of whom were present save the widow of the at Mount McGregor, waited near the hotel to join the mournful procession and take position behind the funeral car. These were followed by the most distinguished of the guests, with the President, who was seated with Secretary Bayard, at the head. Quietly keeping his place with the Cabinet the grave and handsome face of Postmaster General Vilas, the graceful and forcible enlogist of the dead commander at the banquet of the Army of the Tennessee five years ago, was noticeable. Among the Governors the good gray head of Oglesby, of Illinols, was conspicuous. Within a narrow compass was seen such a gathering of the notables of the nation as no other occasion could bring together.

All these carriages were kept waiting in massive catafalque rolled majestically past Twenty-third street, and every head was in an instant uncovered. Strong men brashed away the tears and several women were overcome by their emotions. As the remains

Colonel Fred Grant and family alighted from their carriages and gathered with uncovered heads and solemn mien about the bier. There were the twelve official pall-bearers, with General Sherman at their head, and the clergy standing and supporting the Grant family. On the other side, near the end, was ranged the President, General Hancock, the Vice President, the ex-Presidents, and other dignitaries. The beautiful ritual of the Grand Army, though brief, was very impressive. As the casket lav in the lead-lined cedar chest the touching ceremony of sounding "taps" by a vet-

The Grand Army service ended, the grizzled veteran bugler again appeared and poured forth the strains "Rest." The simplicity of the music, its deep signifiriver denoted that the ceremonies were, and remain in Mrs. Grant's service.

Yes. Tom Burton was an Hold bachelor," at least, so his gentlemen friends agreed, his lady friends feared. and Tom himself, oh, he was absolutely sure of hil. He always intended to be one -they are so free and independent. you know-and had sworn a solemn oath with his college chum and bosom friend, Fred Lang, that neverno, never-would be bind himself to any woman's capricious will.

Fred had given his pledge in return, and had, so Tom said contemptuously. made quite a respectable sort of a bachelor until he feil an instantaneous victim before the bewitching eyes of Alice Gray.

But never mind. He shouldn't marry-not he! Nevertheless, he concluded to accept the invitation extended-"just to see you, and to shoot a trifle," he wrote, and in just a week from the receipt of Fred's letter he stepped from the train into that worthy's extended arms, and in a trice was whisked off behind a pair of mustangs black

They passed but a few houses of any note, and Tom began to "chaff" Fred a little, telling him he lived among savages and uncivilized people, when they turned the brow of a hill, and just before them, back from the road, half hidden among the trees, rose a large white mansion, which had every appearance of being the home of a man of wealth. Tom brightened up.

"Who lives there?" said he. "That's where Judge Hilton livesfather of that girl I wrote you about, you know. Perhaps we'll get a glimpse of her; she's generally out in the garden. Yes, there she is now. Don't

you see her?" Tom looked, but, unfortunately, the mulatto servant-girl appeared on the walk, gayly dressed in ribbons and plumes, combining colors which, as Tom said, "to look at would make a man's head ache for a week."

Giving but one glance, he turned his head with a disgusted "Humph!" Fred seeing Tom's disgust and its cause, laughed till his eyes swam with tears, but would not offer an explana-

tion of his conduct, though emphatically commanded to do so. The next morning the two men started out to view the land and talk over old times. The Havanas which Fred brought forth took up their attention for some time, but before long many and loud were the peals of laughter brought forth by the calling up of "flunks," "bolts," hazing escapades, and a thousand and one wild freaks in-

dulged in during the bygone days:
Wearled with excessive laughter, they sat down to rest beneath the widespreading branches of an oak. "Fred," said Tom, "have you told

that very particular little wife of yours all these scrapes we got into?" "I'll tell you what, Tom," replied Fred oracularly, "don't you ever tell Mary Hilton a single scrape until you are tied up tight. Oh, of course, you'll eay, 'Never going to marry her,' and all that; but you will, I know you will —that is, if you are discreet. If you tell her one single one, she'd never look at you again. Why. I told Alice about our giving Jones that emetic in his coffee, you know, and about you getting up and making that speech, and showing the boys that old shoe you claimed was in the soup, and she said if she had thought I was so bad she would never have had me at all.

And he shrugged his shoulders as if in recollection of a curtain lecture. Tom smiled contemptuously at this long speech, and laughed coolly as he

"You needn't worry, Fred; I probably shan't have an opportunity—at all events I shall not seek one. And as to my ever marrying her, or anyone else, it is absurd. If there was nothing else, her name cuts off her only chance. I've sworn an oath never to marry a girl whose name is Mary. I won't marry one who cannot waltz and play the piano. I have seen your Mary—she is as black as ebony, comparatively, is as homely as a hedge-fence, and I'd wager my head she can't tell one note from another. But to say nothing of all this, I shall never marry anyhow. Come on, let's go back to the house."

The two men had barely disappeared, when from the thick branches of the oak came a laugh as clear as the tinkle of a mountain brook, and an instant later a young lady swung lightly

Waving him off, as he approached her to take the hand he felt sure must be his, she answered him:

Dr. Newman's text was from Matthem: "Well done, thou good and faithful servant; enter thou into the joy of thy Lord."

The preacher said that some comrade in arms should speak of the splendor of his martial genius, some statesman review the majesty of his divil administration, some historian place him on the pedestal of renown, but as a minister of religion he wished to dwell upon the great character which would ever be the Old Commander's grown of glory and the imperishable heritage of the country he loved so well. What most surprised the policemen and other citizens was the great number of strangers, among those struggling for a farewell look at the dead soldier. Detectives said they had never seen so many country people .come together at one time before. It seems ed as though places around New York had poured their inhabitants by hundreds into he line leading to the city hall. Nothing ike it was ever seen in this country before. Whites and blacks, mechanics with their tools and merchants with business neglected, women and children, vazabonds and thieves, formed an endless chain, winding like a serpent and progressing steadily torward.— Love, veneration, curiosity and idleness were all combined to bring together the most widely different sorts of men and lead them to the same goal. THE DAY OF PARTING.

New York, Aug. 8.—The mortuary honors paid to Ulysses 8. Grant to-day were the most imposing and distinguished ever paid to an American citizen. The history of the country does not reveal similar honors paid to a public man. In that respect the honors to the great conquerer of the rebellion stand umrivaled and are likely so to stand for all it was noticeable that there were fewer work dered imperative by reason of the imperfect men and girls in the line. Shortly be-There was no hait or break in the line of people, and as no building in the world could hold them all, and nothing could be seen of its other side, it was as if they were being swept by some mysterious current into a bottomless abyss, that the white marble walls hid from those who approached them. To the imaginative mind it was like a judgment-day scene, wherein the people of the filed in and played a solemn dirge. Here came another touching incident. Over one hundred members of the Liederkranz Society filed in, and, led by four beautifully chorded instruments, sang with sublime effect, "Chorus of Spirits from Over the Water," and also "Chorus of the Pilgrims,"

from Tannhauser.

The guard of honor of regular troops comprising companies from the Fifth Artillery and Twelfth Infantry, took position in the little park. At 9:35 the magnificent funeral car, drawn by twenty-four black and heavily draped horses, each led by a colored groom, in the deepest of crape, drew up to the City Hall. Reverently the casket was head by members of U. S. Grant Post, all standing uncovered.

By the plan of the procession it was agreed that the body should move up Broadway unattended by any but the military escort and Guard of Honor. As this, however, was very long General Hancock with staff at the third street before the catafalque had fairly got under way. The scene on Broadway as the long line of military marched to slow dirges, the deep drapery which lined either side, the myriads of flags at half-mast, the booming of guns from fort and fleet made an impression which can never be forgot-

While the funeral car was being slowly drawn along on Broadway sad scenes were being enacted at the Fifth Avenue Hotel. Here were assembled the family of the dead, the dignifaries of the land, and the distinguished bearers of the pall. It was a few moments after 10 o'clock when Generals Hancock and Shaler refined their steeds under the windows of the hotel. At that hour resting on the coarse shirted bosom, an expression of deepest sorrow on the wrinkled face, forming a picture touching beyond words.

received by the superintendent of the labor bureau. It was wriften by John D. Osterhoudt, of Tobasco, Ulster county, who represents himself as a "full-blooded American," and says he "weighs 175 pounds in winter," and is 6 feet high. He desired a wife whom at 25 cents, at HOLMAN'S. Try it. he "could live with in peace and union." If she should turn out "to be a little on the tall order it would be no fault." She should be from 38 to "43 and "kindly, stout, and rugged." The writer said that there were no old maids in his part of the country, and the widows all had "about six children apiece, more or less." He wound up by asking the superintendent to send him a blank, if he had not time to write, and he would regard it as an invitation to visit the garden about May 20. Mr. Osterhoudt inclosed for the expenses of finding him a wife, a dime, sewed up in several thicknesses of paper. On this package was mark-"bo not fall to find the dime."

Whites and blacks, mechanics with their tools and merchants with business neglected, women and children, vagabonds and thieves, formed an endless chain, winding like a ser-

Love, veneration, curiosity and idleness were all combined to bring together the

THE DAY OF PARTING. New York, Aug. S.-The mortuary honers paid to Ulysses S. Grant to-day werethe most imposing and distinguished ever paid to an American citizen. The history of the country does not reveal similar honors paid to a public man. from Tannhauser. The guard of honor of regular troops, comprising companies from the Fifth Artillery and Twelfth Infantry, took position in the little park. At 9:35 the magnificent funeral car, drawn by twenty-four black and heavily draped horses, each led by a colored groom, in the deepest of crape, drew up to the City Hall. Reverently the casket was

attended by any but the military escort and Guard of Honor. As this, however, was very long General Hancock with staff at the head of the procession, reached Twentythird street before the catafalque had fairly got under way. The scene on Broadway as the long line of military marched to slow dirges, the deep drapery which lined either side, the myriads of flags at half-mast, the booming of guns from fort and fleet made an impression which can never be forgot-

While the funeral car was being slowly drawn along on Broadway sad scenes were being enacted at the Fifth Avenue Hotel. It was a few the character as far as the eye could reach down F 200,000 people wedged into this narrow limit. A Dime for Getting Him a Wife.

The most amusing matrimonial let-

ter which has yet been sent to Castle Garden, says the New York Times, was received by the superintendent of the labor bureau. It was written by John D. Osterhoudt, of Tobasco, Ulster sister to Goldsmith Maid, and a host county, who represents himself as a "full-blooded American," and says he 'weighs 175 pounds in winter,' and is 6 feet high. He desired a wife whom he "could live with in peace and union." If she should turn out "to be: little on the tall order it would be no fault." She should be from 38 to 48 and "kindly, stout, and rugged." The writer said that there were no old maids in his part of the country, and the widows all had "about six children apiece, more or less." He wound up by asking the superintendent to the art. Council of the city of Oworso: I beg leave to submit the following re- Dressed Hogs port in regard to the instructions I received through your-honorable body, by way of resolution, authorizing me to correspond with the Secretary of State or other proper officer in regard to the bonds-which were given by this city in aid of the Owosso and Big Rapids Railway, and authorizing me to take up the same. In compliance with your instructions I wrote to the State Treasurer at Lansing, Mich., and in reply received the following letter:

Jerome E. Tarner, Esq., City Clerk, Owosso, Mich. Dear Sir:-I have your favor of the 1st inst., relative to a surrender to you of the bonds issued by Owosso City in aid of the Owosso & Big Rapids R. R. Jan. 24, 1870, and deposited in this office Jan. 27, 1870, to the amount of \$6,000; and enclosing the receipt, by the then Deputy State Tressurer, for the said bonds, together with a certified copy of a resolution by your city common council authorizing you to apply for the surrender of the afore aid bonds.

In reply permit me to say that the files and records of this office disclose that, on April 17, 1876, your council directed the then city clerk to procure these bonds from the State Treasurer, "for the purpose of cancelling the same," that the said city clerk N. Baldwin, under his hand and seal, and of date April 18, 1876, applied to this office in pursuance of the resolution by the council; and that the bonds in question were delivered by the State Treasurer, as appears by a receipt therefor, on file in this office, dated May 2, 1876, and signed, first by "Newton Baldwin City Clerk," and then, after waving lines had been drawn across this signature, by "Geo. Colt, City Clerk." It seems therefore, that the bonds have been already surrendered. I return your enclosures. Very respectfully,

E. H. BUTLER, State Treasurer. JEROME E. TURNER, City Clerk.

The committee on Claims and Accounts reported back upon accounts referred to them as above stated, with the exception of account of Mich. Central Railroad Co, the account of L. E. Woodard and also the accounts of the A. W. Wright Lumber Co., which report was accepted, unanimous consent was given, the accounts allowed, and orders ordered drawn for the same. Aves
