The Postmaster-General sent a statement to the Senate Thursday showing that the rumber of removals of fourth-class Postmasters during the first year of the present Administration was 5,645, Of these there were 613 in Lilnols, 400 in Indiana, 3,44 in Iowa, 205 in Wisconson, 541 in Michigan, 524 in Minnesota, 58 in Nebraska, 155 in Dakota, and 253 in Kansas. There were 1,053 removals in New York State alone. CONGRESSMAN O'NEILS ON THE STRIK

Representative to Neit, of Missour chairman of the House Committee on L. bor, has just returned from St. Louis, where he went to take part in the St. Patrick's Day colebration. While there he looked into the railroad strikes. The questions tion is such a serious one that he has not been able to settle on anything yet that he is ready to propose to Congress for the adjustment of such differences, between employments. ployers and employes. He has, however, some plans which he is formulating, and which he will lay before the President in a day or two, asking for his opinion of them and for some suggestions for the perfection of measures equal to the occasion. Mr. O'Neill says he thinks the trouble most unfortunate, and he is very uneasy as to its effect. When both parties refuse voluntary ? arbitration it is hard to tell what can be tione. It is a question how far force may be used under this form of government when there is no injustice. The question of personal liberty is here involved.

COSGRESSIONAL.

MARCH 22.-There was a lively passage to-day between Senators Logan and Haie over the proposed increase of the army to 30,000 enlisted men, which is implied in Gen. Logan's bill for the promotion of the efficiency of the army. Senator Hale could mot see any necessity for the increase of the army. He thought we had troops enough ten years ago, and that the need for troops Alow was less then it was then. Gen Logan replied that he had for years been trying to get the number of enlisted men fixed at 30,again and again asked for more troops. Senator Logsu spoke strongly of the degree to which the efficiency of the army is im-

paired by the extreme smaliness of the

commands, and said that 30,000 privates

was the least force that we could maintain

the form and organization of an army with. Schatter Manderson's bill proposes this sing in favor of an addition of 5,000 men to the army. Senator Platt has procured from the war department a table of all the inilitary posts, with the number of officers and men srationed at each on February 28 isst. This list shows very strikingly the slenderness of the army organization. One thousand eight hundred and twenty-seven conferrs and 23,672 collisted men are scatterthrough 122 posts lying all along the ex-tensive frontier and in the Indian country.

The dimentity of getting together at any
one time and at short notice an adequate

force to meet the Indians with is due to the necessity of maintaining so many posts with so few soldiers. Of the 122 military posts, 37 have less than 100 officers, and men at each; 30 have between 100 and 200; 27 have between 200 and 100; 12 have between 800 and 400, and 15 have over 400 officers and men each.

MARCH 23.—Senator Van Wyck gol through the senate to-day a bill that is of very great importance in the public land states and Territories, and especially to people who are perfecting claims under the timber-culture act. It provides that pate its shall be granted for lands taken under the pre-emption, homestead, or timber-culture laws if the laws have been complied with according to the established constructions of the laws at the time the original entries were made. For years past the laws have the very liberalty construed in the gar eral fand office. Commissioner Sparks is proceeding the laws strictly. The result is that some claimants to public lands have been refused patents on the ground that there had fused patents on the ground that they had not complied with the law, when they hid complied with the law as it was construct when they made their entries. For example, the law provides for the location of hea claims on lands devoid of timber. The la-

MARCH 23. Representative Forney, of Alabama, has been directed by the house committee on militla to report favorably the senate bill increasing the annual appropriation for the militia, but the committee has reduced the amount to \$400,000 per annum Several members of the committee, while favoring the report, will, when the bill is reached in the house, endeavor to have the amount restored to \$600,-000, as provided in the senate bill. The committee also directed Mr. Forney to report favorably the bill introduced by Representative Cox, of North Carolina, authorizing the Secretary of War, upon application of governors of States, to detail

tary tacties. MARCH 24. - The minority report of Representative Clements of Georgia upon Mr. Seney's bill to repeal the Civil-Service law takes the ground: That the grave abuses that grew up un-

army officers to instruct the militia in muli-

der Republican rule do not demand or justify the new and radical departure in principle embodied in the Civil-Service law, An attempt to limit the President's power of appointment or removal is not a valid law, and can only operate through Executive acquiescence. The act places the power of appointment in the hands of Commission sioners supposed to be non-partisan, who apply hair-splitting tests unnecessary to the practical ascertainment of the fitness of Applicants. The most serious objection to h is that it tends towards a permanent officeholding community.

In conclusion, the report attacks the present system of distribution of appointments to States, and declares that "if we are to have a permanent official community it should be organized on a better basis. But the most direct way to reform would be through a repeal of the law.

West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points-East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Rock Island system includes in its main line and branches, Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa. Ockaloosa, West Liberty, Iowa City. Des Moines, Indianola, Winterset, Atlantic. Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns, villages and stations

THE CREAT ROCK ISLAND ROUTE Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as human skill can make it; the safety appliances of patent buffers platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depote and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri Rimer are composed of well ventilated, finely upholstered Day Coaches, Magnificent Fullman Palace Sleepers of the latest design, and sumptuous Dining Care, in which elaborately cooked meals are leisurely eaten, "good Digestion writing on Appelite, and Health on both." Between Chicago and Kansen City and Atchison, are also run the Celebrated Reclining Chair Care

THE FAMOUS ALBERT LEA ROUTE

Is the direct and favorite line between Chicago and Minneapolis and Et Paul, where connections are made in Union Depots for all points in the Tecritories and British Provinces. Over this route, Fast Express Trains are run to the and British Provinces. Over this route, Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIREOT LINE, via Seneca and Kankakee, has been opened abetween Newport News, Richmond, Cincinnationalis, and Lafayette and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

I HAVE been a sufferer two sears from catarrh or cold in the head, having distressing pain over my eyes. Gradually the disse worked down upon my lungs, my left ar was almost deaf, and my voice was failng. I procured Elv's Cream Balm and within five days my hearing was restored, the pain ceased and I am now enjoying good health. I recommended it to some of my friends. One of them sent for a bottle.
