against Nell, even by Nell herself.

side—then it fell.

"Our Nell's fust about bad," they ld him as he passed on his way to They shook their heads, and, catching his lengthening look, their cious imitation.

When Nell was in good health, they had been apt to laugh at his undis-guised devotion to her. But now, shaken by fear, cut adrift from their unquestioning trust in a realized Providence, they unexplained relief in handing on their apprehensions to one feeling, with some possible addition of

His expressive eyes implored their any humblest sphere of usefulness as he lingered on the worn doorstep.

They certainly considered, but for the moment nothing came to them, to heir opvious regret. For although a cot greatly, as it seemed, attracted Nell—yet in times of sickness, as her mother said, there was no felling what might come in handy, and they decided to leave the question an open

noise" he suggested timidly.

-The next night it was three less,

the two yourgest boys inviting themsupper and the glorious freedom of

"Might as well all come as likes was his next suggestion, and Nell's ramped little home was cleared of all family, at least for the hours he could

But Joe's ambitton included a daily present for Nell herself, and that took ome thinking out. Who could tell him how best to convey his strong heart's tender pity for a loved and stricken lass by means of the few things at his command?

Since the nearest town was a train ourney distant and all his evennigs were occupied, he was restricted to the produce of his garden—or, at best of the village shop. As fresher, he generally made it garden produce; thus, beans and marrows formed his love-tokens while they lasted, with-still more homely first-fruits to follow. with be" A foolish something caught him ollow by the throat, and his next words "For Nell," he would say, with a

No one told him that in typhoid fever, vegetables, however fresh, are forbidden dainties, and not for fear of

hurting his feelings, but because there were others who could eat them and Nell grew better, but she did not

seem to understand. "The great gawk might have known as I couldn't eat his old garden stuff!" she would laugh while her laugh was still feeble. "If he thinks he's given me anything, I shall undecesse him pretty sharp. Cabbages, indeed—and me at death's

Then, at last, came a Saturday after-

the refining touch of illness to soften her racier too, pronounced good looks, took a walk in the direction, as it handed, of Joe's cottage. This was the longest walk she had I think, if you'd come this time with a

taken, and, forced to move very slowly, she had plenty of opportunity for stand such an attitude, he was content Joe coming along, for once, before he saw her; Joe tidled up and carrying to disregard what his mind would not grasp, while his arms grasped Nellhis daily offering a huge bunch of goldenrod instead of the customary cabbage: Joe with a long face and hesitating gait, for as a substitute for cabbages, he thought but poorly of the flowers himself.

The afternoon sunshine lit up the familiar with the sentiments of Segreat bunch of goldenros; lit up Joes, poys.

AT THE SIGN OF THE BEAR. Why the Fur is the Most Popular fo

Advertising. only once in ten years said he could not understand why the bears in Central Park seemed so much stuck u than the rest of the mals, but after eral days he saw through it. It was because 99 per cent of the furriers in town have chosen a big black bear

"It is because the bears last longer

furrier about it.

han anything else," said the furrier. don't know of any that have a harder riers' stores winter and summer, and try to drum up trade for their employ-It doesn't make any difference whether it blows hot or cold, those fellows have to stand at their post be. Naturally, all those changes are but bears can stand the strain. Some ture, but they have mostly come back cap allowed it to be seen, was the of the lot. They cost more, too. A of the flowers; his face was good stuffed bear comes as high as radiant with the smiles the sight of \$75, but if he is treated well he will Nell always brought to it. Until he last for twenty-five years, so that eached her and turned to walk at her brings him down to a comparatively low price after all."-New York Press.

#### PAYING FOR HIS FUN.

Youthful Philosopher Had Received Value for His Whipping.

"That boy of mine is a philosopher there's no doubt about it." mie's father as the boy bade the circle about the open fireplace good night

Through all the weary hours she never slept; nothing in it. Like as not I'll laffet at you up to my dying day; but if you dake mre, you'll find that tuere's no God sent His balm—her brow wax slumbers in that that it won't prevent

Who was it thus that waited in the Forget on the boon she might enjoy-It was a mather watching for her boy.

Seehed Like Hinting. "You don't call on Miss Cutting any more, I hear, Blobber.'

Did she reject you?

"Not exactly, but when I first began calling there was a mat at the doo with the word 'Welcome' woven in it and a motto on the wall that read 'Let is love one another.' Later I noticed But Joe had found his speech, "Lord, how I love you!" he cried, as that the doormat was changed for one that said, 'Wipe your feet,' and s motto declared that 'Early to bed and "That's all I want," said Nell. "Yet, early to rise make a man healthy, wealthy and wise, had the place of

"Then bless the flowers!" laughed the other one."—Stray Stories. -She hesitated and asked for a little time for consultation.

"Why, certainly." he said. "There is no hurry about this matter. If you desire to consult your parents—
"Don't you believe it for a moment,"
she interrupted firmly. "I want to

consult Bradstreet's." And he threw up the sponge an went out into the night.

Fuebending Soil Fertility. lesson to be ation. Our fathearned by this generation.

They found other animals in the Zoo should be so land so rich in plant food and in discriminated against puzzled the sumus that they deemed it impossi-man not a little. One day he asked a ble to wear out the soil. They took numerable crops from the land, and threw their manure into the river It become a habit to and streams. all the animals in New York I rob the land. Plant food and humus in the land were growing less and less with each succeeding year, but they did not know it. As the humus went, the ability of the soil to hold moisture went with it. began to believe that the years were getting more drouthy, though this was power to resist drouth. held moisture in the soik, and the richness had developed large plants. which in turn sent their roots down into the subsoil. With the lessening of the fertility, plants made smail i so failed to reach the supplies of moisture in the cool oil far below. When a few hot weeks came, the small rooted plants soon humus dried out. It is said that the presence of humus doubles the capaity of ordinary soil to hold water. Humus can be restored to the soil only by the use of ba nyard manure and of green crops plowed under Where the clovers can be grown the decay of their roots in the soil will he p matters some. The clover is likely to fail on land devoid of humus, and this complicates matters in attempting to bring back the soil

The first thing for farmers to do i prevent further loss of fertility and humus. Unfortunately, there are multitudes of farmers to-day still following the old wasteful methods and received from their parents. We may expect to see their farms become poorer year by year, till they pass into the hands of the men that hold the mortgages or go to people that easier to conserve the fertility and humus of our lands than it is to restore them when they have been dissipated.—Farmers' Review.

How Nature Tills the Land Nature made the lands, in a great-part of our state, rich and fertile, How and note how she is working to main. tain the richness of the land and how she has been doing to build up the soil, then, possibly we can, if we will. stop this waste. For thousands of what o land, the annual crop of leaves has nearer we approach to our journey's been deposited on the ground, and end?—Cicero. the trunks and branches of the trees. one after another, have fallen on the ground and decayed, becoming vege table mold. Occasionally, a tree would turn up by the roots, bringing up a portion of the subsoi. and setting it on edge so that the elements-the air sun. frost an

ble and available the plant rood con them; their notions of good and evil tained in it. As this subsoil, brought are the result of the moral atmosphere up by the overturning trees, is crum-bled and leveled down through the esses of nature, it buries up large amount of the decaying leave. and wood that have fallen on the same time a bad example, may be conground, and in this way the land is sidered as bringing them food in one very deeply, and the decaying vege table matter thoroughly mixed in se that the soil is filled with humus

shrubs and some plants that grow in the woods, send their roots in the earth, thus disintegratng the soil and letting air into it, and when these roots die, as they will in time, they add more humus to the soil. - C. P. Goodrich.

In Buying Clover Seed.

A bulletin of the Department of Agriculture says: The prices charged for clover seed vary large dealer having two or grades, of different tunately for the buyer, each has his own grade names, and even the standard terms, prime, choice and fancy, as used by different dealers, do substituted a statement of the per centage of pure and germinable clusion that the sample which, while reasonably free from weed seeds tains the largest amount of pure and vigorously germinating clover farmer to buy. Low priced samples seldom fulfill this condition, nor do those sold at exorbitantly high prices. Usually the high priced samples are really the cheap est, but the only way to determine the value of a sample is to test the seed. The result of the purity test shows how much pure seed is present and the germination test determines how much of this pure seed will grow.

How to Make Cold Cream. Put in a double boiler six ounces of much water in the outer vessel as sweet almond oil, and, having pi any cooking, set on the range to warm. Have ready four good sized cucumbers which have been carefully wiped to be perfectly clean. Cut them, inches in size. When the oil is warm, add the cucumbers and set the boiler on the back of the stove where the water will simmer for four or five hours. Strain, and to six ounces of the liquid add an counce of white wax, one of spermaceti and two of lanoling Heat until these - ingredients have melted, then remove from the fre and beat with an egg beater until cold. adding during the beating process two teaspoonfuls of tincture of benzoin. This is one of the best cold creams known and is a standard formula
