# In the Harvest Field.

Last Monday we took time and Helium's gray horse by the forelock and went out to the farms of Messrs. McCarty and Baltow: who had just purchased one of the colebrated Buckeye Twine Binders. D. J. Brown, the local agent, sold the machine and, assisted by Mr. J. Briggs, the traveling state agent, set it up and started it. Three rounds were make in the twenty acre field of May wheat, uneverly planted and ripened, but not a bundle was missed or slighted. Everything worked perfectly and those who witnessed the movements were delighted with the machine. Several other makes of Binders were working in adjacent fields, and parties who had seen them all at work said the Buckeye is far more ample, takes up a third less room, and is more easily operated than any other Binder. We much prefer the Buckeye Binder to any other machine. It rugs as easily as a dropper, and saves the labor of five men. WHEAT—Strong: No. 1 White, June. \$1.300 Miller & Co., Akron.
