The action of Thaw's counsel in requesting leave to amend the plea of not guilty has been taken as a possible indication that the final line of defense has not been fully determined, although it is still considered probable that a plea of temporary emotional insanity will be offered.

One of the most interesting developments in the case was the statement published in an afternoon paper that White instead of being a generally supposed, a man of great wealth, in fact owned \$300,000 to one young member of a prominent family, as much more to other persons, and had so greatly overdrawn his personal account with the firm of architects of which he was a member that he was notified he

THAW PLEADS "NOT GUILTY" TO MURDER

New York.—Harry K. Thaw entered a formal plea of not guilty when arraigned in the court of general sessions on the charge of murdering Stanford White. The plea was entered with a reservation—that it may be withdrawn.

Caleb's examination that McCaleb had accompanied Mrs. Thaw from the garden after the shooting and had escorted her to the house of one of her friends. He also said that McCaleb had made a very complete statement of everything he had observed during the dinner and afterwards on the roof of the garden when White was shot.

A witness was found by counsel for Thaw, whose testimony will, they say, be of the utmost importance to the defense. "This man, whose name is withheld," is said to be an old friend of Monday night on the garden roof with Thaw who appeared to be quite normal in his demeanor and entirely at his command. Thaw turned pale, his eyes flared, and turning suddenly away he walked towards where White was seated and the shooting followed almost immediately.

White Laid to Rest. Stanford White was buried Thursday with simple ceremonies at St. James, L. I., where he had a summer home.

In the opinion of the physician who performed the autopsy on White's body the life of the architect was shortened not more than two years by the bullets from Thaw's pistol. He was found to be suffering from Bright's disease, from incipient tuberculosis and from fatty degeneration of the liver.

Probe Evelyn Nesbit's Life. The district attorney has completed the examination of the more important witnesses so far discovered, and has shifted his attention to the investigation of the relations between Evelyn Nesbit Thaw and White prior to the girl's marriage and the attitude assumed by Thaw after he made her his wife.

DEAD IN TRAIN WRECK

TWENTY-THREE AMERICANS VICTIMS OF SMASH-UP.

Passengers from New York for London Are Caught in Twisted Mass of Debris When Engine Leaves Track.

Salisbury, England.—Driving at a mad pace over the London southwest line, the American Line Express, carrying 43 of the stamer New York's passengers from Plymouth to London, plunged from the track just after passing the station here at 1:57 o'clock Sunday morning and banged to death in its wreckage 23 passengers who sailed from New York June 23 and four of the trainmen, some of them seriously.

The train consisted of a powerful express engine, three first-class corridor carriages and one combination guard's van and buffet. The passengers were soon entrained and at 11:30 p. m. Saturday the express pulled out. It was given a clear track on the run of 230 miles to London, on which the express generally maintains an average speed of a mile a minute.

Driver Robins quickly gave the engine speed and the special was soon speeding swiftly through the night. It all occurred the long railway yard at Salisbury, when the passengers noted that the coaches began swaying from side to side.

Suddenly at the end of the long platform, when the track begins to curve towards the bridge spanning Fisherton street, the main avenue of the city, the engine seemed fairly to leap from the track.

It swung across the adjoining track with terrific force and destroyed the guard's van—a milk train that was slowly steaming in the opposite direction, killing a guard.

Lurching forward, the locomotive plunged against the standards and girders of the bridge. The bridge withstood the impact, and rebounding the engine crashed into another engine which was standing on a siding and overturned.

The wreckage of the two engines interlocked in a great heaped mass of twisted steel and iron.

Throughout the wild plunging of the engine Driver Robins, whether alive or dead, remained in his cab. Hours afterward his charred body was found grilled over the firebox.

The first coach shot over the engine and careened onward until it was hurled against the parapet of the bridge and smashed into fragments, killing or maiming almost every occupant. One man was shot through the window, clearing the parapet and fell to his death to the street below.

The second coach lurched forward and rolled towards a stationary train its wheels practically destroyed itself before its wild flight was ended.

The third coach dashed forward with the rest, left the rails and encountered some obstruction, overturned and collapsed.

The guard's van and buffet, the rear-most car of the train, was saved by the courage and quickness of guard Richardson. With the first shock Richardson jumped forward and so the brakes and saved himself and his companions. This van plowed forward, injuring some of its occupants, but practically maintained its equilibrium.

The surviving passengers and trainmen describe the sound of the wreckage as like the discharge of a series of heavy guns of varied caliber, and when the crashing of the wreck was past there came cries of the injured, some shrieking with pain and fear, another meaning as if bewildered by the shock.

The darkness and incredible destruction made the work of rescue exceedingly difficult. Lamps and torches were brought to light the desolate scene. The station was converted into a surgery and the "Patient" was made a hospital.

Several of the dead and injured were imprisoned in compartments and it was necessary to saw away the partitions in order to effect their release. Others were caught under heavy wreckage.

Several of the bodies were badly mangled and one woman was decapitated.

Michigan Mine Strike Settled. Bay City, Mich.—The differences which have existed between the 700 operators and miners of the Michigan district since March last year formally settled Tuesday afternoon at a joint conference. The scale of 1905, carrying an advance of 5.5 per cent was adopted. The initiation fee, which the union had placed at \$20, was reduced to \$25. It to be paid down and the balance in the rate of \$2.50 each day. The mines will be reopened Monday. The new agreement holds until April 1, 1907.

Murderer Declared Sane. New York.—That Harry K. Thaw the slayer of Stanford White, is perfectly sane was the report made by the alienists retained by the district attorney's office to examine into the prisoner's mental condition. This report was made after the physicians had spent an hour with Thaw, who in defiance of the advice of his counsel, former Judge Gilbert, refused to answer any questions and declare that nothing short of actual force would compel him to submit to a physical examination.

Boys in Blue. London.—Most of the arrangements for the public observance of King Edward's birthday were canceled because of the severe rainstorm. More than two inches of rain fell in London in eight hours.

Advance Insurance Rates. San Jose, Cal.—On the authority of the president of the San Jose board of underwriters, the announcement is made that the insurance rates in San Jose will be raised from 25 to 100 per cent.

ESTIMATE OF WHEAT CROP

SIXTY MILLION BUSHELS MORE THAN LAST YEAR.

Top Expert H. V. Jones Figures on Immense Increase in Winter Wheat Output.

Minneapolis, Minn.—National prosperity lay in advance of the highest known records is emphatically indicated in the 500 estimate of H. V. Jones, crop estimator, who gave his annual bulletin at noon Thursday. The winter wheat production of the United States he gives as 429,000,000 bushels, 60,000,000 bushels over last year, and the record crop of winter wheat ever produced. Cotton and corn are in exceedingly good condition, and with a hot July and August may also break the record; but nothing out a year harvest can lower the wheat crop, says the Jones estimate.

In company with John H. Jones, Mr. Jones has just completed a careful one of the winter wheat producing regions of the country. Grain merchants and railroads throughout the country awaited the publication of his report with great interest.

The crop of Illinois is estimated at 28,000,000 bushels, of Indiana, 28,000,000, and Ohio, 28,000,000, all much in excess of last year. Michigan is slightly behind. The west and southwest double their production.

When the crop production of the whole material prosperity of the country for the year depends, the report proceeds, and especially the welfare of the railroads, which are peculiarly dependent on the crops. Wide extension throughout the northwest and southwest is indicated, and general expansion.

The report gives Texas this year 16,000,000 bushels, or twice the yield of last year; Oklahoma, 28,000,000 bushels, or more than double the yield of last year; Indian Territory, 4,000,000 bushels; Kansas, 22,000,000 bushels, about the same as last year; Nebraska, 22,000,000 bushels, about the same as last year; Missouri, 30,000,000 bushels, same as last year.

California is given 20,000,000 bushels, or twice last year's crop. On this basis the southwest raises about 25,000,000 bushels more than last year. The southern and eastern states and Oregon make up the balance, all the states having a good average yield except Michigan, which is probably the highest in average yield. For Oklahoma government average is increased in this estimate 400,000 bushels.

Roosevelt Out of Race. President Will Not Be a Candidate for Re-election During Next Campaign.

Colorado Springs, Col.—W. A. Conant of this city, who was a delegate from New York to the first national Republican convention more than 50 years ago, recently wrote a letter to President Roosevelt asking if he intended being a candidate for the presidency at the expiration of his present term. Mr. Conant has just received the following reply:

"My Dear Mr. Conant: The president thanks you for your letter of the 17th instant and cordially appreciates your kind expressions concerning himself. He says, however, that you will have to vote for some other Republican candidate next time. Conveying to you the president's best wishes, I am, sincerely yours, William Loeb, Jr., secretary to the president."

Panic Under Circus Tent. Aurora, Ill.—Ten thousand people were thrown into a wild panic Friday afternoon during the performance of Ringling Bros' circus in this city when a violent and sudden wind storm partly wrecked the main tent. Swinging quarter poles, lifted from the ground by the swaying canvas, mowed down people in scores from their seats. One man was instantly killed—a cripple, who was unable to save himself—another man died of fright as he hurried from the scene of terror with his family, and seven persons were injured, at least one of them fatally.

Board Illegal for Years. Detroit, Ill.—Judge Worthington in his circuit court here Thursday morning handed down a decision declaring that the section of members of the Peoria school board has been illegal for the past 25 years. This opinion is a result of proceedings brought to oust eight hold-over members of the board. There will be another election called immediately to elect a new school board. Failure to allow the city council to call elections in the past was the basis of the decision.

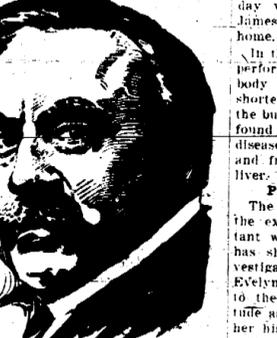

State to Make Alcohol. Topeka, Kan.—Gov. E. W. Hoch is in favor of the establishment of a state denatured alcohol distillery in Kansas. "Such a distillery," said the governor, "would furnish means for employing a large number of country boys, and it would have the same effect that is expected of the oil refinery project, in that it would reduce the price of light and fuel to consumers."

STANFORD WHITE. The Millionaire Victim of Gotham Tragedy.

THURSDAY, JULY 5, 1906. A SUCCESS. Soldiers and children happy over the occasion held here.

It will be remembered. Last Friday was a very hot day, but it was warmer than the reception given by the survivors of the First Michigan.

Some of the visitors arrived Thursday afternoon, but most of them were here on Friday morning. The reception committee in welcoming the veterans as they arrived and in conveying them in carriages to the homes of our citizens who were to entertain them during their stay.

The committee on decorations had placed a "Welcome" banner across the street and another had been hung with bannons, bearing the names of the veterans of the First Michigan.

About 10 a. m. the military band appeared and played several patriotic airs. At 1:30 all assembled at Arber's hall, where the annual reunion exercises were presided over by President Henry Owen.

This was followed by a comprehensive address by a member of the committee, who spoke of the history of the regiment and the part it played in the war.

There were some good accounts given by the veterans and they spoke in glowing terms of the talent displayed by the boys.

While the banquet was being served a shower of rain came and the air was somewhat cooler afterwards and the hall was crowded with people to see the program which lasted from 11:30 to 1:30.

The military band played the first piece then Rev. Moon made the opening prayer.
