beard. Owesso, May 23, 1882. A. LEE WILLIAMS, Secly.

Bennington Notes.

Венигнотон, Мау 30, 1882. labor for a spot cash equivalent is plenty.

Owing to the absence of some musicians who were to fill an important place in the evening's program, several changes were necessitated, but the efficient aid rendered by the vocalists, Misses Brown and Graves, of Lansing, with Mrs. Eva D. Perkins as piano accompanist, served to make an acceptable bill of musical fare.

The proceeds of the concert are to be used for the benefit of our newly organized choir, which, by the way, has made good progress with the aid of Prof. Graves of Lansing, as instructor. Messrs. Williams and Harryman with their cornets made a valuable addition to the instrumental portion of the music. Miss Grace Walsh, niece of Mr. John

and. She is to stay in the family of Mr.

Mrs. Anna Byerly nec Strong, of Owosso, and Mrs. Minnie Howe of Laingsburg, visited friends here last Friday. Miss Azella Rowell also visited us last week remrning to Owosso on Monday

of quarterly meeting at Burton. In the evening we had the privilege of listening to a good sermon from Rev. E. R. Caster. An appointment is made for evening service here next Sabbath also.

lars a week by stitching shirt bosoms at odd times, and it had been her fund for her own dress, and nice things for the children. But that evening she took in the last of hersewing, and said to old Mr.

"I shan't need to sew any more; my husband is made foreman at the shop. "That's good," said the shirtmaker, as he took her little bundle and counted out her pay. "That's good luck, no doubt; but you'd be all the richer if you went on doing the stitching. Four dol-'ars is four dollars, and it's a big sum in the year counted all up."

"Well, perhaps it is," said Sally : "but I don't need it any more."

And so the poor widow who was try ing to get stitching to do was happier next morning than she had been for years; and Sally, singing about her work, made up her mind to have a little more pleasure now, and to walk more and take tea oftener with Maria Decker.

That evening she began a new subject to Tom.

"Tom," she said, "this is an awfully ungenteel place for a foreman's family. Now, there's a flat in the next street, only five dollars a month more than this, that would be pleasanter. We'd have a little parlor there, and nicer neighbors. You'll feel like holding up your head a little higher now."

"Oh, I shan't take airs." said Tom, "but five dollars a month won't break me-<u>let's have the</u> flat." The flat was hired, and the furniture

from the old place looked-as Sally said -like nothing in it. The parlor was

Why the Men Don't Dance.

A general wail goes up at the searchy of the male element at Washington parties which opens up a vast subjectthe customs of society which drive men out of it. The German has disorganized everything. A man may go to a ball to amuse himself, but when it comes to amusing himself according to the directions of a ballet master, called whe leader, "it is altogether a different thing. He must dance whether he feels like it or not; he must "take out" those who have taken him out, and taken him in by so doing. He must be always on the alert; there is none of that fascinating softness of repose, that sweet forgetfulness which is the subtle charm of dancing. We have got the german, but we l have given up dancing. No wonder that men had rather be chopped to that men had rather be chopped to never speaks of her (or of the baby) to pieces than go into society where the german prevails, and a grim and solid phalanx of mammas lines the walls to without her and has been seen with her see that no man dances twice with the even on the street." girl he wants to.

DUCKERE COBD BLADED

1 1 1 1 \ J J . . I

Is doily winning glory in the early harves fields of Teras, while the traveling venders of he rain Old Style out of Date or called Selt Binders or making fractic appeals to the tarmers of Shiawastee County, to buy their old tachioned an tiquated machinery which they find will no longer sell upon its merits, and which they are striving desperately to sustain in the market on the strong hoof a reputation which they claim it **might** have had several years ago. This is an age of Progression and Wonderful Improvements, and the Buokeye Cord Binder like the Minetrie Light has Come to Stay, and will shine in the har est of 1882 not only in Texas, where it is now outstripping all competitors, but in Shiawassee County in the State of Michigan, and in every other county in every other State in

"Grass is Grown and Grain is Sown." The Improved Buckeye Cord Binder is a Daisy and selk at sight, as witness the fact that we have now sold on straight orders in Shiawassee County seventeen of these machines up to date, May 29, 1882, the frantic efforts and gross misstatements of unscrupulous representatives of inferior concerns notwithstanding.

every other country where

The Buckeye Binder is winning new laurels every day in the early southern harvests, and its fame is preceding it as the harvest season advances northward, and it is bound to be the popular machine in all the vast country between the Gulf of Mexico and the great northern lakes.

The great Buckeye Companies at Akron and Canton, Ohio, who are building yearly about 40,000 machines, and who, though putting forth their utmost efforts, have never yet failed to fall far short of supplying the demand for their popular goods have long ago established a reputation as sirst-class Manufacturers which no explosion of competing gas works can annihilate.

Below we give some of the late advices from Texas and South Carolina, where hundrede of Buckeye Cord Binders are now running in full tune:

The Buckeye Cord Binder in Texas again Heard From.

(Later Telegram.) Austin, Texas, May 19th, 1889 All Cord Binders throughout the State of Texas at work. Fot a single complaint from anywhere to breakages of any kind; no second visit needed; no use for experts. (From the Hico (Texas) Times Editorial, May 13th, 1882.)

In the Harvest Field.

Last Monday we took time and Hellum's gray horse by the forelock and went out to the farms of Messrs. McCarty and Ballow, who had just purchased one of the celebrated Buckeys Twine Binders. D. J. Brown, the local agent, sold the machine and, assisted by Mr. J. Brigg, the traveling state agent, b. J. Brown, the local agent, sout the machine and, assisted by Mr. J. Briggs, the traveling state agent, set it up and started it. Three rounds were make in the twenty acre field of Mny wheat, unevenly planted and ripened, but not a bundle was missed or elighted. Excepthing worked perfectly, and those who witnessed the movements were delighted with the machine. Several other makes of Binders were working in adjacent fields, and parties who had seen them all at work hald the Buckeye is far more simple, takes up a third less room, and is more easily op rated than any other Binder. We much prefer the Buckeye Binder to any other machine. It runs as easily as a dropper, and saves the labor of five men. We also saw a Buckeye Dropper, that was doing exc lient work on Mr. Richardson's farm. Aultman, Miller & Co., Akron, Ohio, Texas headquarters at Dallas, manufacture very superior machinery, and all their machines are deservedly popular.

ALTON, Ill., May 17, 1882.

Mr.H. C. Fagle .- DEAR SIR : We started new Twine Binder yesterday, on farm of Thos. Woods, on American bottom, in heavy, green wheat, part of it badly down and tangled. In cutting nearly one-half acraims Binder never missed single bundle, making a nice, clean separation, both Harvester and Binder doing its work to perfeca single bundle, making a nice, clean separation, both marvester and minder doing its work to perfec-tion. We put the machine to the most severe test possible, the wheat being heavy enough to make a bundle about every eight feet, and while it tested its capacity to the utmost, neither Harvester nor Binder developed a single weak point. Yours truly, ——MILNOR, AUTEN & OO. P.S.—Two farmers present to witness the test. But give us their orders for Bunkeyes. M., A. & Co.

The Buckeye Harvester and Binder No Experiment.

ROCK HILL, York Co., S. C., May 11, 1882.

C. Anilman & Co.,
GENTLEMEN:-I have purchased one of your Miller's Buckeye Wire Binders, and worked with it to my entire satisfaction. In my opinion, it settles the question of making bread at Home, and solves the problem of how to make our country prosperous. It supplies labor with thoughtfut methods, offers a premium to intelligence, and will make our farming community-more independent.

Yours Respectfully,

IREDELL JONES.

Austin, Texas, May 16th, 1822.

Wm. Kornig d: Co., St. Louis, Mo.,

Gentlemen:—The Buckeye Cord Binders go off like a charm. They are giving no trouble at all Never have to be looked after when once set up, and they start casier then others. Boys and Parmer set them up and start them without any assistance. Respectfully Yours, MR. LEWISMILLER Writes from Austin, Texas, May 18th. . . .

There seems to be nothing to correct or change in our Buckeye Cord Binders. They need no second visit when started. In fact, there seems to be a perfect hit. The machines, as they go from the shop, are adjusted exactly right, and needs absolutely no change.

Still ANOTHER INVENTIO

To make housework a pleasure. It is a Summer Cook Stove, and can be seen at

C. J. STUART

Who always is ahead with anything that is practical, and this time he has it sure. The DANGLER VAPOR STOVE

As far ahead of the Oil Stove, as the common stove is of a fire place. The public are invited to call and see the wonder boil and bake, and especially do we invite those who are contemplating buying a summer stove, as it is the only stove that will do all that any stove san do, and at one-half the expense and

without heating the room at all. We have also added to our immense stock, a full line of FINE TOOLS, for Carpenters' and Cabinet Makers' use. and we invite all to come in and examine whether they want to buy or not, as it is a pleasure for us to show such goods, and it is worth the time to look

at them, as some time they may want, and then they will know where to find them Our stock in general never was more complete in all departments, and especially in Wind Mill Supplies, we have the most complete stock in the county. We have all sizes of Pipe from 1/4 in. to 4 inches, and bittings to match. We are sole agents for many of our goods and they can't be found anywhere else in the city. We will name a few of them: First, the above Stove, J. W. Massury & Son's Paints, (the oldest and best paint makers in the United States) the Kelley Steel Barb Wile, the only wire that will measure 162 feet to the li-The Parker & Whistle patent Door Knob, the only knob that can be used with a mortise lock on an inch door, and others too numerous to mention, but space will not admit of it. We shall be as we have been in the past, Head

quarters for Screen Doors as we have on hand now over 100 all ready to sell Notwithstanding raw material has advanced from 10 to 25 per cent. we are selling goods lower than ever; especially Steel Goods, Shovels, Spades, Hoes, Forks and Rakes are way DOWN; and while some dealers will try to convince for this all grants have advanced, it will be to your advantage to look around b fore you buy "are don't you forget it.

We have a very fine line of Refrigerators and Ice Tongs now in stock. our chinese, and shy one in wast of such is invited to call and examine, and paternia.
