

Cassie McFarren VanRiper, 29 seconds – You could see smoke at Kehoe's building and we drove right past the school. The boys were out in front playing catch, and when we went by. And at his house you could just see the partitions – just like you'd take a big spoon and stir it up. You'd know there's some explosion or something that's causing this. And Mr. Hart came out and he said the school's been blown up.
