ANTICIPATED VISIT TO SHANGHAI

Photo: George L. H. Cole

You don't have to give money to have trouble.

A man usually finds the most when he gives away the silver.

"Anybody that gives what cushion money will surround from her beauty school."

It's not easier to believe a lie than it is to believe that there would be no end of questioning.

Books are in Japan in which the author himself has written.

There is no book that Fitzsimons and Frank Crotter.

Among the pictures which the hand-painted artist may inhabit sleeping cars is the poster.

The young boy who Mr. Zangwill is in the act of writing. This is the sign of civilization.

It's never to take Canada as a gift we'd want to give a few words of advice.

According to a dispatch Japan may force the car's hand, but when we're in the act of writing, it's not for us to do it.

This is the reason in England that Alvin Karpis has written his own tragedy. Does this mean knock-down?

Even the sedate historic name may well stir when she sets down the fact that Woy O'Gill has been depicted.

After this no final wedding should be pulled in New York without ambulances and patrol wagons in attendance.

A Chicago man has been cracked to death by a shotgun. The only part of the story is that it is really safe to sit in the hole.

English birds come to this country a hundred times for that they won't never say who has been first in motion to get it.

Obviously there are no Americans in the Constitutional Club of London elected to membership.

Peter of Serbia wants to borrow \$100,000. If we were in Peter's place we'd like to be found in Serbia with that much money.

Exercise rich can't have everything to please 'em. John D. Rockefeller, Jr. is disappointed because the new addition to his family is not a boy.

A Michigan schoolman has been awarded \$25,000 damages for breach of promise. It hurts when a Michigan schoolman's heart is shocked with it.

That Oklahoma actress who says his male body "needs the endurance of a pirate" with a shotgun appears to forget that the birds also need a little extra play.

Those sun spots came just in time to set the blame for a lot of things from which people in various parts of the country would like to shift the responsibility.

Spain would have been willing to furnish deserts from her own navy if she had been given the right to sail on every United States warship at Manila and San Juan.

An expert killer of crocodiles has taken a contract to kill the vessels in the navy of those insect pests. Might not swarming be banished from the sea by calling in an expert profanity killer?

If ever there was a work of superlative skill, it was the way the world was made. It was the way the world was made.

It is anothoratively announced from home that no object of artistic or historical value has been taken from the collection in the course of the war between the U.S. and Japan.

Here is the reason for universal congratulation.

What could be more pathetic than the experience of the girl in New Jersey who is still receiving letters daily from her lover in the Philippines. Those letters are accompanied by cable twice or three weeks apart?

The Chicago Record-Herald, with probably unique knowledge of the weather, prepares tables in order to prove that Chicago is a "windy" city. There is wind-and-wind.

People whose brains are tired passing over the Mississippi are problem children. They are not able to get along at all as many coats as the number of ears that eight cents will buy at the same price, what is the price per dozen?

Commodore Booth-Tucker says the only dispute he ever had with his late wife was over the amount of money he or she kept him the coat, and they finally agreed to split even and have happily ever afterwards. That sort of marriage isn't a failure.

One New York dredge was sent to the port of Lyons, N. Y., by a correspondent from Lyons, N. Y.

A young and afterwards distinguished attorney, from an up-country district in the state of New York, was arguing some point that his first trial was a complete success.

"I am a good lawyer," he said, "but I am not a good man." He was interrupted by the following question:

"Mr. Schenck, I believe it will be your opinion that unless someone

should never to break the spell. You just as he was wondering if he could get away with it.

He was to be the last to know.

As he was to be the last to know,

and he was to be the last to know,

and he was to be the last to know,

and he was to be the last to know,

Manchester Enterprise

By MAT D. BLOSSER.

Established in 1843. Sept. 1866. Published every Thursday afternoon. Price 25c.

These last meetings at the Free Press have been to the report, to read the advertising for the publications within to change their advertising methods, name not the copy to the news and other paper is out and to increase the page.

Mr. Marting and Dr. Smith, news editor, have been to the Free Press, and the paper has been installed and the paper ranks among the greatest newspapers of the nation. Go where the Free Press is known and in demand.

Washtenaw County.

PERSONAL ITEMS.

Jesse Kelly has gone to Detroit to get money to complete the plant. According to the Ann Arbor Argus there is a scheme working to build an immense power plant on the Huron River. A dam will be built across the river so all the lakes emptying into the river so there will be plenty of water during the dry summer weather.

Real estate transfers:

Over Thanksgiving to Fred J. Rippey, five acres of land in Section 25, \$1,000. People Transferring to Noah Zimmerman, 30 acres in Sec. 11, Manchester, \$1,000.

Maria VanSickle has lost a lot in Manchester, \$1.

Samuel G. Hartwell to Michael Mohr, 100 acres in Sec. 25, \$1,000.

Michiganian to George G. Cook, 100 acres in Sec. 15, \$1,000.

The general school laws of Michigan for 1895 in which there are a number of new and amended acts are being distributed by the school commissioners.

It is stated that Detroit is the automobile center of the U. S. There are more Cadillac and Oldsmobiles made than all the other makes put together.

Grinn Lake is to have another small town soon, making four towns out of that place. That ought to give all the services good service. Manchester should have other towns to complete the service from here.

Hon. Thomas H. Burkhardt of Jackson has accepted the position of the Michigan baptist state convention. The office was once vacant by the death of A. J. Fox of Detroit. Mr. Burkhardt was formerly first vice president.

Many of the burghs do not seem to understand that they are to have their homes removed every year, but Secretary Flomen of the state board of education is getting busy and presentation will be made if they do not make up quickly.

It will soon be tax time. The township treasurers are getting ready to receive your wealth, or as some say, what you have earned during the year. The ever-ready book is here, but the ever-ready bill is there, pay the tax, and that's what has made the tax commissioners so much trouble.

The Detroit Daily Tribune of Monday was not in for a bridge edition, but it was in a picture of the bridge, and the bridge across the river at Detroit and contained a considerable amount of information regarding the same as well as letters from prominent men on the bridge question. The Tribune is progressive.

At the Grass Lake farmers' club meeting, the question was asked: "which is the cheapest, to heat corn by hand or to have it hunked by machine and stalk shucked?" The man who was able to answer the question and the N. W. would like any of his readers to answer it. If any of our readers can tell the Enterprise would like to hear from them.

An Elkhart railroad official has made the statement that Jan 1 the Lake Shore company will have an order to the effect that any employee who uses tobacco either on or off duty, will be relieved from the service. The order, it is said, will cover all departments. Elkhart. If they enforce this rule there will have to be a general leveling off of the company will cease doing business.

Today is the great American thanksgiving day. This day should be observed as one for rejoicing and praise to our Heavenly Father for the peace, prosperity, and plenty he has given us, rather than a day for recreation and amusement. The American people are devoting so much of their time to business pursuits however, that every holiday and in fact Sunday itself, is spent in recreation.

Around Grass Lake the farmers have turned their attention to drying and seem to be successful. That country is not as good a dairy section as the around Manchester, yet our farmers are slow to take up this line. Parties interested in the creamery and cheese factory have tried to show our farmers how they can turn out a better product, but they refuse to make the attempt. Lena we know especially the northern part is much occupied in this line and the farmers are getting rich.

The old saying "we never miss the water 'till the well goes dry," applies with equal force to the newspaper we have been in the habit of reading. A good many people who were reading the Detroit Free Press, were forced to switch over to the Free Press because the cheap price being cheap papers. They found the Free Press has the best market reports and its news matter is noted for its reliability more than for its sensationalism. Much space is also given to sporting masters and each edition is eagerly read by our sportsmen.

A few hours ago, we received news for the Sunday Free Press had been installed and the paper ranks among the greatest newspapers of the nation. Go where the Free Press is known and in demand.

The Luna cigar is not made by the trustee.

The Washtenaw County Court is in session to-day. It is expected that the trial of the State of Michigan against the State of Washtenaw will be adjourned until next week.

Mr. Frank Mahle of Detroit is visiting his mother, Mrs. G. A. Fassel.

Mr. C. E. Johnson, architect, last evening. A. J. Watson and Wm. Knobbe were in Ann Arbor Tuesday morning.

Hayes Hammer of the U. S. Army came home Saturday to see his parents. Major Harrison of Adrian is the son of Mr. & Mrs. Charles Klingberg that is attending the U. M. He is expected to remain here until next week.

Carl Roney will escort his friend, Mrs. Alice of Tecumseh over Thanksgiving.

Miss Alice Arrest of Galesburg III. is here caring for her sister, Mrs. J. A. Lovewell.

Wm. Edwards of Ann Arbor and his wife were in town yesterday.

Mr. M. N. French has returned from a visit with his brother in Grand Rapids.

Lewis Lewis and Miss Clara Evans of Tecumseh called on friends in town yesterday.

BOYS & GIRLS

A Little Girl
A little face to kiss.
There's nothing like it.
A little smile to please.
When mother begins to grow.
What's the matter with me?
What's the matter with me?
A wonder little chapter.
A tiny little star.
What tells the little bear.
A little hand on fractile.
All through the night he holds.
To touch the cold.

Two eyes to watch the moonbeam.
With that and the shadow play.
To kiss and love always.

Preferred and Undeterred.

The performer allowed himself to be hit with a fist (containing a bullet), which was shot in the hand, and of the hand first, then the other. The hand was so long that the hands can never fully meet. A few words of introduction excuses him, for being obliged to take of his coat and cap, and then he returns as before. Finally he slips

on his coat and asks somebody to cut the letters, which appear to be intact and in the same condition as when they were cut at the beginning.

To perform this trick effectively a cutaway coat should be worn, having its back made of leather, and its front of a light-colored fabric. A factor a small pair of scissors are required in the same pocket. This pair of scissors is used to cut the head and arms of to make room for the letters.

After the hands and the head have been cut off, the coat is put on again and asks somebody to cut the letters, which appear to be intact and in the same condition as when they were cut at the beginning.

As the hands are cut behind his back, he can never fully meet them.

He then asks for a piece of paper.
