REINDEER for LABRADOR DR. GRENFELL'S PLANIONERS.

WILTHED. 7

Dr. Jackson's reindeer experiment for Alaska bas proved such a success to see the need, as did this statesman that it has suggested to Dr. Willard Grenfeil, the celebrated physician and missionary to Labrador, to try what the animals can do for the letter country. Dr. Grenfell is keenly alive to the temporal as well as the spiritual welfare of his parishioners and his latest attempt to solve the strenuous problem of life for the people of that bleak coast is through this introduction of reindeer. During the last few a single owner could be found willing Dr. Jackson's reindeer experiment statesmen at Washington were unana

bleak coast is through this introduction of reindeer. During the last few months a small herd of deer from Norway has been landed at Cremitic harbor. Labrador, which will prove, it is hopped, the progenitors of a numerous native stock.

It was no holiday task to get the animals safely ashore. On account of ice floes, the steamer could not reach the landing. Some of the ice on which they were lowered from the steamer's deck broke under the weight and several deer unfortunately perished. The bulk of the herd however, was safer the content of the purchase and propagation of reintic the many contents. The propagation of reintic the contents of the period o deck broke under the weight and several deer unfortunately perished. The bulk of the herd, however, was safely driven to terra firma, where, under the care of several Lapland familles, especially imported for the purpose, it is hoped they will speedly become

it is hoped they will speedily become since the relinder were brought to their shores. The fear of familie has of these far northern peoples has received wide recognition, and whose staunch little yacht, the Strathcona, staunch little yacht, the Strathcona, the relinder were brought to their shores. The fear of familie has been removed, various simple industries have been introduced, a regular postal service has been maintained.

### What is Pe-ru-na?

Is it a Catarrh Remedy, or a Tonic, or is it Both?

Some people call Peruna a great tonic. Others refer to Peruna as a great

Catarrh remedy.

Which of these people are right? Is it more proper to call Peruna a catarrh remedy than to call it a tonic?

Our reply is, that Peruna is both a tonic and a catarrh remedy. Indeed, there can be no effectual catarrh remedy that is not also a tonic.

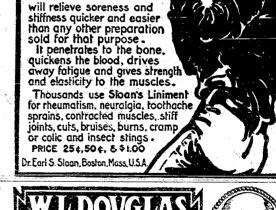

In order to thoroughly relieve any case of catarrh, a remedy must not only

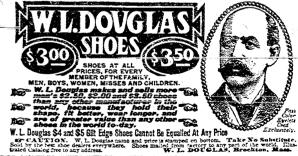

have a specific action on the mucous membranes affected by the catarrh, but it must have a general tonic action on the nervous system. Catarrh, even in persons who are otherwise strong, is a weakened condition of some mucous membrane. There must be something to strengthen the circulation, to give tone to the arteries, and to raise the vital forces.

Perhaps no vegetable remedy in the world has attracted so much attention from medical writers as HYDRASTIS CANADENSIS. The wonderful efficacy of this herb has been recognized many years, and is growing in its hold upon the medical profession. When joined with CUBEBS and COPAIBA a trio of medical agents is formed in Peruna which constitutes a specific rem-
