A New Year.

It was New Year's Eve; a mild,

ing mature years.

The coming year promises to see any paper: "We may, and I believe shall, have news transmission by air waves mixed of commercial and industrial development than even that of safety may and the phonographic instruments which will repeat the news of the day and without even the safety made that April 2000 and the phonographic instruments which will repeat the news of the day and without even the safety made that April 2000 and the phonographic instruments which will repeat the news of the day and without even the need of speaking the safety made that American trade with prefer. The great force of the future is seemable as lasconic Hall, relative or of the Pacific ocean. It is not seen the safety waste of nervous tissue, and the phono-air-wave newspapers of their producers without any such manual labor as writing and without even the need of speaking the safety made that American trade with prefer. The great force of the future is electricity, and it is in its infancy as yet. It will be used to obviate all power of the Pacific ocean. It is not beyond the bounds of possibility as yet. It will be used to obviate all while the implements of war have been a tructive weapons of war of the present day.

MAY D. Blooses Recorder.

**The coming year promises to see into phonographic instruments which with more destructive effect, yet the brains of their producers without any such that it will be as commendable to speak at much greater distances and with more destructive effect, yet the brains of their producers without any such manual labor as writing and without even the need of speaking the news of the day and without even the need of speaking the part promises to see into phonographic instruments which will repeat the news of the day and without even the need of speaking the part promises to see into phonographic instruments which with more destructive effect, yet the principles of war have not changed, although skill, science and strategy to some extent take the place of vallant is of their producers without any su

kets in Japan and China, South Amer ica, and in fact all of the markets tha have been monopolized by England. Germany and France. Having great natural advantages over our European competitors: we will eventually win The rapid growth of the great schools of applied science in the un ersities of America has been one of the most notable features in the educational history of the past thirty years. To this more than to any other cause is due the overshadowing success of American manufactures and commerce. Higher education is coming more and more to mean development of the highest practical effectiveness. Without abundant and thor ough technical training good articles cannot be produced in competition with the world. Navies, tariffs, trust nd other devices cannot take the place of expert knowledge.

for a sudden and a practical advance less telegraph. The scientific achievement which had been dreamed of for nearly half a century, and only with hing better than a dream, has given the most definite and the most en couraging evidences of its claim to be regarded as one of the world's great est accomplishments in the domain o practical science. Something of the same kind, although in a lesser de-gree, may be said of the attempt to construct a flying machine, that project which had its beginning, so far as we know, in the realms of classic fable, and may have had its beginning for aught we know in days long before the gods of Greece had ever come to be classified and worshiped it is not too much to say that what it is not too much to say that what ever man come of this ever-renewing enterprise, the year saw the most practical evidence of its possibility per given to the world. The year cannot boast of any great triumphs enterprise its own the section of the secti tirely its own in the realms of litera-ture and art. Its literary and ar-tistic firmament has not indeed been clouded, but no new star of the first magnitude, new blazing comet even, has arisen on the field of mortal vision. It has been a year of materialistic advances, though important scientific problems have been solved What will the new year see?

MERCHANT AND THIEF

ALTERNATED ROLES OF

GEORGE DICKINSON

Monday evening, at the monthly meeting of the Congregational club, Leon, H. Vincent spoke on "Kings of the Colonial Pulpit," giving a history of the Mather family and their habits. He said the Puritans were always what makes New England to-day the sides studying the Puritans spent, their spare time in persecuting here-

SERMONS TO THE PURITANS.

there would be nothing left for them to do but to seize the customs houses and administer the revenues for their arbitrate the Venezuelan difficulty.

Castro has signified acceptance of the seventeen minutes while not feeling well. How long he would have talked if he was in good health! A Harwas always the possibility of a clash resulting in the loss of life.

On the other hand, many of the President's warmest friends and admirers believe it is a great diplomatic blunder for the United States to take a hand in the Venezuelan difficulty in ports. This blockade will have the ablockade will have the processory and the service of a blockade will have the ports. This blockade will have the processory have been served as a computation of time. The audience would look at the sandglass to see that they got their money's worth.

Mr. Vincent said Cotton Mather was probably the smartest boy in the family, and at the age of eighteen he

oring matter in food products, began

gets acquainted.

"Dear Mrs. Pinkham': — It is with thankfulness I write that Lydia E. Pinkham's Vegetable Compound has been of the greatest help to me. My work keeps me standing on my feet all day and the hours are long. Some months ago it didn't seem as though I could stand it. I would get so dreadfully tired and my back ached so I wanted to scream with the pain. When I got home at night I was so worn out I had to go right to bed, and I was terribly blue and downhearted. I was irregular and the flow was scanty, and I was pale and had no appetite. I told a girl friend who was taking your medicine how I felt, and she said I ought to take it too. So I got a bottle of Lydia E. Pinkham's Vegetable Compound and commenced to take it. It helped me right off. After the first few doses menstruation started and was fuller than forsome time. It seemed to lift a load off me. My back stopped aching and I felt brighter than I had for months. I took three bottles in all. Now I never have an ache or pain, and I go out after work and have a good time. I am regular and strong and am thankful to you for the change. "I recommend Lydia E. Pinkham's Vegetable Compound whenever I hear of a girl suffering, for I know how hard it is to work Whenever I hear of a girl suffering, for I know how hard it is to work City. Women should not fail to profit by the experiences of these DEAR MRS. PINKHAM: - It is with thankfulness I write that Lydia

you feel so sick."—Miss Mamie Keirns, 553 3th Ave., New York City.

Women should not fail to profit by the experiences of these women; just as surely as they were cured of the troubles enumerated in their letters, just so certainly will Lydia E. Pinkham's Vegetable Compound cure others who suffer from womb troubles, inflammation of the ovaries, kidney troubles, irregular and persons prostrapainful menstruation, nervous excitability, and nervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

Miss Amanda T. Petterson, Box 131, Atwater, Minn., says: "DEAR MRS. PINKHAM.—I hope that you will publish this testimonial so that it may reach others and let them know about your wonderful medicine.

"Reform to bines."

wonderful medicine. "Before taking Lydia" E. Pinkham's Vegetable Compound I was troubled with the worst kind of fainting spells. The blood would rush to my head, was very nervota and always felt tired, had dark circles around eyes. "I have now taken several bottles of Lydia E. Pinkham's. Vegetable Compound and am entirely cured. had taken doctor's medicine for many years but it did me no good."

me no good.
"Please accept my thanks for this most excellent medicine which is able to restore health to suffering women."

(Copyright, 1902, by Daily Story Publishing Co.) But over the happiness of Sister The bell of the Foundling's Home

rang softly, so softly that the old port- Dorothea there was always the shadress dozing at her post beside the ow of an impending sorrow; for from door took no heed; but Sister Mary time to time, now one and now another door took no heed; but Sister Mary time to time, now one and now anoth-Angela passing through the hall heard | er of the children whom the Sisters and herself answered the summons.

"She's tired, poor thing," she said that had been found for them in the with a pitying glance at the nodding outside world. There were days when

portress, and she stepped softly past the sleeper and opened wide the door. Instinctively her hand sought the basket that day and night stood just without the entrance; for Sister Mary Angela had been long in the Found-ling's Home and her categoing hands-and pitying heart had soothed and welcomed many a tiny outcast.

She lifted the child tenderly, and

loosening its wrappings; held it so that the rays of the dimly burning night-lamp shone full on its baby face. It opened big, violet-blue eyes and stared blinkingly at the light, and its dimpled hands clutched at a fold of the sister's black gown. To its dress was prined a paper on which was written a single line:

"Amabel, a gentleman's child."
And the sister read and signed oftly for the penciled words told a story with which she was only too

"Poor child," she said gently, "Poor child." and her thoughts were of the mother rather than of the babe she

But she blamed no one, this good sister, for she knew that to every story there are many sides and unheard she would condemn neither man nor woman.

In the gray light of the early morning Policeman O'Donnell followed silently a girl who, muttering incoher ently and wringing her hands, walked rapidly toward the bridge and the darkly flowing river. She paused for moment above where the current ran swiftest and the policeman laid

"None o' that, my girl," he said gruffly, "none o' that!" And at the sound of his voice the

self, "there is no need for haste in finding her a home." poor, distraught creature burst into wild sobbing, and turning, clutched desperately at his arm. "I don't want to." she cried, the love

of life rising strong within her and fighting against the black despair that possessed her soul. want to; but there's nothing else for me to do; in all the wide world there's no place for me."

The burly_policeman patted shoulder with rough kindliness. "We'll see," he said, "we'll see. Come with me, my girl." And half leading, half carrying her he made his way through the silent streets and stopped before square, brick building. But the gir drew back protesting.

"Not here," she cried, "any where but here; it is the Foundlings Home." "And what if it is." O'Donnell said not Reeding her protest, "the good sisters will know what to do for

And he rang the bell and gave her in charge of Sister Mary Angela, who took the forlorn girl in her arms and soothed and comforted her as she

"You shall stay with us as long as you will," the Sister said, "We need on the steps last night. The Sister's have so many to care for; you shall have charge of it."

"For," the Sister said to herself, she must be taken out of herself She needs something to love and the

ale grocery house of J. L. Connell, on baby needs a mother. And the girl caught at the Sister's Two hand and the light of hope came back firemen were badly burt by falling to her dull eyes.

"You will let me stay." she breather softly, " and I may love the little baby.
Oh, God be thanked!"

Sheltered within the walls of the Foundling's Home and tenderly cared for by the good Sisters the little Amabel grew and blossomed like a flow

MACKEY'S RULE IN EUSINESS THE SON U. S. MINISTER TO ENGLAND

Hon. Louis E. Johnson is the son of the late Reverdy Johnson who was United States Senator from Maryland, also Attorney General under President Johnson, and United States Minister to England, and who was regarded as the greatest constitutional

lawyer that ever lived.

In a recent letter from 1006 F. Street, N. W., Mr. Johnson says: "No one should longer suffer from catarrh when Peruna is accessible. To my knowledge it has caused relief to so many of my friends and acquaintances, that it is humanity to commend its use to all persons suffering with this distressing disorder of the human system."--Louis E. Johnson.

Catarrh is capable of changing all the life-giving secretions of the body into scalding fluids, which destroy and inflame every part they come in contactswith. Applications to the places affected by catarrh can do little good save to soothe or quiet disagreeable symptoms. Hence it is that gargles, sprays, atomizers and inhalants only serve as temporary relief. So long as the irritating secretions of catarrh continue to be formed so long will the membranes continue to be inflamed, no matter what treatment is used.

There is but one remedy that has the desirable effect, and that remedy is

desirable effect, and that remedy is Hartman Sanitarium, Columbus, Ohio.

THE CHILDREN ENJOY Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is— Syrup of Figs-and for the same reason it is the only laxative which should be used by fathers and mothers. Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle-Syrup of Figs. Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. The genuine art bought anywhere of all reliable druggists at fifty cents per bottle. Please CALIFORNIA FIG SYRUP CO .- is printed on the front of every package. In order to get its beneficial effects it is althe genuine only.

LANE'S FAMILY MEDICINE
