This Thresher is made with tight floor, so there is no litter or dust, which is a very important point over other machines. Our mill is large, and sieves are wider and longer, and with our New Improved End Shake will save and

THE GROTON ENGINE uses less coal and water than any other engine built, giving the same amount of power. This engine is so nicely balanced that it needs no blocking whatever, except to keep the belt from pulling it ahead. We put a fusible plug into the crown sheet of all of our boilers, which, in case of low water, will melt and put out the fire, thereby ensuring posi-

Our Smoke-stacks are arranged with a perfect spark arrester, so there is not a possible chance of fire from sparks. AVERY'S PATENT REVERSE GEAR is need on all our Tractions. With one lever the engineer has full control of his engine, -can rever-e it at will, and can cut off

his steam from zero to full stroke. THE DRIVING OR ROAD WHEELS of our Traction Engine are sixty inches in diameter, with twelve inch face, and are made principally of steel, wrought and mallenble iron. The lugs, or traction pieces, are of peculiar shape, best adapted to adhere to the ground, and are held in place by nuts, and, in case of wear, can be renewed at a trifling expense, without throwing away the whole wheel. By this construction of a wheel we secure lightness, elasticity, durability, and strength, with a minimum of weight; and with the large and broad tires, it is only in very extreme cases that we are obliged to resort to locking the drive wheels, or putting on extra lugs to climb the steepest grades, or

to get out of the worst ruta. PATENT SPRING ATTACHMENT to the intermediate gear, which relieves the trrain of gearing from sudden shocks, breaks, etc., caused by the drive wheels running over obstructions, is a very desirable attachment to any traction engine.

Emotional Prodigality.

Something has been wisely said of late about the danger of overpressure in our schools. The time spent in study that ought to be spent in outdoor play or in exercise in gymnasia is worse than wasted. But the overpressure of intellectual work would not be so bad were it not for the emotional prodigality of many children both at home and at school. Teachers are spurred to strain pupils to the utmost that they may meet the coming tests for promotion. The healthy spontaneous emotions that make the THE DETROIT EVENING NEWS delight of childhood to learn are White telivered to subscribers in this city state, crushed, and fictitious emotions of rate of 10 central work. Subscriptions should be fear and dread are substituted. At home the emotional excitement is often greater than at school. It another victim of "Christian science." another victim of "Christian science." was celebrated at midnight, and lasted Her husband was a firm believer in the two hours, and was attended by Masons efficacy of faith, and when his wife only. At 2 p. m. public services were was suffering from a bilious attack refused to summon a regular physician.

Yale men have at last found a place to rest their weary frames much more comfortable than was the historic "fence." The new roost is the flight of broad granite steps of the new recitation building, occupying almost the identical spot which the fence covered. The steamship City of Paris reached Sandy Hook Wednesday forenoon, having covered the distance from Queens-

town in five days, twenty-three hours, and seven minutes, lowering all previous records. She also made the long-est run recorded for a single day 511 .. The country publishers of Iowa are about to institute a boycott against pub

lishers of patent listides. Petitions are being circulated asking assistance, and pledge to refuse to patronize any auxiliary whose patent advertisements they cannot control. About fifty have signed the petition.

The town of Beaver Dam, Ohio, was visited Monday night by a fire which destroyed the entire business portion of the town, besides many residences. The loss is estimated at between \$80,000 and \$100,000, with an insurance of only \$15,-000. It is not thought that the burned district will be rebuilt.

The dwelling-house of Watson Bownes at Westchester, N. Y., was destroyed by fire Tuesday. The household consisted of Watson Bownes, his wife, his mother, two children, and two servants.

Mr. Bownes, carried his wife out, but both were severely burned. The others all perished in the flames.

Miss Annie Vancil, of DuQuoin, Ill. died Tuesday of starvation. Several weeks ago her mother was adjudged insane and sent to an asylum. Miss Vancil declared she would est nothing until her mother was released. She lived seventy-five days, the last thirty of which she tasted absolutely nothing. Monday at Manchester, N. H., John

Jeski, aged 19, a Polish Jew, was sontenced to four years in the industrial school for attempting to murder a boy younger than himself. He has also at various times stabbed boys with a pocketknife, committed other acts of cruelty, and is called the Josso Pomeroy of New Hampsh# e.

The president made the following appointments Friday: George D. Reynolds, of Missouri, to be United States attorney for the eastern district of Missouri; Elbert E. Kimball, of Missouri to be United States attorney for the western district of Missouri; Richard Farr, of Virginia, to be United States marginal for the customedic United States marshal for the eastern district of Virginia; Joseph P. Wilson, of Idaho the villages of Bruce's Crossing and territory, to be United States marshal for O'Brien, and partly wiped out Stam- the territory of Idaho.
