Wonderful shall be well a grown of the chickens, and Christ in a strange house and terrified it was a connect which we come for spiritual safety on to monopolize the splendid jeweiry on the wings under which we come for spiritual safety on the monopolize the splendid jeweiry on the wings on the which we come for spiritual safety on the monopolize the splendid jeweiry on the which we wait in which is the splendid jeweiry on the clouds. So Christ calls with great early whose and terrified two wings, are tempest ton the lewer the proposed wings, are tempest ton the wings. In the isle of Wight I saw the game of Princess Elizabeth, who in the late of the children is theirs. A good home is theirs. Plenty in the wings of the wings of the proposed wings, are tempest ton the wings. In the late of the children is theirs. A good home is theirs. Plent only safety. Would that Christ might this day take our sons and daughters into his shelter "as a hen gathereth her chiekens under her wing."

The fact is that the most of them will never mind the shelter unless will never mind the shelter unless will never mind the shelter unless while they are chickens. It is a simple matter of inacorable statistics that the most of those who do not come to Christ in youth never come at all. most of those who do not come to Christ in youth never come at all Fathers, mothers, older brothers and sisters and Sabbath school teachers, be quick and earnest and prayerful and importunate and get the chickens under wing. May the Sabbath schools of America and Great Britain within the next three months sweep all their scholars into the kingdom. Remember, your children will remain children only a little while. What you do for them as children you must do quickly see as far. The work of them as children you must do quickly see as far. The work of them as children you must do quickly see as far. The work of them as children with next three months seep all their seed to need the hene, but the hene as children will remain children will remain children will see as far.
