Basket Ball

The season has not been a particularly satisfactory one for the fans who would like to see a consistently winning team but the girls won every game on the home floor except one to the Kalamazoo girls and won everyone of their county games except one tie with Covert and their games were well worth the admission charged.

The record of the boys is much less gratifying. Out of 12 games played they have won only three. Yet there is another view point than that of games lost or won. The fact that the boys lacked knowledge of the fundamentals of the game to say nothing of experience is one that only time can overcome. This year must be considered only the foundation for the future. Following years will prove to what use they put the knowledge gained this season.

The results of the games played by the boys are:

MAKE SAFETY YOUR RESPONSIBILITY

Fundamental Transportation

Into the vast and complicated network of Transportation in Michigan have been knit several accessory types of carriers. Yet it is noteworthy that each of these accessory carriers exists only through service by certain of Michigan's 24 Steam Railroads.

Electric railroads get their power from coal. Steam Railroads bring it to them.

Motor cars, trucks and busses use gasoline for fuel. Steam Railroads bring it from far-away refineries—bring, too, the materials for the paved highways on which motor vehicles run.

Not even ships are self-sustaining. Their coal meets them at the railhead.

Steam Railroads are Fundamental Transportation.

On their faithful performance everything else depends.

This responsibility is ever before the Steam Railroad men of Michigan. And they feel they are meeting it today better than ever before.

Does your experience confirm this belief?

Do you appreciate the absolute need of protecting this Fundamental Transportation from further restrictions adding to the cost of service?

Write this association frankly and fully.

Baby Chicks

Read the newspaper clipping from a South Bend paper dated Sunday, The Mr. Frank Fulkerson mentioned purchased his foundation stock from the Wooster hatchery of Gobles three years ago, and has purchased 250 and 300 chicks last year, and the present year and this year we are booked for 250 more. "If there is anyone in the state of Indiana who can best this record, I would like to hear from them," declared Mr. Fulkerson, who is one of the leading citizens of his community and entirely reliable. The above is just one of several like letters we will be glad to show anyone on application.
