Radical Roorbacks Come Home Quickly.

General Beauregard denies that he was ever invited to dine with General Hancock and consequently no flags were hauled down; General Sheridan denies that Hancock ever wrote to him that he would obey Tilden's orders in 1877, if he took the oath of office, and Hancock challenges the Radicals to produce such a letter; and finally Judge Black denies that he is the author of the celebrated order No. 40, or knew anything about Hancock's orders until they were published.

Garfield resigned his commission in the army to take a seat in Congress and get caught in Oakes Ames' trap. It was on that occasion that he gave away his blankets and army socks to the poor soldiers he left behind to fight for their bleeding country. The Republicans will find it necessary to send a few emissaries to Georgia for the purpose of explaining to the colored peo-gle how it was that General Hancock didn't fight for their freedom.
