? Then why not get Arbuckles'? Get right down to the coffee question and settle it now. By buying many millions of pounds we buy the best of many large plantations at a low price. We sell it to you at a low price because we would rather sell millions of pounds at a low profit than a thousand pounds at a big profit. Arbuckles' Roasted Coffee is the daily beverage on millions of tables. - Why not on vours? There's an additional consideration in the many substantial and useful articles that go with the coffee. Ask your grocer for it. He'll tell you all about it. If he endeavors to substitute an imitation, insist on getting the genuine Arbuckles'-or go elsewhere. ARBUCKLE BROS.,
