"Ah, yes, my Arthur is very poetiand again retired. Again, however, he cal, but let me tell you that, just to try talions." Each specimen was carefully deposited in the drawer. At last, after an unusually long chase, he was so heated that he opened the window, and having retired exhausted enjoyed a few hours' sleep. When he awoke he jumped out of bed and opened the drawer very cautiously, to look for the side, and then discovered that it had quire fo Theo. Laubengayer. 31-tf no back to it. He had, in fact, spent which had flown out at the back of the drawer as soon as he had put it in at the front, and when the window was

Torture in Bokhara.

opened, had finally escaped.

The report that the ameer of Bokhara has ordered the abolition of torture in his kingdom in honor of the czar's escape from death in a railway accident will suggest painful memories to Englishmen. The commonest form of torture in Bokhara is confinement in the "black well," where the ton Aerald as saying concerning his luckless victim is devoured by vermin. This was the fate of Stoddard, who Julya M. Cowas, Ovid, Clinton county, was afterward put to death, along Mich. Acasonable? As you know, no one is with Connelly, by the present ameer's grandfather. Other cruelties too were gard is a forgery, but he clamed that he know that I must rest if I am to keep photograph of the tower from which criminals are still flung, and he expressed a hope that this barbarous punishment would before long be abolished. Torture is by no means uncommon in the Indian native states: indeed, Sir Lepel Griffin describes it as a recognized form of judicial procodure. He mentions the case of a ruling chief who was openly accused of having the acrid juice of chillies squeezed into the eyes of reluctant witnesses. "He was an old gentleman," Sir Lepetsays, "of the most soft and courteous manners, and the idea get prices and terms, before you buy of any one else. Terms to suit purthat chillies could be objected to as a of any one else. Terms to suit purmeans of judicial investigation did not chaser. seem to have occurred to him." -St. James's Gazette.

The MOST PERFECT and PRACTICAL Piece of Farm Machinery

THAT HAS EVER BEEN INTRODUCED. . The mechanical principles embodied in this Mower are entirely new, and have made it possible to remedy the defects that are well known to exist on the old style machines. It will pay any farmer who is in need of a Mower to exam-

ine the IMPROVED CHAMPION—the most perfect and practical of machines— AND IT IS SO WARRANTED!

The DRIVE WHEELS are high and wide apart, insuring steadiness of motion and light draft. There is NO FRAME WORK hanging down in front to bunch up the cut grass or run into obstructions. There is NO FLY WHEEL LOW DOWN on which the grass can wind. This is a serious objection to the old-style mowers. The POWER IS APPLIED DIRECTLY and without a joint from the main gear to the pitman, and ALL OF THE POWER is used in eutting the grass,—none is wasted on loose joints and fast-running gearing. THE PITMAN WORKS ON A STRAIGHT LINE, AND THE POWER APPLIED AT ONE END IS ALL TRANSFERRED TO THE ENIFE. The CUTTER BAR can be folded while the knife is 10 motion, which is very important where there are stumps or trees. The Cutter Bar may raise or lower at either end, and yet the knife will work perfectly free without binding or extra friction or wear. This in a measure explains why there are no broken knife heels and no broken pitmans on the CHAMPION Mowers.

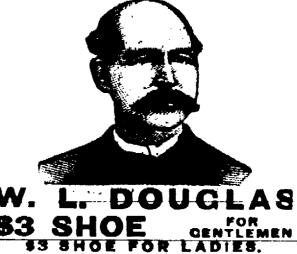

REMEMBER that the parts that have given the most trouble on the old-style mowers ARE WARRANTED NOT TO BREAK NOR WEAR OUT on this wonderful mowers

Has more separation than any other machine. It will separate CASTER AND BETTER. This Thresher is made with tight floor, so there is no litter or dust, which is a very important point over other machines. Our mill is large, and sieves are wider and longer, and with our New Improved End Shake will save and clean the grain ready for market. The GROTON NEW MODEL is built with arched sills, so that it can be turned around in a VERY SMALL SPACE, saving all trouble of lifting or running against doors, fences, etc., etc.

THE GROTON ENGINE uses less coal and water than any other engine built, giving the same amount of power. This engine is so nicely balanced that it needs no blocking whatever, except to keep the belt from pulling it ahead. We put a fusible plug into the crown sheet of all of our boilers, which, in case of low water, will melt and put out the fire, thereby ensuring posi-

Our Smoke-stacks are arranged with a perfect spark arrester, so there is not a possible

AVERY'S PATENT REVERSE GEAR is used on all our Tractions. With one lever the engineer has full control of his engine,—can reverse it at will, and can cut off his steam from zero to full stroke. THE DRIVING OR ROAD WHEELS of our Traction Engine are sixty inches in

diameter, with twelve inch face, and are made principally of steel, wrought and malleable iron. The luga, or traction pieces, are of peculiar shape, best adapted to adhere to the ground, and are held in place by nuts, and, in case of wear, can be renewed at a trifling expense, without throwing away the whole wheel. By this construction of a wheel we secure lightness, elasticity, durability, and strength, with a minimum of weight; and with the large and broad tires, it is only in very extreme cases that we are obliged to resort to locking the drive wheels, or putting on extra lugs to climb the steepest grades, or to get out of the worst ruts.

PATENT SPRING ATTACHMENT to the intermediate gear, which relieves the trrain of gearing from sudden shocks, breaks, etc., caused by the drive wheels running over obstructions, is a very desirable attachment to any traction engine.

BINDER TWINE.

If the farmers who use Binder Twine will call and see Mr. P. J. Bryan, Manager for the Buckeye Machine Co., in Owosso, they will learn something decidedly to their advantage.

"Trusts" and "Combinations" in Binder Twine exist only in the fertile imagination of dealers who want to sell you a low grade twine at a high price.

The only kind of a "trust" we know a good thing when he sees it. Come and see us and learn our prices, and you will be convinced that the Buckeye Ma- Coffre in town. chine Company is all right on the "Trust" question,
