Senate. MARCH 19 - The president sent the fol-

lowing momentions to the senate: Whitelaw Reid of New York, minister Julius Goldschmidt of Wisconsin, consur general at Vienna. The Zomination of Eugene Schuyler for

assistant secretary of state was withdrawn, he having declined the position. H. C. Bradley, associate justice of the Supreme court of the District of Columbia. J. R. McFee, associate justice of the Supreme court of New Mexico. F. R. Aikens, associate justice of the

Supreme court of Dakota. The president also nominated a number of postmasters in Massachusers, Rhode Island, Connecticut, and New York, and J. H. Fellows at Pontiac, Iil., and A. M. Andrews at Plankinton, Dak.

There was a long debate in the Senate to day over a proposed amendment to the rnies requiring the reference to committees of resolutions calling for information from executive departments. Mr. Sherman, who called the matter up, said the evil which it was proposed to remedy was the calling for information at the request of a single senator without any inquiry as to the expense involved or as to whether the information was not already printed and available. He knew of one case where 100 clerks had to be employed for two months in copying papers called

sition from both side of the cuamber, the democrats generally regarding it as an attempt to throttle inquiry into the administration of the government. Mr. Hoar, who voiced the sentiments of the republican opposition, thought such a ments would be a very serious impairment to the dignity of the Senate, and it seemed to him that anything which seriously impaired the right of state (through its senators or representatives) to put a question to the head of an executive department ought to be approached by the Sena e with the greatest caution.

Motions were made to amend the proence to inquiries from the president of the United Stores and by adding to it the words "which resolution shall be reported to the Senate within one week there-The rule and amendments were after.'' then recommitted to the committee on March 20 .-- The president sent the following
