The vote in Ann Arbor and Ypailanti was proportionately smaller than it was in Manchester. But it seems to be a good way to vote, a great improvement over the old way. Of course there are some objections to it and it might be improved. When all political parties approve of and adopt the plan it will have a tendency to draw out more voters and it will assist in putting a stop to so much machine politics.

CONTRACTOR OF THE CONTRACTOR OUR 2d HAND STORE.

We have found that it's good policy to have a 2d hand store in connection with our great buildings. So many people that are well to do, those that are making money so fast that they hardly know what to do with it. we find this kind of people and lots of others that get tired of the furniture that they have had only a few years and desire the new and up-to-date articles. By taking such articles off from their hands and allowing them some things for them we sell many big bills of beautiful goods.

nice 2d hand goods. Nicholas Fish of the famous New THE VICTIM, HIS WIFE, AND SISTER-IN-LAW. York family, banker, father of Hamilon Fish, the rough rider, hero of the Spanish war, and a brother-in-law of Mrs. Stuyvesant Fish, the New York society leader, was so brutally attacked in a public drinking place in West Thirty-fourth street, New York, Sept. 16, that he was picked up unconscious on the sidewalk in front of the place and taken to the Roosevelt hospital. There he died. The killing of the famous banker by Thomas Shakey, private detective guide, in a quarrel over a woman, was as evil an episode as New York has known for years. The leader of the habitation is James Cloud, a minister of the Methodist faith, who conducts a small farm two miles from the river's mouth. He says he can remember his father telling of the battle between the Ghippewas and Osaukenons at Skull Island, now commonly known as Stone island.
