ATTENTION, BUILDERS!

To Builders, and those who think of building, we would call your attention to

SHEATHING LATH.

This Sheathing is surfaced down to even thickness, and has a series of dove-tail

A few Reasons Why it is Better

Than the Old Style of Lathing :-

First, It makes a much more solid and warmer wall. Second, You get a more perfect clinch in the dove-tail groove. Third, Yea save 25 per cent of the mortar.

Fourth, Your Mason can put on 50 yards more per day, and do better work. Fifth, You save the cost of the lath, and labor of putting it on. Sixth, It will not crack as much as on the common lath. In short, it only needs to be seen to be appreciated.

It is the Common Sense Method.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY By reason of its central position and close relation to all principal lines East and By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coests. It is also the Eavorite and best routs to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Rock Island system includes in its main line and branches, Chicago, Joliet. Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri; Leavenworth and Atchieon, in Hansas; Albert Lee, Minneapolls and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns, villages and stations. Dakota, and hundreds of intermediate cities, towns, villages and stations.

THE GREAT ROCK ISLAND ROUTE Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as human skill can make it; the safety appliances of patent buffers, platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depote and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri River are composed of well ventilated, finely upholstered Day Coaches. Magnificent Puliman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely eaten, "good Digestion writing on Appetite, and Health on both."
