Ciellan was recalled. The room adjoining the Dr. Jabez Perkins testified to making president's into which it was reported by had the mansion, and during Buchanan's term was occupied by bis niece, Miss Harriet Lane. to permit a free Greulation of the air over

and above it; the second of a refrigerating chest where the air is sifted between chilled plates, having an area of 2,800 square feet and ogvered with thin feiting, which is kept wet The machinery did not get into effective operation until late Sunday evening, but before it had been at work half an hour Dr. Hiss came not a very hot one and the president's room was already quite cool enough. It has been suggested that the cooled air supplied by this machinery may prove too damp for health and comfort on secount of its having been chilled by direct contact with the naked ice. Should this prove to be the case, the air tomorrow will be dried by passing it over frequently renewed pane of chloride of calcium.

The refrigerating system which is in experinental operation at the east end of the mansion under direction of Mr. Dorsey is the comprossed air system used in cooling western mines. A large stationary engine which is supplied with steam by three city fire engines, is at work compressing air. This air when crowded into a smaller space gives out a great amount of heat which is carried away by running water. As soon as the air la let in and set free it becomes reirigerated by expansion in this system hore has been for the most part

ratus. It is provided for a flow of air through a large ice-box, where by contact with the ice if becomes cold, condensed, and beavy with its greater specific gravity. It tuen flows down an inclined plane to the bottom of the room, displacing the warmer atmosphere. The exstant circulation is thus methicined. In a

ANNUAL SCHOOL MEETING.

The amual school meeting of Union School District of the city of Owomo, was hel at the Common Council room Monday eve ning, 11th insta pursuant to public notice. Though not promptly in attendance at the time appointed for the meeting, 7 o'clock, yet the number present taking part in the business was quite as large as usual. The meeting was called to order by G. R.

Lyon, Esq., President of the Board of Trustees, at 20 minutes past 8 o'clock, and be fore proceeding to business, he stated what was to be done by the meeting, and made some retrospective remarks concerning the school, the progress of improvement, increasing number of pupils, increasing reponsibilities of officers and teachers, urged school by visiting the departments, explained some changes in the school laws relative to qualifications of voters at school meetings,

Secretary Hutchins then read the record of the proceedings of the last meeting, which The Secretary then read the financial re- mail route arrived at Cass City last we've port, of receipts and expenditures during a sort of star-route mail, an empty pougr and impressive. the year just closed, as follows:

The prizes in the New York Cat Show have been distributed, "Spot," the per-forming feline, drawing \$250 and a gold medal. The prize for the cat essay (\$10) was awarded to Walter C. Quevedo, Brooklyn, his effort being the best of 557. It was attached to a common wooden "Tip" cat, such as little boys play with. It was as follows: "This is a Cat,"

The inclosed cat knocked at our office window a few years ago, and then came in without being introduced. Since then it has never eaten anything But the world takes a man for just what he's nor shown an inclination to become acquainted with the back sence. It is perfectly docile, but is apt to jump And then when we fail, the world bears the when stroked upon the back. Besides this species there are two other kinds of cats—the cat of nine tails and the cat of nine lives. The cat proper and improper derives his name from the Are you wearied and worn in this hard earth manner in which you address him at night, thus "Scat!"

The cat is a cuss that mews and be-cuss purr-haps it a-mew-ses He is covered with fur, is filled with deceitfulness and abounds in cheek. I said that on pur-puss. He by your side and look up in your face with a smile that is "childlike and bland," chuck full of penitence and canary. Canary other animal do this? His fur is soft and glossy, but what this is fur I cannot say. It isn't so soft, however, but what it will break bricks. The cat is a smaller bird than the mule. As a general thing the cat can draw more than any other animal except a mustard plaster. I have known him to draw two bootjacks, a scuttle of coal, two or three charges out of a gun, two or three swears out of a man, and other articles of bedroom furniture out of

1881. FRESH AND NEW. 1881.

For the coming year the FARMER will be kept up to its present standard of excellence, and new and interesting features added to it as they become necessary. We are determined that Bichigan shall he represented by as good an agricultural paper as is published in the country. The Agricultural and Horticultural Departments, with everything pertaining to the farm, the orchard and the garden, will be made more complete and instructive than ever. THE MARKETS

for produce and live stock will always have our best efforts, and form one of the most important entures of the FARMER. The VETERINARY DEPARTMENT has proved a great success both as a matter of in-terest to readers and as a vallable help to owners of stock, and will be continued and improved upon. THE HOUSEHOLD Department we expect to enlarge and improve, and make it one of great interest.
