I remempered him as a studious, gawky, red headed youngster, who was taking a course in civil engineering. I had some work with him in the surveying class, which was a part of the cours of mining engineering to which I was devoting my attention. He was too self-centered and too studious to be popular with the boys of his class, and because I appreciated his Ioneliness and showed him some slight courtesies he formed a deep attachment for me. We promised to write when we left college, but as those promises generally zo, neither of us thought of or, if we did ever acted upon it. We quite lost track of each other until I walked into his office one afternoon to confer with him about the strike. He was not quite as red-headed and gawky as in his college days, but he had changed so little that I readily recognized him. He knew me instant-Is and greeted me with a warmth and work, but he brushed aside the mass of papers that littered his desk and made me sit down and tell him some

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble? Here are two letters which prove the efficiency of Lydia

E. Pinkham's Vegetable Compound. Red Banks, Miss.— words are Inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the dectors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I giadly recommend Lydia E. Pinkham's Vegetable Compound."—Mrs. Willie Edwards.

Hampstead, Maryland.—"Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous and could not be on my feet half a day without suffering. The doctors tuld me I never would be well without an operation, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women."—Mrs. Joseph H. Dandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did

not come to us entirely unsolicited.

What more proof can any one ask? For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit. Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.
