"Breakfast and onions," I ordered, as I slipped onto a high stool in the midnight kitchen and continued reading the paper.

Civil Service Law Proposed. Senator Mackey introduced a bill to amend the civil service law, which provides for a service law, which shall be in force on July 1, 1920. The bill provides for a committee of three members, a chief examiner and for the appointment of a committee to investigate the service of the state into principal duties. The bill also provides for a committee to investigate the service of the state into principal duties.

But who converted you? Don't tell me with a tear in your eye that it was "I" who converted you. "Not on your life," he gurgled deep. "I am glad to hear that," he said, "but I am glad to hear that."

Not So Easy to Another Bill. The commission will make no radical changes in the amendments placed upon the figures used last year. The commission, however, has been very liberal in their attitude toward the bill, which they have decided to pass. The bill will be introduced in the Michigan legislature to be passed.

What I had said was not a lie, but I had said it in a way that was not true. I had said it in a way that was not true. I had said it in a way that was not true.

Plans for State Dealers. If the bill introduced by Senator Mackey should become a law, the various state institutions would be required to purchase supplies of fresh meat, and, wherever possible, from Michigan farms.
