Laingsburg News July 10:—  
Mr. Frank Kellogg, with his wife and  
two children met with a serious accident  
on the 4th of July. They were on their  
way to Pine Lake and while crossing the  
Whitney bridge in Woodhull, his horse  
was frightened at a loose plank in the  
bridge, which had been shoved out of  
place, and becoming unmanageable back-  
ed off the bridge into the water below a  
distance of eight or ten feet. Mr. Kellogg  
was thought to have been fatally injured,  
but is pronounced out of danger, but con-  
tinued to lie in bed yet. His wife and  
youngest child escaped with but slight  
injuries. His oldest child was badly cut  
and bruised about the head and face.  
The horse was not hurt much, and tak-  
ing it all around it was a wonderfully  
lucky escape for all.

A man who becomes bondman of a  
liquor dealer now-a-days assumes con-  
siderable financial responsibility. A  
young man living near Ponton became  
intoxicated last winter and while in this  
condition had both feet and one hand  
frozen so badly, that amputation was  
necessary. A suit for damages brought  
by the young man's father has been de-  
cided in the Genesee circuit by a very  
dict of \$2,777 which the bondmen will  
have to pay.

The Chicago street car strike was set-

### THE VALLEY STRIKES.

The Mills in the Saginaw Valley  
Closed by Strikers.

UNION MEN AND STILL  
THROWING STONES.

On the morning of July 13, the strike  
between the mill owners and the mill  
men in the Saginaw Valley was in full  
swing. The strike was organized by the  
Saginaw Valley Mill Workers' Union, and  
the mill owners had closed their mills  
on the morning of July 13. The strike  
was organized by the Saginaw Valley  
Mill Workers' Union, and the mill owners  
had closed their mills on the morning of  
July 13. The strike was organized by the  
Saginaw Valley Mill Workers' Union, and  
the mill owners had closed their mills on  
the morning of July 13.

The strikers were very orderly, visit-  
ing mills and inducing the hands to quit  
work. A posse of police preceded them  
in their march and where in-  
structed by mill owners, refused to al-  
low them to enter the grounds. All  
passed peaceably until on Wednesday  
there was a collision at Rust & Bro's mill  
between the strikers and officers, the  
former, it is said, trying to prevent  
some cart drivers from working, throw-  
ing sticks at them and their horses, and  
the officers came to the rescue. The  
strikers threw sticks and the officers  
drew their revolvers. Sheriff Brennan  
and a patrolman were hit, and three  
were arrested, but afterwards released.

From that time the strike assumed  
greater proportions; 200 striking dock-  
workers of East Saginaw went to Bay  
City and swelled the numbers; a crowd  
of 2,000 assembled in a park where ad-  
dresses were made by D. C. Blum, pub-  
lisher of the Labor Indicator, Repre-  
sentative Barry, of East Saginaw, Mayor  
Shear, and Mr. Green, of a mill firm;  
the latter urged the strikers to hold out.  
There were incendiary rumors, but all  
was quietly conducted.

Friday the operations were trans-  
ferred to East Saginaw and the strike  
became general in the Valley, nearly all  
the mills on the Saginaw river being  
shut down. The Bay City strikers,  
East Saginaw, where they were received  
by 200 striking longshoremen, and  
marched through the streets bearing  
"ten hours a day" banners, and nearly  
all carrying canes or clubs. Representa-  
tive Barry made a speech and directed  
their movements. The procession moved  
south up the river and shut down every  
mill, except where the owners had an-  
ticipated them. Some violence occurred  
at Barnard's mill, Saginaw City, but  
Barry interfered. All the mills on both  
sides of the river were shut down. The  
Mills of both cities and the sheriff  
issued proclamations closing all saloons  
and guaranteeing protection to employ-  
ees and employers who desired to continue  
their work, but the strikers were not  
interfered with. It is stated that but  
few of the saginaw employees joined the  
strikers. The mill men say they can  
shut down for a month and then cut out  
of the logs that will come out of the  
streams this season.

Up to Saturday it was expected that  
an amicable arrangement would be ef-  
fected. Committees were appointed by  
the laboring men and by the mill men;  
the former stated their demands—ten  
hours a day, a rural day, and to be  
paid the same as heretofore for elev-  
en hours, and some other minor de-  
mands. The mill committee said they were  
willing to make fair concessions and wanted to  
pay their men in accordance with their  
own means, but they could not give full  
wages for reduced hours. So no adjust-  
ment took place. Meanwhile the mill  
owners had notified the city authorities  
that they should hold the city liable for  
any damage done by their property.

Monday the situation at East Saginaw  
became more serious. Mayor Eastbrook  
issued a proclamation, stating that the  
city had been invaded by lawless men  
from other localities and in defiance of  
law and order had by threats of violence  
prevented the citizens from continu-  
ing their peaceful pursuits, he there-  
fore had invoked the aid of the State  
authorities to prevent any further dis-  
turbance, and he also forbade the as-  
sembly of people in crowds at pro-  
cessions in the streets, as such gather-  
ings would be considered riotous, and  
he called upon all law abiding citizens  
to aid him in preserving peace and good  
order. Previous to this proclamation,  
a squad of 83 Pinkerton men had ar-  
rived on the Chicago train, armed with  
repeating rifles and revolvers, about one  
half of whom were sent to Saginaw City.  
It was claimed that this was deemed nec-  
essary in view of threats by strikers. The  
military companies in both cities were  
ordered out and a detachment was sent  
to guard the water works, threats hav-  
ing been made to cut off the water sup-  
ply, and a large number of deputy sher-  
iffs were sworn in. The strikers were  
very indignant at the importation of the  
Pinkerton men, and there were threats  
of destruction of property. Monday  
night, Representative Barry, who is  
the leader of the strike at East Saginaw,  
stated that unless the Chicago de-  
tectives were removed he would not be  
responsible for the preservation of law  
and order.

Monday night militia were guarding  
the water works and public property,  
and the Pinkerton men were placed  
within call should they be needed.  
Gov. Alger went to Saginaw Sunday  
night, to see the exact situation before  
authorizing military interference.

The Titabawassee boom company  
suspended operations Monday, on ac-  
count of the strike.

Section 2. That in all contracts, en-  
gagements or agreements to labor in any  
mechanical, manufacturing, or other labor  
calling, where such contracts or agreements  
are silent, or no express conditions specified,  
ten hours shall constitute a day's work,  
and the contract or agreement shall be so  
construed.

Section 3. Any individual, agent, firm,  
corporation, or other employers of labor,  
who shall take any advantage of any per-  
son or persons in their employ, or seeking  
employment, because of their poverty or  
misfortune, to invalidate any of the pro-  
visions of the preceding section, shall be  
deemed guilty of a misdemeanor, and, upon  
conviction thereof, shall be fined not less  
than \$5, nor more than \$50 for each offense,  
and it shall be the duty of the Prosecuting  
Attorney of the county in which such  
violation was committed, upon receiving com-  
plaint, to prosecute all such cases in the  
name of the people of the state of Michigan,  
before any Justice of the Peace or other  
competent Court of jurisdiction.

Section 4. All fines collected for viola-  
tion of this act shall be turned over to the  
School Board or Board of Education of the  
city or township wherein such fine may be  
collected, and the same shall be then be-  
disbursed for and in benefit of the public  
schools.

Section 5. Nothing in this act shall be  
construed to apply to domestic or farm la-  
borers, unless especially agreed to.

Charles L. Deen, of Louisville, Ky.,  
killed himself in Oxford, Ind., because  
separated from a Miss Mattie Hittman,  
with whom he had eloped. Miss Hitt-  
man was detained in the house of a  
friend, and Deen shot himself under  
her window. He was but 15 years of age.

In the approaching trial of Louis  
Riedel, an associate of the Chicago  
counsel for the defense will plead just-  
ification in behalf of their client, set-  
ting forth that the grievances of the  
half-breeds had become intolerable,  
and that the rebellion was their only  
resource.

The cashier of the Fourth Na-  
tional bank of Pittsburg was at lunch,  
a young man invited the clerk in  
charge to the door to "see a gentle-  
man." The clerk returned to his post  
to find him cash \$5,000, and the  
young man missing. There is no trace  
of the thieves.

Great improvement is reported in the  
condition of corn in northwestern  
Iowa, northwestern Nebraska, south-  
western Dakota, and southeastern  
Minnesota. The Indiana Farmers' es-  
timate the wheat crops in Indiana at  
34 per cent of an average, in Illinois at  
40 per cent. The prospects for corn,  
oats, and hay in the three states are  
excellent.

An investigation ordered by the gov-  
ernor of South Carolina, develops a  
shocking condition of affairs in the  
prisons, and that of that state the pris-  
oners having been systematically over-  
worked, underfed, and cruelly punish-  
ed. The next legislature will proba-  
bly abolish the system of farming out  
convicts to railroad companies and  
mining operators.

A Iowa greenbacker, in conven-  
tion at Des Moines, nominated E. H.  
Gillette, of that city, for lieutenant  
governor, and F. W. Moore, of Davis  
county, for superintendent of public  
instruction, leaving the other places on  
the ticket to be filled by the democrats.  
The resolutions denounce both the old  
parties, and protest against the contin-  
ued encroachment of monopolies.

At Green River island, in the Ohio  
river, near Evansville, Indiana, Chas.  
Harding and James Townsend fought  
six rounds with bare knuckles, the  
stake being the hand and heart of Miss  
Sadie Corning, a rural belle, for whose  
affections they had long been rivals.  
Harding proved victor, and will claim  
his bride as soon as he can see out of  
his right eye. Townsend was severely  
punished.

General Middleton's troops have be-  
gun their homeward march, and will  
be formally reviewed at Winnipeg  
next week, after which they will go to  
their respective posts. AU is quiet at

At East Saginaw, Michigan, Satur-  
day, several hundred strikers visited  
all the sawmills and saw-works in op-  
eration on both sides of the river, and  
compelled them to close. Mr. Warner,  
one of the mill owners was charged for  
offering resistance, and two negroes,  
who went to the relief, were roughly  
handled. At Bay City the strikers  
made an orderly street parade, headed  
by a band of music, after which a  
committee of their number held a con-  
ference with the mill-owners, asking  
that ten hours constitute a day's work  
and that no one be discharged for par-  
ticipation in the strike. No agree-  
ment was reached, the mill-owners ac-  
cepting the first proposition, but de-  
clining to entertain the second. Rum-  
ors current that the striking mil-  
lions threatened to destroy property  
unless their demands are complied  
with, are denied by their leaders. A  
large force of Pinkerton's special po-  
lice has been dispatched to Bay City  
and East Saginaw. The Polish roll-  
ing-mill strikers, at Cleveland, acting  
under the influence of their priest,  
will, he says, resume work if assured  
of protection.

FROM WASHINGTON.  
COAST DEFENSES.  
The board appointed last spring to in-  
vestigate coast and lake defenses and the cap-  
abilities of American fortresses for the man-  
ufacture of heavy ordnance, will meet at the  
Fifth Avenue hotel, New York, on the 13th  
inst. This board consists of the secretary  
of war, Gen. Benet, chief of ordnance; Gen.  
Newton, chief of engineers; Gen. Abbott,  
of the engineers, who is in charge of the  
board's reports and instructions; experi-  
mental station at Willet's point; Com-  
manders Goodrich and Sampson, of the  
navy; Joseph Morgan, Jr., of the Cambria  
transports, and Easton, of the survey-  
ing, Capt. Maguire, of the engineers, as sec-  
retary, and Jay Stone, of the war depart-  
ment, as clerk and stenographer. The de-  
fense of the lakes as well as the coast will  
be studied by this board, and a report will  
be made on the offensive and defensive use  
of torpedoes. It is roughly estimated that  
about \$10,000,000 is required for coast de-  
fenses. As there is no congress or senators on  
this board the tour will not be a junket.

A LIVELY INTERNAL-REVENUE FIGHT.  
The liveliest internal-revenue fight that is  
going on is the one over the Toledo collec-  
torship. Frank Ford is the republican  
candidate. Messrs. Soney and Gaudin have an-  
other candidate. Senator Payne has one,  
and Messrs. DeLoach, Anderson, and Ben  
Hill have one. The congressional are op-  
posed to Senator Payne's interference. They  
say there was a distinct understanding with  
Payne that he was not to meddle with ap-  
pointments in districts where he was a sen-  
ator. Every congressman whose district is  
in the Toledo collection district is a dem-  
ocrat, and Ford is a republican. Ford is  
a part of their plunder appointments, and  
feeling more than one district even when  
all the congressmen interested were of their  
own party.

TO BE TURNED OUT.  
The applicants for territorial govern-  
ships are much encouraged by the recent  
action of the president in suspending Gov-  
ernor Carpenter, of Montana, and appoint-  
ing Mr. Hauser a democrat, to succeed him.  
It seems the president was at first re-  
solved not to disturb any of the republican  
appointments during their official terms of  
four years, but the republican adminis-  
tration were preferred and proved  
against them. Ex-Senator Herford, of  
West Virginia, shortly after the 4th of  
March, urged the president to remove  
his relative, Governor Tittle, of Arizona,  
until expiration of his term next February,  
and the president thereupon advised Mr.  
Carpenter that a political party was to re-  
move any of the territorial governors during  
their terms of office. Since that period,  
however, matters have shaped so as to  
materially alter the president's views in re-  
gard, and hence the suspension of Gov-  
ernor Carpenter, of Montana. Only three  
democratic territorial governors have so far  
been appointed: Ross, of New Mexico, vice  
Sheridan, whose term had expired; Swine-  
ford, for Alaska, vice Kinkead, suspended;  
and Hauser, of Montana, vice Carpenter,  
suspended—leaving open Arizona, Dakota,  
Idaho, Utah, Washington and Wyoming  
territories.

MONEY CONSULTS MAKE MONEY.  
It is said at the state department that  
there are as many applicants for the small-  
er consulships and the little commercial  
agencies as for some of the more important  
diplomatic positions. There have been sta-  
tions where native merchants of some  
country as Egypt would bid against  
each other for some subordinate com-  
mercial agencies under the United States  
at the disposal of the consul general until as  
high as \$10,000 has been given for a little  
place with scarcely any salary at all, sim-  
ply because the position was an advan-  
tage one in point of its exemption from  
troublesome laws, taxation, etc. One con-  
sul in Asia Minor in having made a great  
deal of money has retired out. American  
agents to local trading-posts that were  
willing to pay \$200 a piece for the sake of  
sailing under the United States colors.  
Another consul suggested that the inspec-  
tion of immigrants was very necessary for  
the good health of America, and he was  
given permission to charge an inspection  
fee. He fixed the fee at 25 cents per head,  
and had made about \$20,000 out of it before  
it was discovered that he paid a native 10  
cents per head, while he pocketed the other  
15 cents for overseeing the job. In China  
there used to be a system of "tea consu-  
lats" received \$1 each for shipping opium  
smugglers, but since Col. Mosby has been at Hong  
Kong he has broken it up. Thus it is  
plainly to be seen there are more ways  
than one to make money in consulship  
vice.

HON. THOMAS NELAN.

The subject of this sketch was born in Ireland, May 13th, 1849, emigrated with his parents in 1852. Came to Owosso, Ont., where the family resided about two years, when they moved to Lockwood, Wellington County.

His father was engaged in the wagon and carriage manufacturing business and at the early age of 17 he succeeded his father in business. Bro. Nelan concluded that he had served his time, and fairly convinced in his own mind that he was a full-fledged wagon maker, he started out to try his hand in the cold, cold world and make a fortune for himself.

He came to Michigan and found his way to Mt. Clemens, remained there a few months and worked at his trade.

Then came the fall of the year and business in his line getting dull he again migrated, landing this time in Pontiac where he very readily found work.

Everything was getting along nicely and young Thomas thought it was not such a cold world after all. He formed many pleasant acquaintances and among the best was one L. E. Knapp, a cooper by trade, now the present L. E. Knapp, of Pontiac Commandery.

In the midst of his happiness grief came at last. Work began to get dull and young Tom found himself without a job and not a very large supply in his treasury.

Emigrate was the order, and he invited his young friend Knapp to accompany him; so they left Pontiac by road on foot, both being a little short of the "gill" to take them out by rail. They journeyed along keeping up their spirits as best they could by telling stories and hoping to strike something, when a large-hearted farmer overtook them and invited them to ride, and they concluded that there was luck for them yet. The horse, both for some miles where the farmer was leaving their route, and the boys had to take it as it came. They jumped out and were about to express their thanks when the farmer said that fifty cents apiece would be enough; argument was useless, they had to pay it. After paying him, if they had been asked by Bradstreet to make a statement they would have had nothing to state. After some time young Tom again found his way to Mt. Clemens, where in August, 1864, he enlisted with thirteen others in the United States Navy, and was mustered at Chicago September 5th following.

After a short stay on board of the receiving ship at Cairo, the boys were separated, Tom and one Arthur Francis being sent on board of the U. S. S. Curlew No. 13, the others were sent to the "Forest Rose." After a time Tom's companion was struck with that fatal disease, home-sickness, and was taken to the Marine Hospital at Memphis, where he finally died. This left Tom alone so far as Michigan boys were concerned. The Curlew was soon detailed for coast surveying purposes, and under control of Captain Gordes, well-known in New York and Washington, Tom was chosen to take charge of the instruments, which position he held until the close of the war, when he again returned to Mt. Clemens in 1866. He moved to Brighton and the same year to Howell, remaining there until 69 when he put in a short time at Byron, then he moved to Owosso where he now resides.

Brother Nelan took an active part in the I. O. O. F. for some years and held many very important offices.

On the 27th of March, 1877 he became a Master Mason in Owosso Lodge No. 81, and in November the same year he received the Chapter Degree and in December the Commandery Degree. In December, 1879, he was elected W. M. of his lodge, a position which he has since held with great credit to himself.

Under his administration Owosso Lodge No. 81, has become one of the best working lodges in the State. Their manner of conferring the M. M. Degree is second to none. They have had invitations from all parts of the State to come and exemplify the degree, but have accepted in a very few instances. They went to Lansing in April, 1883 and conferred it for the Lansing Lodge which gave them a State reputation, as the legislature was in session and a large number of the members were present and every one saying that they had never seen the work equalled.

Ed. Jie has been Principal of the Owosso Chapter for seven years and in April, 1884, he was elected E. C. of Cornelia Commandery No. 21 and was re-elected in 1885.

He is a hard worker for the cause and whenever he does anything he does it with all his might, never tiring to do right, has no use for a monitor in the Lodge room in conferring degrees.

He takes great pleasure in his town always ready and willing to help in the promotion of any enterprise that would

## THE OWOSSO PRESS.

J. H. CHAMPTON & Co., Proprietors  
OWOSSO, MICH.

Wednesday, July 15, 1885.

The statement by a Washington paper that the President had sent a message to any more changes in the cabinet of "offensive partisanship" is a grossly announced untrue.

It has been said that President Cleveland has in store some good thing for some Michigan Greenbacker, in connection with the Democratic party.

Mr. Crampton, of Monroe, is after Judge Turner's place, as U. S. Consul at Amherstburg.

There is a contest over the Lansing postoffice, but Col. Sanford is considered as having the inside track.

A. J. Shakespeare, of Kalamazoo, wants the postoffice at that place, but there is a strong contest over it.

An excellent appointment by President Cleveland, was that of Hon. A. P. Swineford, of Marquette, to be Governor of Alaska. Mr. Swineford expects to leave for Alaska about July 25. Mr. Swineford solicited the position, not for pay, but for work. He enters upon his duties with the expectation of developing the resources of that little known territory, especially the mining riches, of which he is convinced there is a great field. He is all the time informing himself about the country and intends to visit every station in the territory, the only means of reaching them being by means of water communications. Mr. Swineford said to a Free Press reporter that he believes the land abounds in mineral wealth—gold, silver, iron and coal, and he also sees great opportunities for settlers in lumbering, fishing, mining and farming, especially the breeding of cattle. He is informed that the grazing grounds in some portions of the territory are not surpassed on the continent. The same vegetables common to this region of our country can be raised there. The lowest temperature at Sitka, last year, was two degrees below zero, the highest, sixty-seven. Mr. Swineford still remains connected with the Marquette Mining Journal, of which he has been a long time the publisher.

In contrast with the speech of Mr. Blaine at Augusta just after the election, and the bitter sectional stand taken by the Ohio Republicans for their State campaign, it is refreshing to read the account of the visit of Ex-Confederate Gen. S. B. Buckner to Gen. Grant last week. Here were two participants in the war, representatives of the opposing armies. Gen. Buckner was conducted to the chamber of the sick man, who was awaiting him. The account says:

"Gen. Grant and Buckner were fellow students at West Point, and when Fort Donelson fell, Gen. Buckner was the first Confederate general captured by Gen. Grant. The meeting was affecting and the interview lasted an hour. Gen. Grant afterwards showed considerable fatigue as the result of the interview, but, as the afternoon wore on after Gen. Buckner's departure, the pleasure felt by Gen. Grant at having met his old acquaintance seemed to have balanced any tendency to depression which might have resulted."

It will be found the unrequited element consists of partisan politicians, whose only hope of success is in keeping up a bitter feeling between the north and the south.

Philadelphia Press: Mr. Cleveland looks like a man against whom any circumstances, any people, any powers might beat until they tie themselves out without moving him a single inch from the position he has originally taken for himself. One feels instinctively that there is a man who is President of the United States in absolute truth, and who is going to follow out his own convictions.

While preparations were making for the funeral of Henry Holloway, a deceased octogenarian of Frederick, Pennsylvania, who was supposed to have died in destitute circumstances, several thousand dollars were found scattered about his house.

Charles Williams, of Highland Home, South Carolina, who compelled a number of ladies to present him with locks of their hair, while the flourished his revolver in their faces, was riddled with bullets by a band of masked men while being taken to jail.

At Ogden, Utah, Judge Powers, Cleveland's appointee, from whom the polygamists expected clemency, imposed the extreme penalty of the law—six months' imprisonment and \$300 fine—upon two prominent Mormons convicted of illegal cohabitation.

Operations were resumed on all the West Division railway lines at Chicago Wednesday morning, and no traces of the strike were visible in any quarter. Passengers were permitted upon several of the "scab" routes, the strikers claim responsibility for these outrages. Translations from Louis Riel's diary, which was found at Batoche by General Middleton, have been published at Toronto. They abound in claims by the writer to divine inspiration, and in prayers to the Virgin Mary and the saints for the success of the rebellion.

George Steward, a farmer living near Yorkville, Illinois, was shot and killed by James Freeman, of Aurora, a member of a camping party who had spent the night in a mill belonging to Steward. Freeman, who surrendered himself, says the shooting was accidental.

Gen. Grant's Failing Condition is Plainly Perceptible to His Friends—Yesterday's Record.

PLEASURES' SAD ENDING.

MINNEAPOLIS, MINN., July 13.—Lake Minnetonka was the scene yesterday afternoon of one of the most terrible accidents and wholesale loss of life ever known in this State. At about 4 o'clock a steam pleasure yacht was capsized in a sudden squall and all on board were lost. The passengers were among the leading residents of this city, and their sad death has occasioned unprecedented excitement and sorrow. They were:

A. C. Rand, Mrs. A. C. Rand, his wife, Mary Rand, aged 15 years, their daughter; Harvey Rand, aged 15, their son; Frank Rand, aged 10, nephew of Mr. and Mrs. Rand; Dr. J. R. Coykendall, Mrs. J. R. Coykendall; Katie Coykendall, aged 5, their daughter; Charles Hussy, aged 15, a friend of Frank Rand and the son of A. J. Hussy; and George McDonald, the engineer.

The boat was the steam yacht Minnie Cook, and had been engaged by the party for the afternoon. Mr. Coykendall has a cottage at the lake, and the Rand family had driven out in a carriage as the guests of the Coykendalls.

The boat had reached the upper lake, and turned back, when the squall came up suddenly from the west. The little craft was seen from the shore to be in some distress, but after a little seemed to recover and was getting along all right. She reached Big Island safely, but opposite Little Island, between Hardenbergh's Point and S. C. Gale's cottage, a second flurry struck her, and she suddenly capsized and went down.

Boats were put out at once, but nothing was seen of the party but their wraps and hats and the dead body of Mrs. Rand floating in the water. The body was taken to the shore and endeavor made to find the others. At 7 o'clock the body of McDonald was found by his father with grappling irons. At dark search for the others was given up and the spot marked with buoys.

Of the lost, A. C. Rand was Mayor of Minneapolis in the years 1874, 1879, and 1880, and for the last four years has been President of the Minneapolis Gas Company and principal stockholder.

Mr. Coykendall was the senior partner of Coykendall Bros., the leading wholesale dry-goods house of the city. Mr. Rand's age was 54, and Mr. Coykendall's 57.

Of the Rand family there are four children left, but all the Coykendall family were lost.

A. C. Rand was born in Boston in 1834, and married Miss Celine Johnson, of Buffalo. He engaged in the oil business in Pennsylvania, and was afterward a banker at Aurora, Ill. He came to Minneapolis in 1874. Coykendall was his son-in-law, and has been in the dry-goods business several years. Both were wealthy and standing at the head in Minneapolis business and social circles.

GRADUALLY GROWING WEAKER.

SARATOGA, N. Y., July 13.—General Grant passed another fairly good night. He awoke at 8 o'clock yesterday morning, and said that he felt refreshed, but that he had not recovered from Wednesday's fatigue. Dr. Douglas says that he will not permit a repetition of it. This afternoon Gen. Grant was sitting propped up in chairs in the quiet of his room when he learned that Gov. Hill, the Hon. Joseph W. Drexel, and Senator Arkell were on the mountain. He asked to see them. They called, but remained only a moment. The general is about the same as about having his friends think that he is sicker than he actually is; but in spite of what he may imagine about his own condition, Gen. Grant is gradually growing weaker, and this is perceptibly noticeable from day to day.

The weather on the mountain today was perfect—the mercury at 70 deg.—yet the general was only able to be out on the piazza about thirty minutes.

The Rev. Dr. J. P. Newton delivered a sermon on the mountain this noon. In referring to Gen. Grant, he said: "Oh, illustrious sufferer in your cottage what a lesson to art teaching to the warriors and statesmen of the world, and to the youth of that country which thou hast saved by finding within thyself in this supreme moment those elements of repose and happiness which to-day excite the admiration of mankind and fill the hearts of angels with delight."

Gen. Grant retired about 8 o'clock for the night. Dr. Douglas said the indications were favorable for a good night.

SHERIDAN TO THE FRONT.

WASHINGTON, July 11.—The Indian troubles, as looked upon from Washington, are becoming more serious. Gen. Sheridan left here last night for Fort Reno, Indian Territory. The general desired to be at the scene of the conflict. A telegram has been sent to the officer in command which says the outbreak must be suppressed even if the Cheyennes are wiped out of existence. Gen. Miles is expected to arrive in the Indian Territory next week. The hope is expressed that he may be able to quiet the disturbance without bloodshed. He is well known to the Indians, and is said to have considerable influence over them. In former cases the Cheyennes some years ago they surrendered to him voluntarily. Prior to that it was his custom to refuse to surrender. The Indian commissioner had not received telegrams from the scene of disturbance up to the close of office hours today. In answer to an inquiry as to whether it was the intention of the government to disarm the Cheyennes, he firmly declined to give any information. He declared that great harm might be done by the premature publication of the intentions of the government in such cases, as it enables the Indians to prepare themselves for resistance. Nevertheless, it can be said that the interior department is strongly in favor of disarming the Cheyennes, and that in

the London Pall Mall Gazette is making startling developments of the traffic in young girls in London for purposes of prostitution. There is great excitement over the developments.

Chicago is warned of a great cat war. A cat fight after the manner of the Kew case, and favoring an investigation by the police of the acts of the cat-service commission. Whomsoever commences an entire reorganization of the neighborhood navy yards in a cat fight, and in prosecution of their books and papers, with this end in view, is now in progress.

Attorney General Tilton has rendered an opinion to the effect that the government is under no obligation to accept the dispatch boat Dolphin, recently built by John Brown, and that the sums already paid for the vessel may be recovered.

The Star says the president is preparing to depart from Washington for a summer vacation. His plans have been arranged, and it is expected he will be able to get away within a day or two. He will go to York state and become himself to the woods for a few weeks, getting away from the worry and bother of the office-seekers and politicians. His plans have been made very quietly, and the president has been so secret about his intended absence, without making any previous announcement. The president wants a period of perfect rest, and two weeks of vacation will be his treat. The office-seekers will wake up some morning very soon and find the white house deserted.

The June report of the agricultural department shows a slight improvement in winter wheat, which advances the general average between two and three points, or from 93 to nearly 95. The winter wheat region, which does not include the territories, now promises about 215,000,000 bushels. The condition of spring wheat continues high, though the average is slightly reduced, being nearly 96. Indications now point to a crop of about 148,000,000 bushels, making an aggregate of 363,000,000 bushels. Corn—the condition is higher than in any year since 1880, except the last. The area is 74,000,000 acres. Cotton has made a material improvement during June. The average condition has increased from 92 to 93.

Wild Excitement in London Over the Charges Against the Morals of the Upper Classes.

ROYALTY IS ACCUSED.

LONDON, July 11.—The excitement over the Pall Mall Gazette's revelations continues without abatement. The windows and doors of the Gazette publication office are barricaded, and the police are in control of the surrounding mobs. The Gazette says that it receives every day numbers of cables from the United States asking about the progress of the exposures. Cardinal Manning has accepted the proposition made by the Pall Mall Gazette to publish a list of names of persons who have been guilty of immoral conduct, including every name and detail to a party of responsible men, to include the Cardinal and Hon. Charles Murray, the ex-ambassadors to have the privilege of reporting to the public upon the affairs as they may deem best. In the house of commons this morning a bill would be introduced to bring into force the law which would punish the members of the South Northumberland, in accordance with his notice of yesterday, asked Sir Richard Assheton Cross, the home secretary, whether he could assure the house that the government had given orders to the police to do their utmost to suppress the abominations in London revealed by the Pall Mall Gazette.

The house secretary, Mr. Cross, replied that the police would use every exertion to suppress the alleged practices. The existing law, supplemented by the criminal law amendment bill, would suffice to bring to justice the perpetrators of such abominations.

It is understood at Paris that President Grey will not be a candidate for re-election.

Runners are current at Cairo that El Mehdi is dead and that his followers have fallen to fighting among themselves.

Unpopular tax levies caused a serious riot at Leida, Spain. The military were called out and fired upon the mob, killing thirty men and wounding a large number. One soldier was also killed.

The failure of the negotiations for a second commercial treaty with Spain was due to the Spanish foreign minister's belief that his government, having agreed to one treaty which the United States had neither accepted nor rejected, could not consistently consider the matter any further.

The London Pall Mall Gazette is making startling developments of the traffic in young girls in London for purposes of prostitution. There is great excitement over the developments.

Chicago is warned of a great cat war. A cat fight after the manner of the Kew case, and favoring an investigation by the police of the acts of the cat-service commission. Whomsoever commences an entire reorganization of the neighborhood navy yards in a cat fight, and in prosecution of their books and papers, with this end in view, is now in progress.

Attorney General Tilton has rendered an opinion to the effect that the government is under no obligation to accept the dispatch boat Dolphin, recently built by John Brown, and that the sums already paid for the vessel may be recovered.

The Star says the president is preparing to depart from Washington for a summer vacation. His plans have been arranged, and it is expected he will be able to get away within a day or two. He will go to York state and become himself to the woods for a few weeks, getting away from the worry and bother of the office-seekers and politicians. His plans have been made very quietly, and the president has been so secret about his intended absence, without making any previous announcement. The president wants a period of perfect rest, and two weeks of vacation will be his treat. The office-seekers will wake up some morning very soon and find the white house deserted.

The June report of the agricultural department shows a slight improvement in winter wheat, which advances the general average between two and three points, or from 93 to nearly 95. The winter wheat region, which does not include the territories, now promises about 215,000,000 bushels. The condition of spring wheat continues high, though the average is slightly reduced, being nearly 96. Indications now point to a crop of about 148,000,000 bushels, making an aggregate of 363,000,000 bushels. Corn—the condition is higher than in any year since 1880, except the last. The area is 74,000,000 acres. Cotton has made a material improvement during June. The average condition has increased from 92 to 93.

Wild Excitement in London Over the Charges Against the Morals of the Upper Classes.

ROYALTY IS ACCUSED.

LONDON, July 11.—The excitement over the Pall Mall Gazette's revelations continues without abatement. The windows and doors of the Gazette publication office are barricaded, and the police are in control of the surrounding mobs. The Gazette says that it receives every day numbers of cables from the United States asking about the progress of the exposures. Cardinal Manning has accepted the proposition made by the Pall Mall Gazette to publish a list of names of persons who have been guilty of immoral conduct, including every name and detail to a party of responsible men, to include the Cardinal and Hon. Charles Murray, the ex-ambassadors to have the privilege of reporting to the public upon the affairs as they may deem best. In the house of commons this morning a bill would be introduced to bring into force the law which would punish the members of the South Northumberland, in accordance with his notice of yesterday, asked Sir Richard Assheton Cross, the home secretary, whether he could assure the house that the government had given orders to the police to do their utmost to suppress the abominations in London revealed by the Pall Mall Gazette.

The house secretary, Mr. Cross, replied that the police would use every exertion to suppress the alleged practices. The existing law, supplemented by the criminal law amendment bill, would suffice to bring to justice the perpetrators of such abominations.

It is understood at Paris that President Grey will not be a candidate for re-election.

Runners are current at Cairo that El Mehdi is dead and that his followers have fallen to fighting among themselves.

Unpopular tax levies caused a serious riot at Leida, Spain. The military were called out and fired upon the mob, killing thirty men and wounding a large number. One soldier was also killed.

The failure of the negotiations for a second commercial treaty with Spain was due to the Spanish foreign minister's belief that his government, having agreed to one treaty which the United States had neither accepted nor rejected, could not consistently consider the matter any further.

He is in improved health since he has the assistance of Rev. Mr. Wright, his curate. Mr. Wright will also supply the Christ Church pulpit some Sunday later—probably in August.

—We were pleased to receive a call, last week from Geo. Wickham, of Rochester, N. Y., a former Owosso boy. He is the guest of his brother-in-law, Mr. M. M. Woodbury, in Owosso township, and is accompanied by his wife and two children. He is engaged in the silk department of an extensive mercantile house, in Rochester, a fine position, which he has held seven years, and is on a vacation. It is always gratifying to greet these old Owosso boys, who have made for themselves good positions in life. George has not been in Owosso before since the death of his mother, ten years ago, and he is astonished to witness the improvements during the time.

—Mr. Wm. French, formerly connected with the Owosso woolen mill, one of the proprietors when it was burned the last time, was in Owosso last Wednesday. As usual with all Owossoans returned, he expressed surprise at the advancement of the city.

—We regret to state that Mr. Saml Schmidt, of Owosso township, is very ill, with asthma and a kidney trouble. Dr. Ward, of Lansingburg, was called yesterday by Dr. Perkins in consultation on his case.

Later—he has been heard from north of Grand Rapids.

## Latest from the Saginaw Valley Strike.

By this morning's Free Press:

The crisis has come at last. The State troops have been called out—four companies ordered to Bay City and three to East Saginaw. No mob violence has yet taken place but Gov. Alger has acceded to the demands for State protection.

The mill owners declare they will not give up. The situation is serious.

The Gov. made a speech to the strikers and Barry replied denouncing the mill owners and the Governor.

South Florida Times, June 27:—

Miss Anna Bockee leaves for the North next week to attend school at some of the colleges in New England. She accompanies her sister, Mrs. Kate B. Sturdevant.

—What do you think of a whole freight car all in working order, going the journey by express to Washington? Such was the case last week: Mr. R. R. Marsh, of West Owosso, shipped his second car, or model, to his attorney at Washington, to secure for him a patent in Canada. The patent in the United States has been allowed, and will be issued as soon as the Canadian one is secure. Experts claim that this invention as an effective brake for freight trains, will be hard to beat. Mr. C. J. Stuart, of this city, has secured an interest in this valuable invention, and with the push these two gentlemen possess in business matters, this brake cannot but be a success.

—Monday morning a telegram was received in this city, from Eaton Rapids, stating that a man had been found dead near that place, hanging to a tree, and that he registered at the hotel as "J. Goodrich, Owosso." Subsequent accounts were that nothing was found on his person to give any clue to his identity—some postal cards, two red handkerchiefs, two jack-knives and a pair of spectacles being all that was found in his pockets. He was at the Sunday morning meeting of the Salvation Army, and he said there he was on the road to glory, and that was the last he was seen alive. The rope was tied in a "bowline" knot hence it was inferred he was a sailor. He was about 55 years of age, five feet nine inches tall; whiskers iron gray and cut short; wore dark clothes and a checked shirt. We do not learn that the man is identified by any one in Owosso.

—The Press is in receipt of a pamphlet of the Mineral Springs Hotel and Health Resort at Suspension Bridge, N. Y., formerly the Monteville House, of which it will be remembered, Dr. F. B. Smith became proprietor a few months ago. The circular gives a description of the House and mode of treatment, with representations of several rooms of the establishment, and bears the compliments of the "Niagara Falls Mineral Springs Company." For circular, address Mineral Springs Hotel and Health Resort, Suspension Bridge, N. Y.
