Last winter I was troubled wish a most unconfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of Aver's Sarsaparilla, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin-disappeared. My catarrh and cough were also cured by the same means, and inv general health greatly improved, until were also cured by the same means, and my general health greatly improved, until it is now excellent.
