Nutmegs grow on little trees which look like pear trees, and are generally not over twenty feet high. The flowers are much like the lily of the valley They are pale and very fragrant. The nutmeg is the seed of the fruit, and mace is the thin covering over the The fruit is about as large as a peach. When ripe it breaks oper trees grow on the islands of Asia and seventy or eighty years, having ripe fruit upon them all the seasons. A fine tree in Jamaica has over 4,000 autmegs on it yearly. The Dutch used to have all this nutmeg trade, as they owned the Banda islands; and sered all the other traders and de stroyed the trees. To keep the price up they at once burned three piles of nutmegs, each of which was as large Nature did not sympa thize with such meanness. "Oh, I beg your pardon, sir," the litle smoker hastened to say, and he hurriedly brushed the ashes from the other's sleeve. The sour man scowled ercely "Well don't let it happen he said. Quick as a flash the apologetic look died out of the face of the little man. "Why," he demanded. "what would you do if it did happen again," he said. "I'd show you blank puick," said the other, so fiercely that the conductor trembled, and in clutching the rail to steady himself rang up an extra fare. The little man puffed on his pipe till he had it in a healthy glow. Then when the ashes were well formed on the top of the bowl he turned till he faced the sour chap and deliberately blew the entire collection the men. They practice "divine healinto his face.
