"At first an eruption of simal pustules commenced on my hands. These spread later to other parts of my body, and the itching at times was intense, so muck so that I literally tore the skin off in shreds in seeking relief. The awful itching interfered with my work considerably, and also kept me swake nights. I tried several doctors and used a number of different columents and lotions but received gractically no benefit. Finally I settled down to the use of Cuticura Soap, Cuticura Ointment and Cuticura Pills, with the result that in a few days all itching had ceased and in about three weeks' time all traces of my eruption had disappeared. I have had no trouble of this kind since. H. A. Krutskoff, 5714 Wabash Ave., Chicago, Ill., November 18 and 28, 1907."
