Hands and Limbs Covered with Blisters and Great Red Blotches. Scratched Until Almost Wild. Burned Like Fire. Sleep Impossible. CUTICURA Remedies Bring Speedy Relief and a Permanent Cure at a Cost of Only \$2. I was a sufferer for eight years from that most distressing of

country, but they did me little good. The paims of my hands were covered and would become inflamed; little white blisters at first would appear, then they would peel off, leaving a red,\_ smooth surface which would burn like fire and itch; well, there is no name for it. On the of the upper part of both, my

limbs great red blotches, not unlike hives, would appear, and as soon as I became warm the burning and itching would begin.

Night after night I would lie awake all night and scratch and almost go wild. I heard of CUTI-CURA REMEDIES, get them and

rave them a thorough trial, and after a few applications I noticed the redness and inflammation disappear. Before I had used one box there was not a sign of Eczema left. I can truthfully assert that \$2.00 worth of CUTICURA REMEDIES cured me. There has been no sign of its return anywhere upon my body since I wrote you I was cured, nearly four years ago. Hardly a . month passes but what I receive a letter or some one calls and wishes to know how I got cured, if I had Eczema bad, and if the cure has been permanent, etc., etc. I always take pleasure in enlightening them the best I can.
