EVERY CHILD BORN INTO THE WORLD with an inherited tendency to distressing, disfiguring humours of the skin, scalp, and blood, becomes an object of the most tender solicitude, not only because of its suffering but because of the dreadful fear that the disfiguration is to be lifelong and mar its future / -happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest, and most effective treatment available, viz., THE CUTICURA TREATMENT. Warm baths with CUTICERA NOAP, to creamse the sain of crusts and somes and soften the thickened cuticle, grattle anointings with CUTICERA OINTIMENT, to lastantly allay itching, irritation, and inflammation, and soothe and heal, are all that can be desired for the filleviation of the suffering of skintortured infants and children and the comfort of worn-out, worried mothers.
