and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and matural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases. A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with serofulous sores (ulvers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles. with the result that the sores are healed and my general health greatly improved. I feel very grateful for the good your medicine has done me. Yours respectfully, Mrs. ANN O'Brian." 148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Boston Herald, i. W. BALL, et 1500mster, A.H., writes, an

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies. I have made use, during the past three months, of Aven's Sansara BILLA, which has effected a complete cure I consider it a magnificent remedy for all blood diseases."

It checks falling of the hair, and stimu lates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the. Victor is unequalled; it contains neither oil por dye, renders the hair soft, glessy, and silken in appearance, and imparts a delicate, ngreeable, and lasting perfume.

Mr. C. P. BRICHER writes from Kirby, O., June 2, 18.82: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle or AVER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now now a fall hand of hair growing vigor. have now a full head of bair growing vigorously, and am convinced that but for the use of your preparation 1 - "! have been entirely bald."

J. W. Bowen, proprietor of the McArchar (Ohio) Enquirer, Says: "Ayer's Ham Vigon is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The Vigor is also a sure cure for dandruff. Not within my knowledge has the preparation ever failed to give entire satisfaction."

Mir Angus Fairbairn, leader of the celebrated "Fairbairn Family" of Scottish Vocalists, writes from Boston, Mass., Feb. 6, 1880: "Ever since my hair began to give silvery evidence of the change which fleeting time procureth, I have used AVER'S HAIR VIGOR, and so have been able to maintain an appearance of youthfulness—a matter of considerable consequence to ministers, ora-fors, actors, and in fact every one who lives in the eyes of the public."

Mas. O. A. Prescott, writing from 18 Elm St., Charlestown, Mass., April 14, 1882, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR Vigon the falling stopped and a new growth commenced, and in about a month my head was completely covered with short hair. It has continued to grow, and is now as good as before it fell. I regularly used but one hottle of the VIGOR, but now use it occasionally as

We have hundreds of similar testimonials to the efficacy of Aver's Hair Vigor, It needs but a trial to convince the most skeptical of its value.
