At the approaching session of congression; owing to the tardiness of the agricultur effort is to be made to secure the passage of a bill making the 3-62 bonds of the District of Columbia receivable as security for that Mr. Rounds could get copy for this renational bank circulation. Several mem-1 port. bers of the finance committee are said to favor the object. Prominent bankers who are supporting the measure urge that these non-taxable bonds, having a long time to run, and the principle and interest being secured by a pledge of the government, are as desirable as government bonds.

Readjusters, 5; Independents, 2; total, 325. The Democrats will have a majority of sixty-five over all. This will, no doubt, be increased to sixty-seven, as one Independent, from Iowa, has declared himself in sympathy with the Democrats. Besides this there will probably be from twenty-five to fifty contests for seats claimed by Republicans. contests for seats claimed by Republicans, and if the majority follow the precedent of the last session they will unseat fifteen or twenty Republicans.

THE TRICYCLE IN THE POSTAL SERVICE. Postmaster Ainger, speaking the other day of the experiments inade with the tricycle in teollecting the mail, said: "It is a good thing. A man can make his collec-tions in about one-third the time that is re-quired on foot. If we had eight tricycles, I think we could collect from every box in the district every hour, or at least every 2 hours. It would be a big thing for the city. I don't know whether the department will purchase them for us or not. We have been making these experiments on our own responsibility.

Secretary Teller will not, in his annual report recommend a reduction in the cost of obtaining a patent. He is persuaded to this: course, it is said, from the fact that the patent laws are now the most liberal of any country in the world. In England it costs \$1,000 to obtain a fourteen-year patent; in Germany, over \$600; in Russin, about \$400. and in Canada, \$140; while here it costs but \$35 for a seventeen-year patent. It is not thought by the commissioner of patents, Marble, that a reduction in fees would materially increase the number of patents tak-on out or stimulate invention, as the small are denounced by the chambions of the bilt foo is now within the reach of all. The removal was madon the representations of Special Agent. A Bell, late assistant secretary of the interior which was not the best ground in the world for doing it. It is understood that Bell reported that on account of Gen. Kerley's age he rould not prevent the eneroschneents of the reservation a younger and more active men would. It is claimed in his behalf thas he was remarkably efficient in protecting the government land, the absolute preven tion of encroschments being well-nigh in: possible. Mrs. Kelly is extremely popular with the people who have visited the Hot Springs, and she has a great many friends here. She has regularly commenced a cam paign for the restoration of her busband to the superintendency, and the president is

Cader Taylor, and some of his other asaist ants imported from Illinois, have done much to introduce system and promote rap idity of work in the public printing office. The Congressional Record, though large than ever before, was gotten out in less time and at less expense than in previous years, and now if the agricultural bureau gives Mr. Rounds a fair chance he will dis tinguish himself again. If the horny hand ed government farmers don't hold back the proofs too long. Mr. Rounds will have fifty thousand copies of the agricultural report ready for issue by Jan. 1. This will be three or four months earlier than usual. It might be supposed that the report now in press in the one for 1881-2, but this it is not. The fact is, it is the report for 1880-1. A PENSIONS DECISION

Assistant Secretary Joelyn, of the interior department, has refused to reseind a rule made last spring, to the effect that attorneys in pension cases could draw their fees only if they were directly employed by the pensioners, or had permission from the pensioners to draw. The power of attorney given by a pensioner to his attorney contains a consent to the substitution of some other attorney. Under this agreement and the rules of the office, it has become common for a glaim attention of the latterney. mon for a claim attorney to get a lot of claims and then sell them out to another attorney. It was decided last spring that this when an attorney was substituted in this way it was required that he should present the consent of his client before drawing any fees. The reason why the rule was made is that pensioners ought to have something to say as to who should represent them. It was not deemed right that a pensioner who had employed one attorney should be made over to another without having something to say about it. Recently an attorney here bought out the business of a firm. but after taking his money the latter declined to de-liver the goods. They prevented the delivery of their mails to their successor, and then be attempted on the powers of attorney which he had bought to collect his fees but was met by the rule made last spring. -He appealed, but Mr. Joslyn declined to change the rule. Conner I. Jones, a hotel-proprietor at El-beron, has put in his bill before the board of and Ceneral Billes the state of J. Stanley Brown, Gen. Swaim and Warner Young are all down on the bill for fifteen days at four dollars a day. There is a wide difference in the amount charged for entertaining the various doctors. Dr. Barnes cost only \$16.50, and Dr. Woodward and Reyburn \$12 each; but Dr. Bliss cost and Reyburn \$12 each; but 171. Bliss cost \$98. In a memorandum added by Col. Rockwell to Mr. Jones' bill it is explained that Dr. Bliss' wife was with him. As Colonel Rockwell thought it proper to take his whole family to Eiberon and leave the bill of \$240 unpaid and to be charged up against the Corfold cetata he is not in a position the Garfield estate, he is not in a position to criticise Dr. Bliss for tacking not only his own but his wife's board-bill upon the Garfield estate, besides asking \$25,000 as compensation for his services. As Col. Rockwell and Gen. Swaim were at Elberon as to have undertaken to live there at his expense. Neither is there any in Jones' bill for entertaining Drs. (Agnew and Hamil-

THE COMING TWO-CENT STAMP Mr. Graham, in charge of the stamp devision, shows that there were issued to: making such copies and paid out for this purpose only a little over \$2,000, leaving to the clerk a profit of about \$19,000 from this source alone, and that the whole of the letter postage of the year. during the term over \$500 were drawn but it does show the great bulk of it. The from the treasury for manuscript copies estimates for the next fiscal year are based on the assumption that the revenues will or original records, although no such copies were made. Most of these enormous tharges for alleged copying are paid by litigants. Although the term referred to was a small term the fees are referred amounted to over \$32,000, and the ducing letter postage to 2 cents would be to charges to nearly \$8,000. Simmons, reduce that amount by one-third, or \$8,223. 610. Third Assistant Postmaster Hazen's who is well known in Washington, expresses willingness, if called upon, to go before an investigating body of the Su-Hazen himself is confident that the surplus will amount to \$5,000,000. If congress this winter reduces letter postage to 2 cents the most serious result that could fol w would be a deficit at the end of the fiscal year of 83,000,000 or \$4,000,000. This has better showing than the department could make a few years ago. During the four years 1875 8, the average annual deficit was \$5,565,386. It is evident that the department is nearly if not quite ready to carry letters for 2 cents. No account has been made of the increase of the revenues from a larger use of the mails as a result of the reduced postage. This would in a short time wipe out the deficit, and again make the department self-sustaining. Even at : cents per half ounce the government would get 81,20 a fon for carrying fetters, and the profit on carrying letters by the ton, even at a love rate, goes a long way to offset the loss of carrying there by the pound
