Thumb central dispatch concept on hold

Upgrading of Michigan State Policeradio communications to an 800-MHz system has halted local efforts to revamp Tuscola County's emergency communications system.

The new MSP system is designed to accommodate all state government agencies as well as all local and county law enforcement, emergency services, officials say, plus local governments may also choose to use the system.

Tuscola leaders hope to dovetail efforts to upgrade their system with the MSP program and take advantage of advanced communication services to become available with the state's service.

"We are not on the fast track that we were before to get a proposal before the votes to fund equipment upgrades," said Tuscola County Commission Chairman Norma

"By holding off and researching this more, it may not be as expensive as we thought to do our upgrades."

Projects say up to \$500,000 would be spent to upgrade Tuscola's emergency radio communications.

A large portion of the cost includes erecting towers, but that is included the the State Police system.

Motorola Corporation will provide the MSP system for \$187 million statewide, in four phases through 1998.

First phase is placement of 182 radio towers across the state. Work in the Thumb

Area is expected in two years. "This is a much better deal now. The state is going to put towers up for their system. If

the tower is close to Lapeer

County, they could share the

same tower, and to the north

the same is true for Huron County," said William Worth of Millington, District 7 commissioner.

Tuscola plans to replace its 25-year-old central dispatch/ 9-1-1 system and upgrade ra-

dio systems countywide for fire, ambulance and village/ township police agencies.

Commissioners took no action at the April meeting, but may place a November ballot question before voters.

Anything Goes' at Sugar Fest

There's a new type of event coming to the 1994 Michigan Sugar Festival in

Sebewaing — the "Anything Goes Olympics."

This event will take place Sunday afternoon, June 26, and organizers plan an adult and a junior (ages 10-14) div-ision, says Terry Gruehn.

Some of the events will be egg breaking or egg throwing contests, wheelbarrow races, bale throwing contests and more.

"Just come on down for a darn good time!" Gruehn and other organizers invite.

Deadline is June 5 to signup, and the number of contestants is limited.

The adult division is seeking two adults, preferably a husband and wife, for all types of games, to be announced at game time. Comfortable clothes should be worn.

For the junior division, six-member teams of boys and girls will be sought. As in the adult group, no one will know exactly what games are to be played until "the games begin."

Persons interested in signing up should send their names, addresses, phone numbers and team members' names to:

Michigan Sugar Festival ANYTHING GOES OLYMPICS c/o Terry Gruehn 9928 Canboro Road Sebewaing, MI 48759

Or, call Gruehn at 883-2456 for details. Other towns have staged similar games which have drawn several dozen teams and hundreds of spectators.

In those towns, some games have involved blind-folded wheelbarrow drivers, guided by wheelbarrow riders, women carrying men and similar events.

"We wanted to present something new at the Sugar Festival, and hope the public participates, for the fun of it," Gruehn says.

Beet planting at standstill

Recurring showers that have continued since April 25 have brought sugar beet planting in the Upper Thumb to a virtual standstill, according to Dick Jacoby, agriculture manager of the Sebewaing Plant of Michigan Sugar Company. The crop is about 80% planted, totalling 29,000 acres, and

about 30% of those acres have emerged and are growing.

There is a possibility of some replanting once beet growers are able to determine how planted acres are doing. "Growers are playing that on a day-by-day basis because right now we have no idea how some of the plantings are faring," Jacoby said Monday morning. "Without the early Monday showers, there would undoubtedly be more planting going on right now," he added.

"Of course, with sugar beets the earlier planting the better, is a general rule," he said, "but last year serious planting didn't get underway until May 12, and right now we're better off than that." -ByWALTRUMMEL

Unionville checks water

Spring cleaning in Unionville will start with checking the village's water system.

Village Council members last week approved having well #1 pulled for regular maintenance, and to have the casing inspected with a video camera to check for cracks in the casing. Layne-Northern of Lansing will do the work for \$12,582.

Also, the village will send out shut-off notices to all water and sewer users who have not paid their bills in the last six months. Residents will have 10 days to pay their delinquent bill before services are shut off.

Charges against P.A. man

The Huron County Prosecutor's office expects to take action today against a Port Austin man who had a collection of automatic weapons and who allegedly videotaped people using a bathroom.

Federal, state and county search warrants were executed May 3 at 7044 and 7040 Oak Beach Road, at a site known as the Old Oak Shop, an antique store. During the search, two fully automatic weapons were seized, an M-16 and an AK-47.

"Possession of these two weapons is a federal crime punishable by up to 10 years in prison," said Huron County Prosecutor Leslie Hagen.

After speaking with an agent of the federal Bureau of Alcohol, Tobacco and Firearms, Hagen said she expects an indictment to be issued soon.

Investigation began in March after the Huron County Sheriff's Department received a complaint about the weapons and that a 47-year-old suspect at the address was videotaping individuals without their knowledge or permission who were using his bathroom.

The videotaping is believed to have occurred for at least 10 years and involved friends of the suspect, along with customers of the antique shop, said Hagen.

Port to come up with probably the most unusual and spiritually satisfying event of the year—especially for those who love boating and fish-

The small village on the shore of Saginaw Bay has been inextricably linked with fish and boats for well over a century, so what better way to kick off the boating and fishing season with a Blessing of the Fleet and a Fish

The Bay Port Historical Society thought so, and they're doing just that.

Their first Blessing of the Fleet and Whitefish Boil takes place on Sunday, May 22, beginning at 1 p.m.

The Blessing will be held at the docks at the end of First Street, and the Fish Boil will be served at the pavilion at McLeish Park.

All over Michigan, with its bounty of fresh fish, cooks fry, poach, bake and grill fish.

Oh yes, says Historical Society member Betty Smith.

"Wiscosin has had them for years," Smith says. "It's kind of a tradition with them. We have our Fish Sandwich Festival in August and it would be nice to start the summer out with a fish boil. Maybe we'll start a tradition of our ladled over the top of the fish

The Whitefish boil originated more than a century ago, when lumbermen found that the abundant whitefish and lake trout found in Wisconsin's lakes made a tasty meal when boiled together with potatoes, onions

And that's what will go into by a cadre of four local pasthe cooking pots, along with a few rutabagas for extra flavor. boat into Bay Port's harbor. The Blessing will include a combined adult choir singing the hymn "Lord, You Have Come to the Lake Shore," and a children's choir singing "Lord, Make Us Fishers of Men." The service will begin at 1 p.m. at the docks.

Following the Blessing, the fish boil gets underway at McLeish Park, with a meal of the fish, cole slaw and a drink for a low price.

Also helping with the chores are Ray and Betty Smith, Carol Bain, Kathleen Engelhard, Patricia Sluke, Connie Lundgren, Bob and Shirley Sprague, Jim and Gloria Lewis.

Seized were about 30 videotapes, videotaping equipment and players, child pornography magazines, eight handguns and numerous shotguns, including one short-barreled shotgun, Hagen said.

According to Hagen, possession or manufacturing a short barreled shotgun is a state offense punishable by up to five years in prison, and videotaping an individual without their knowledge or permission is also a state offense punishable by up to two years in prison.

Participating in the raid were 11 federal agents and seven Huron County Sheriff Department officers. — By MARY DRIER

Tuscola seeks recycling \$\$\$

Recycling in Tuscola County is picking up. "We've cleared the second hurdle for funding," said Mike Hoagland Tuscola County controller. "It looks very promising."

State DNR Director Ronald Harmes is recommending a \$68,700 grant with matching local funds of \$22,900 from the county and Indianfields Township, to expand Tuscola's recycling efforts by building a small materials recovery facility and creating nine drop-off sites throughout the county.

Tuscola Commissioner Kenneth Hess of Vassar said he sees the impact recycling is having and is excited about the

prospects of the proposed grant. "When I came on board as commissioner, there was talk landfill space and creating a multi-county landfill was a big

issue and concern, but the picture is changing," said Hess. "Recycling of paper and plastic has taken a tremendous amount out of the flow to landfills, and in 1995 yard waste won't go to landfills any more.

Harmes has recommended awarding \$14 million in grants under the state's Solid Waste Alternatives Program for fiscal year 1994-95 to 20 projects in the state. The list of recommended projects now goes to Legislature for appropriation approval. Grant awards are expected in October.

Something to think about in business...

We've all seen small towns throughout the nation, including here in the Thumb, undergo vast changes in the 1990s. For the most part, the changes have involved closure of long-time businesses, as big-city mall and discount stores eat into small stores' profits.

But many mom-and-pop businesses are still operating, and there's one reason many are successful in these mid-90s: they serve people the proper way.

To that end, here's a well-known reminder about how to get good customers... and keep them, that store owners, workers and customers should keep in mind — if they hope to see the 2000s:

REMEMBER ME? "I'm the fellow who goes into a restaurant (or

other small business,) sits down and patiently waits while the waitresses finish their visiting before taking my order

"I'm the fellow who goes into a department store and stands quietly while the clerks finish their little chit-chat.

"Im the fellow who drives into a service station and never blows his horn, but lets the attendant take his time.

"You might say I'm the good guy. But do you know WHO ELSE I am?

"I'm the fellow who never comes back. "It amuses me to see businesses spending so much money every year to get me back... when I was there in the first place.

"And all they needed to do was give me some service and extend a little courtesy.

The healthy future of these little towns might well depend on whether owners, managers, workers and customers read a tale such as this and go on to the next page... or put "good service" into practice...

She deserves it!

The Huron County Chapter of the American Cancer Society definitely picked the right woman this week, in honoring Sally Beers of Sebewaing with the first "Sally Beers Award" for volunteerism.

Sally Beers has single-handedly raised more than \$1 million for ACS projects, during her 30 years as Huron County ACS Chairman.

She's done most of it through sale of her locallyfamous "Sally's Mums" — but mum is "anything but" the word for Sally Beers. Instead of keeping "mum," she's spread the ACS word for four decades!

Well done, award winner! Congratulations, and thanks for all you've done! They couldn't have chosen a more deserving winner.

■ About 30-or-so years ago the Ringling Brothers World's Greatest Circus and Buffalo Bill's Wild West Show came to Unionville and set up in Theo K. Schmidt Chrysler-Plymouth Showrooms, where several hundred people came to view. How can this be, you may ask?

The show was a fabulous collection of wood carvings, owned by and carved by Jean LeRoy of Detroit. It was built on a "half-inch per-foot scale" and it was truly fabulous.

The show was built entirely by hand by Mr. LeRoy, and it contained thousands of pieces. The horses, lions, tigers, elephants, trapezists, clowns and workers of the circus and the cowboys, Indians, horses, tepees and all the other parts of the wild West show were masterfully carved and painted. It was a wonderful experience to view and admire.

Oh yes, there was an "admission charge to the public"—25¢ for adults, 10¢ for children. That should be proof enough that this all occurred a long time ago.

When he came home I was going at it real good and he came out in the field to see how I hitched up the horses without the jockey sticks. He saw how nice it worked and said "You Michigan people aren't so dumb." Then he put me to plowing.

It's very hilly out there and I slid off the seat of the plow several times. They don't say "cultivate the corn" they say "plow it." Well, they check over it so they can cultivate it

Well, I set the cultivator real close so I could get all the weeds and he thought it was a good way to do it.

His wife had a big garden and it needed to be hoed, so I told him if he'd give me a hoe and would help, we could hoe her garden in just a short

So he found several hoes and I found an old file and we went at it. But he soon had something else to do and told me to finish.

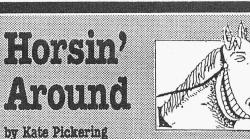

It didn't take me long to do it. His wife said she never saw a man hoeing before.

Well, I told her that the men in Michigan all can hoe 'til we get our beans and beets and corn hoed. When we cut the oats, he

asked me if I wanted to shock it. They make round shocks out there and I made long shocks, which he had never seen before. When we threshed it, the pitchers said they liked those shocks better than the round ones. In Proverbs, it says some men

So naturally, if you know me at all, you must be wondering if perhaps hell has frozen over as well!

Not to worry . . . my temporary loss doesn't signal an approaching apocalypse. It simply means I have finally been impressed beyond telling...but I will try to tell you anyway. Some may say I'm in a rut, but it seems as if I will never again be able to vacation anywhere but Lexington, KY! But I traveled south down I-75 this year to add a new notch to my "spectator belt." I have been lucky enough to enjoy almost every imaginable horse sport at least once, but had yet to witness a cross-country event. Lucky for me, the Kentucky Seniors 60 years and older Horse Park hosts Olympic-calibre competitors from all over the world at the Annual Rolex Three Day Event

Going in, my sister and I weren't quite sure how to "enjoy" a sport which encompasses over 13 miles of wilderness . . being your basic grandstand kind of gals. So we set out with nothing more than comfortable shoes, a camera, two umbrellas and high hopes. We quickly noticed that most of the spectators had gravi-

tated toward what is known as the "water event." It seemed the most challenging obstacle on the course as competitors would be required to ride down a swooping hill, leap over two sequoia-sized logs, jump into a shallow creek, gallop through the water, emerge on the other side, run up a hill and charge out of sight, en route to \$50,000.

Our question today is: Does anyone know if Mr. LeRoy is So we settled in on a damp pile of old rails sitting in the grass nearby, and waited in anticipation. It was not long before someone in the crowd shouted, "up there . . . here he comes." And there he came indeed!

The first competitor was my childhood idol - Olympic Gold Medalist Bruce Davidson. In less than a nano-second, he and

It's true I've seen leathery rodeo riders flung to the ground, beautiful girls on blue ribbon horses, and wiry jockeys battling for the finish . . . but never in my life have I seen the look of concentration and determination Isaw on the face of Bruce Davidson in the few seconds it took him to thunder over the water jump and ride out of sight.

And though I've done well so far, this is where I lose my words! There just aren't words to describe the difference between the nervous "college try" look of an eager amateur and the stoic, stony face of a seasoned professional . . . a multiple gold medal-winning champion at that.

Well, there may be one word that says it all: "WOW!" Can't wait 'til next year!

In no time, fingen welche Buben an Brunnen zu graben. Wir haben unsere Shirtsleeves auf-ge-rolled, lagen auf unsere Magen und fingen an ein Loch zu diggen im Sand. Sechs oder acht Inches down wurde der Sand moist. Bald wurde es hard. Dann, mit Jack-Knives oder Leffel haben wir den Sand soft ge-

chiseled, und haben es dann heraus ge-lifted. Da wir 18-24 Inches tief waren, traffen wir Wasser. Das war eine real Accomplishment.

Schnell haben wir Mud und Wasser heraufgebracht. Schnell haben wir aus-ge-figured wo der Water Table tiefest war, und wo Wasser nearest zum Surface war.

Jetzt hatten wir Mud fuer ein By-Product von unser grabenund wir haben schnell den Mud auf die Surface ge-packed und machten kleine Roads.

We called it Brady's Flats and during the warm May days of my youth, I couldn't get enough of it. It was a place to spear suckers, pick morels, plink with .22s and best of all, camp out.

Although the days were great, after sunset was always the best, just when Venus began to show.

Supper would be done, dishes washed — as best we washed them — and the campfire built high enough to drive away any evil shadows that might lurk near the edge of the dark woods.

Finding a suitable campsite for one of our many overnight outings was always a verbal treatise amongst the older members of the group.

NOTICE OF PUBLIC HEARING MONDAY, MAY 9, 1994 - 7:00 P.M.

Notice is hereby given that the Caseville Village Council will hold a Public Hearing on Monday, May 9, 1994 at 7:00 p.m. in the Conference Room of the Village/Township Hall, 6767 Main Street, Caseville, Michigan, to hear public comments on proposed changes to Ordinance Chapter 1061-A-Recyclable Materials Management Section 1061.22 "Rates and Charges". The proposed changes are as follows:

The Village of Caseville Ordains:

(a) The rates for recycling and yard debris service shall be mandatory, shall be established by resolution of the Village Council, and shall be amended at such times as deemed necessary by Village Council to defray the cost of collection. It is the intent of this chapter to assess all structures. Where, when and if unit rates for recycling and yard debris service are in question, the Superintendent of Public Works is authorized to make a determination subject to appeal to the Village Council. The determination of the Superintendent, and appeal determinations are to be kept on file in the Village Office.
