Local and Miscellaneous.

—The W. S. C. returned on Monday from a week's vacation in Detroit and will next week readers of this Press will learn what kind of a time they had.

—Mr. L. S. B. was brought up of his first picking of strawberries, and also remembered us with his last Judging from this Alpha and Omega, we must pronounce his Crescents and Cumberland's superb.

—Mr. G. M. Dehn, of this city, is operating very successfully in Morrice, blasting stones and blowing up stumps with dynamite. He will go thence to Fowlerville and Williamston, where he has work engaged.

—Mr. D. A. Barnum, of Detroit, our esteemed townsman who removed to that city a few months ago, was in Owosso last week. He is in the furniture business in Detroit—the old firm of Barnum & Gould. We are pleased to learn they have fair business prospects.

NOTICE.
The annual meeting of the Shiawassee County Soldiers' and Sailors' Association, for the purpose of electing officers for the ensuing year, will be held on the 12th day of August, at 1:00 P. M., at the Encampment in Owosso. One o'clock, second day of the Encampment. J. HAMILTON, Pres. W. E. MORRIS, Sec'y.

High Time at Corunna.
Our Corunna correspondent writes: CORUNNA, July 13, 1888. The "Old Boys" and Girls' Reunion here to-day. Cannon has been firing since 6 o'clock. Banquet this afternoon and ball this evening. An elegant affair is on the tapis. President, J. E. McCall; Secretary, Frank Peacock; Toastmaster, W. R. Chapell. Other members are: Fred Betts and A. S. Phillips, East Saginaw; C. S. Lockwood, Grand Rapids; W. B. Gale, Fowlerville; F. A. Keith, Mt. Clemens; A. C. Munn, Macdonia; P. A. Jones, W. P. Brayman, and E. Litchfield, Flint, and many others. Flags are flying, and mottoes are stretched across the street. More next week. XXX.

Corunna Independent.—S. Z. Watson of this city has been awarded the contract for carrying the daily mail between Corunna, Venice Center, Judd's Corners, Hazelton and New Lothrop. There were seventeen bids sent in for the work. The route is about eighteen miles long, making thirty-six miles for the round trip. The new service will commence on the 16th inst. By the new schedule the mail will leave Corunna about 7 o'clock in the morning and arrive in the evening.

From A. G. Young. Our former townsman, A. G. Young, gives a laudable prospect for crops in his locality, Lake Benton, Minn. He writes: We had a very pleasant spring here only it was quite dry, but that made the ground in good condition to work and farmers put in their crops with good courage hoping for rain soon to bring up the grain and make it grow. But for weeks we did not have a drop of rain and the early sown grain came up very thin and uneven. About the middle of May we had some showers that seemed to revive things for a few days, but the thirsty ground soon drank it up and was as dry as ever. For a week past we have had the hottest weather that we have ever known in this country. Everything seems to be burning up, and it is so late now it would be impossible for a good rain to save the crop. While I do not expect a famine I do know there will be a very late harvest in this county this season, and when the farmer has poor crops all branches of business suffer.

I am sorry to learn that Owosso has lost another good citizen; I always admired Mr. Henry Woodward, for he was a good business man of sterling integrity. Hoping for a cold wave and a good rain soon I remain, yours truly, A. G. YOUNG.

ANNUAL SCHOOL MEETING.

Warren Woodard, Wm. M. H. Woodard, and W. S. Carson, Education Board.

The annual meeting of the Board of Education of the City of Owosso was held on Monday evening, July 9, 1888, at 7 o'clock, in the school building. The meeting was called to order and the following preliminary remarks were made by the board, saying that the greatest trouble in the conduct of the school is the lack of school room; there are hundreds more children in the district than there are seats in the school buildings.

Secretary McCormick read the record of proceedings of the last annual meeting, and his financial report, as follows: SECRETARY'S REPORT.

The annual report and statement of the Secretary of the school board for the year ending July 12, 1888, accepted and adopted by the School Board.

The Secretary then presented the following estimates of the Board for expenses the coming year, which will be the salary of two additional teachers that probably will be required:

ESTIMATES.

Teachers' salaries	\$ 8,900.50
Janitors' salary	120.00
Fuel	200.00
Bonds	1,500.00
Interest	718.00
Repairing and replacing furnaces	100.00
Total	\$ 11,738.50

Mr. Carson moved that the sum estimated to be necessary for expenditures the coming year be raised. The motion was supported.

Mr. Sharts moved to amend by reducing the estimate for teachers to \$7,000, and spoke at considerable length in support of his motion.

Mr. Walton urged a liberal support of teachers and the necessity of paying salaries that will command and retain competent teachers, in order to keep up the standing of the school. Several others spoke upon the motion, all favoring the adoption of the estimates.

Mr. Carson's motion was finally put to vote and declared carried.

The suggestion of the necessity of an additional school building brought out remarks by several.

A motion by Mr. Kilpatrick that it is the sense of the meeting that another school building should be erected, was agreed to almost unanimously. Thereupon a motion to authorize the Board of Trustees to bond the district for \$7,000, payable \$1,000 a year, the money to be used to build a two-story schoolhouse in the second ward, was put to vote by ballot and carried, yes, 70; no, 8.

The election of Trustees, one to fill the vacancy caused by the death of Andrew Love, and two to succeed J. L. Wright and W. M. Kilpatrick whose terms expire at this time, came next in order, and the result of the balloting was the election of Warren Woodard and Wm. M. Kilpatrick for the full term and W. S. Carson to fill the vacancy.

B. B.—Doctors and Lawyers.

It came off according to announcement—the base ball contest between the medical and lawyers of Owosso. The doctors issued the challenge, and got beaten, by a score of 26 to 25. Five innings were played. The doctors can't see how it came about, Dr. Osborn thinks if he and Dr. Perkins had been in the game it might have been different. Dr. Phippen sprained an ankle, and that perhaps turned the game. But our shrewd neighbor Lamfrom probably has it. He says "the lawyers always come out ahead!"

The players were: **Medics**—Dr. Black, (captain) Arnold, Home, Phippen, Joplin, Robb, Crim, B. F. & M. E. Knapp, Fred Todd. **Lawyers**—Fred Gould, (captain) S. F. & O. R. Smith, F. H. Watson, W. M. Kilpatrick, J. E. & W. J. Turner, Percy Edwards, T. P. Hackleman.

Here is the Chicaning Argus account—which tells the story in part. Dr. Eldred was in attendance at the meeting of the Shiawassee County Academy of Medicine in Owosso, Thursday. After the routine of business had been gone through with, the fraternity adjourned their meeting to play a game of ball with the legal lore of Owosso. The doctors, thinking they would break the lawyers up pretty badly, took with them a batch of spitballs and baseballs. This the lawyers "caught onto," and they proceeded to the coffin factory and procured two or three coffins and took them to the ball ground, where they expected they would be needed when they were through with the doctors.

B. B.—Clothiers and Printers.

The Clothiers beat the Printers, on Monday, score 30 to 16. Our clothier neighbor seems inclined to triumph over us—jeers us, hangs crape on our door, etc., but we quietly remind him that the result only shows that printers stay at home and attend to business instead of fooling away their time practicing base ball. The contestants were: **Clothiers**—J. Terhush, M. Lamfrom, G. Hansman, F. Wickoff, W. Upton, H. Kveber, P. H. Moffat, A. Bullock. **Printers**—R. Hansman, S. Beebe, E. O. Dewey, F. House, G. Robinson, G. Dewey, H. Dewey, G. Bailey, C. Stanhope.

From all indications for the Reunion, Aug. 11, 12 and 13, Owosso will then have the largest crowd ever seen in the interior of the state. This is to be the third annual reunion of the Soldiers' and Sailors' Association of Central Michigan, of which our townsman, Thomas M. Wiley, Commander of Quackenbush Post, is President.

—The International Bimetallist league, at a meeting Thursday in Cincinnati, passed resolutions asking that the coinage of silver dollars be suspended until concurrent action can be taken by the great commercial nations, as the Bland law has proven a failure.

Dr. Gating will soon exhibit in Washington a gun specially devised for the suppression of riots. Its weight will be fifty pounds, and it will be capable of firing one thousand shots per minute. The intention is to place the weapon in police patrol wagons.

The people of Shackelford county, Texas, are said to be in a starving condition from the almost total failure of crops, and cattle are rapidly perishing. No rain has fallen for fourteen months. The settlers in that region were mainly from the northern states.

M. J. Hally, a special agent of the general land office, seized a lumberyard at Fort Keogh for the unlawful cutting of timber on government land. He was promptly arrested under the territorial statutes, and will be prosecuted by the ablest lawyers in that region.

Early Friday morning, during a heavy rain, the safe in the postoffice at Minneapolis was drilled by burglars, who took \$100 in currency and \$25,000 worth of stamps. The mail-carrier's horse and a mercantile delivery-wagon were seized by the thieves to carry their booty to St. Paul.

O. H. Carr, a New York cotton buyer, was taken from the jail at New York by a confederate officer, all Thursday morning with a drawn pistol, threatening to shoot McKenize because he had insulted him. The two met in the afternoon and Carr renewed his threats, whereupon McKenize shot him dead.

The members of the Tammany Society of New York in full regalia, formally celebrated the national anniversary. Addresses were delivered by Senator Vance (who denounced civil-service reform as a fraud), Samuel J. Randall, J. Randolph Tucker, and others. Letters of regret were read from Samuel J. Tilden, B. F. Butler, and the Governors of a dozen States.

At a meeting held in New York under the auspices of the Central Labor union resolutions were adopted denouncing Judge Barrett and the jury in the *Miller* case, and declaring their conviction to be a brutal outrage of class hatred, and asserting that it was the sacred duty of every working-man to discontinue all personal and business relations with the men who secured the verdict.

A very severe drought prevails throughout the entire state of Michigan. For nearly six weeks there has been no rain of value to the farmer. Wheat generally all harvested, but in the northern counties the barley has been badly shrivelled. The wheat crop of the state is estimated by the Secretary of State at 22,250,138 bushels, an average of 18 and 65-100 bushels per acre. The shortage in the past crop from the drought is estimated at from 30 to 35 per cent. Fruit and the berry berries are suffering greatly, especially along the sandy west shore, where the northern woods the report comes that the usually immense blueberry crop is ruined. The condition of corn is considerably above the average.

Rain fell for five hours continually in Wisconsin Friday, and did incalculable benefit to all kinds of crops and vegetation in general. The parched ground was thoroughly saturated. The drought which had lasted through two months with the mercury going as high as 100 degrees in the shade, has done extensive injury to the crops, but this rain removed the danger of further injury. Corn and winter wheat will alone be an average crop. Many growers had become discouraged, and because the drought was broken abandoned their tobacco plants and sowed buckwheat in the fields reserved for them. Quite a proportion of the tobacco plants which had been set out have dried up and the acreage of the weed cannot fall to be less next fall than it was a year ago.

A new story is called "The Doctor's Wallet." We have seen it. There is nothing in it.

Attorney (examining witness). WERE YOU SAW THE... Yes, sir. Attorney—How were you to the scene of the... Witness—What the first... I was ten feet from the... Attorney—How far from the... Witness—Ten feet. Well, now, in the court where you were... shot was fired? Witness—Approximately. Attorney—Approximately how far from you... Witness—Well, I was... a mile.

The following is a list of names who occupy a position on our School Board was a few days ago speaking before the pupils of one of our primary schools. In referring to ancient history he was endeavoring to impress upon the youthful mind the prime importance of the religion which the Pilgrims enjoyed. He asked this question: "What did the Pilgrims have that was more precious than home and friends when they landed?" A little bright-eyed boy promptly answered: "Popcorn."

De Jones—I called around to your office yesterday, doctor, and found you had moved. Dr. Pighead—Yes, I'm located now at one hundred and thirty-second street. De Jones—Why, there can't be any practice for you out there. Not more than three houses within a radius of three-quarters of a mile. Dr. Pighead—Well, there's a foot-ball ground on one corner, a skating rink on another, and a saloon opposite. I'd like to know what more a man wants!

Bromley, I'm having a wretched time with my wife. We wrangle fearfully, and she's so wordy that she overwhelms me every time. Well, Darringer, these little pleasantries are not to be avoided, it seems. My wife and I have reduced them to a science. She demands but two words, and I good-naturedly let her have them. It's a small concession, you see. I should think it was. I envy you, Bromley, 'not my soul I do. O, by the way, what are the two words? "The first and the last."

Why do you applaud at this time? asked a gentleman of another, who indulged in vigorous manifestations of delight long after the close of each act. "Ah! de entre act! It is beautiful!" he exclaimed, enthusiastically. "But there is nothing—absolutely nothing. The orchestra is dumb, and all is quiet on the stage," persisted the gentleman, more puzzled than before. "To be sure, sir—I encore ze quiet! It sees charming—what you call magnificent. After zat performance I could listen to ze quiet forever." —Tid-Bits.

The word couple, with an accent on the last syllable, has no attractions for the old-time resident of St. Paul. He or she, if either of them, has occasion to converse about that style of carriage, or even if either desires to order such a vehicle to the front door—for many of them own carriages—will pronounce it as though it was spelled c-o-u-p-l-e. It sounds peculiar until your ears become accustomed to it to hear a well-dressed young lady talk about her "couple." Of course it cost just as much and runs just as smoothly as though it was pronounced couple. —St. Paul Globe.

Another story about this man Kerr is, that he was once appointed a Captain of militia, and he wrote home at once to his friends in Ireland that he had been made Commander-in-Chief of the army of the United States. He felt so big over his appointment that he strutted about through the upper floors of his house carrying his sword and practicing military maneuvers. One day when charging an imaginary adversary he became so wrapped up in the battle that he precipitated himself across the landing and down the stairway. His wife ran to him, and, much frightened, yelled out: "Michael! Michael! are ye hurt?" "Go way wid ye, woman," said Kerr, as he gathered himself up with a blush. "Pshaw! do you know about war?" —Washington Letter to Cleveland Leader.

St. Nicholas for July is full of patriotism for the boys. It opens with an interesting sketch of "La Fayette" and his two visits to America, which is in a way supplementary to Horace E. Souder's "George Washington," this month's chapters of which deal with the Conway Cabal, Valley Forge, and Monmouth in which La Fayette took a prominent part. An account of a very high and remarkable flag-raising is contributed by Dan Beard, in "Captain Jack's Fourth-of-July Ride." It also abounds in bright stories, poems, etc., for the boys and girls.

Brainard's Musical World. The July number of this superior journal is very attractive, containing many useful and entertaining articles, hints, editorials, etc., besides the following pieces of new music: "Mother will Welcome me Home," song and chorus, by Rodney Stuart; "Weaving," song, by Wellings; "Peck's Bad Boy Polka" by Mrs. L. H. Haller; "Arabesque," by Kargnoff. If you have never seen the World send 15 cents for a sample copy and be convinced that it is the cheapest as well as best musical paper extant. Subscription \$1.50 per year. S. Brainard's Sons, Euclid Avenue, Cleveland, Ohio.

A local Bellaire, Ohio, statistician gets off the following: "There are about 60 gallons in Bellaire. Putting the average sale of drinks at 50 glasses of beer each—40 glasses of whisky per day at each saloon, an estimate for far too low, the daily consumption of liquor amounts to 3,000 glasses of beer and 2,400 glasses of whisky. For this \$390 is daily expended—\$2,730 per week—\$142,060 per year. This \$142,060 would buy 28,412 loaves of bread, would clothe 300 men for a year, or would buy 30 good farms."

There is said to be a well authenticated case of leprosy in Yadin county, North Carolina, the patient being John Plewman, aged 40 years. Eighteen months ago he felt a curious numbness of the left arm. He could stand great heat that arm without suffering pain, and later could pass his hand through the flame of a candle and be insensible to the heat. White blotches appeared on the arm, and large scabs formed. These blotches are now spreading to the body. Physicians, including three specialists, pronounce the disease leprosy.

A rowing club at Crefeld, on the Rhine, having ordered a craft from Mr. Teller, boat-builder of Paris, received this reply: "In accordance with the custom of your country, you try by every means to procure designs of French workmanship. We French copy none. By incessant labor I have acquired a European fame, and am afraid of nobody at universal exhibitions. But, apart from this, I can only see one way of coming to an understanding. Having served in the artillery, I hope to help one day in the taking of Berlin, and then I can deliver to you personally the wished-for boat."

A GREAT DISCOVERY. Apparently Harmless Symptoms Prove to be a Mine of Danger. Some Scientific Facts Which Are Arousing the Community. The True Source of Heart Disease and Apoplexy Made Public. A Terrible Danger That Can Be Readily Avoided.

There is no fact now more certain than that sudden deaths are not caused by heart disease, apoplexy or paralysis but by other infirmities of which death is only the result. And physicians and scientists all agree that rheumatism is one of the many forms in this disease which has stood in the background so long and caused so much misery. Any man, woman or child troubled with the slightest muscular rheumatism is in danger and a danger from which instant escape is imperative. A man, well known in this community, and who was afflicted with a feeling of pain in his muscles. He took a cold bath, thinking the reaction would drive the pain from his system. It did drive it from his limbs but went to his heart, and before night he was dead. This is only one of many similar cases. They all show the necessity of driving rheumatism, which is a blood disease, out of the blood, and for this purpose no modern discovery has ever equaled Ribbard's Rheumatic Syrup.
