

The
WOLVERINE
1923

Myrtle Doty

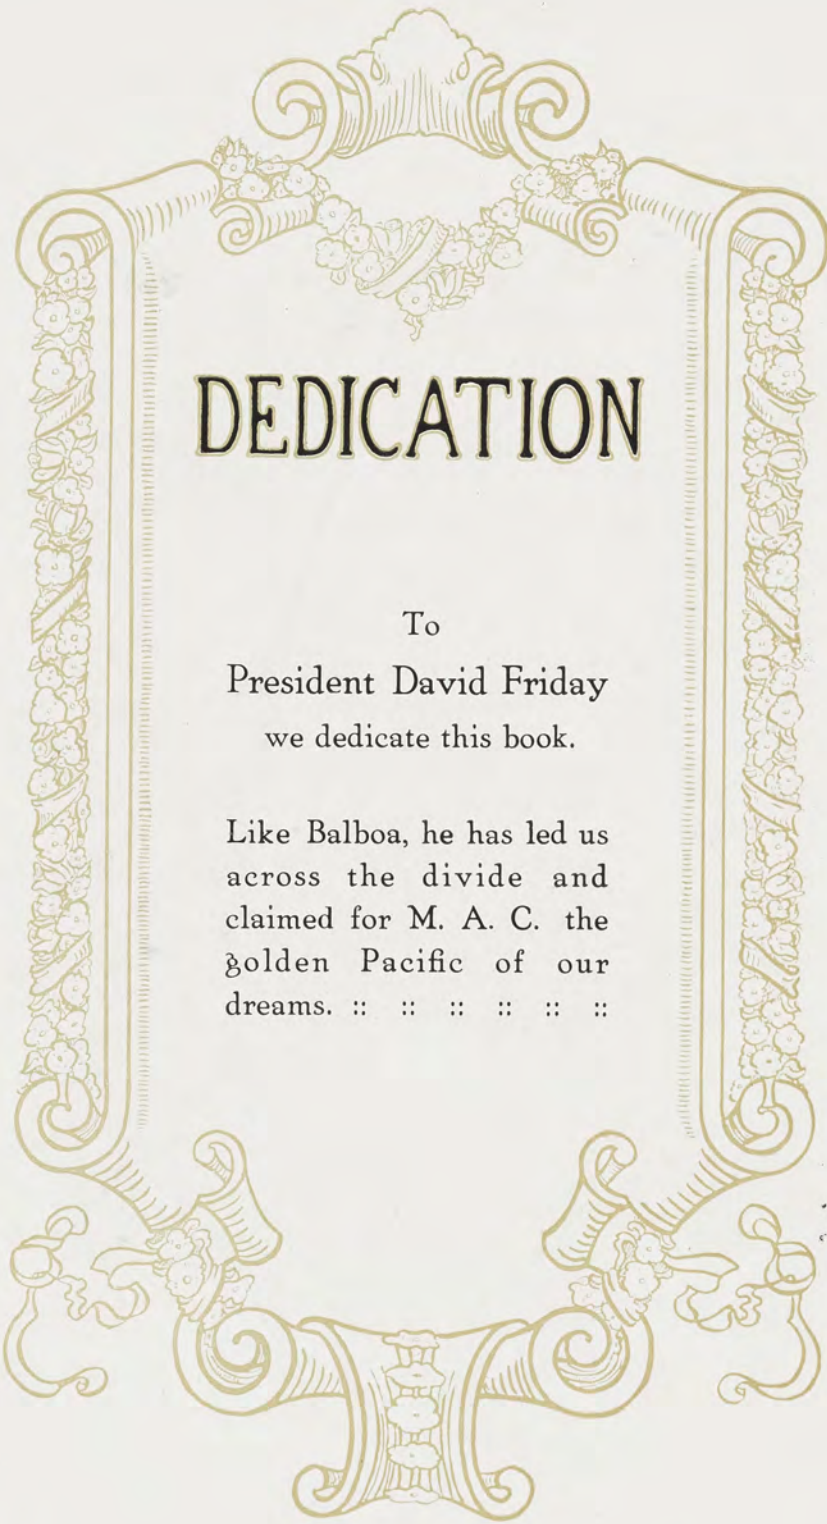

FOR the fine spirit of cooperation exhibited by our friends of all classes in aiding us in the preparation of our book, we wish to here express our appreciation and gratitude.

The 1923 Wolverine Staff.

An ornate, symmetrical decorative border in a light tan color. It features a central shield-like shape with a pointed top and a decorative base. The sides are adorned with vertical columns that have spiral patterns and tassel-like details at the top and bottom. The entire border is composed of intricate line work and floral motifs.

DEDICATION

To
President David Friday
we dedicate this book.

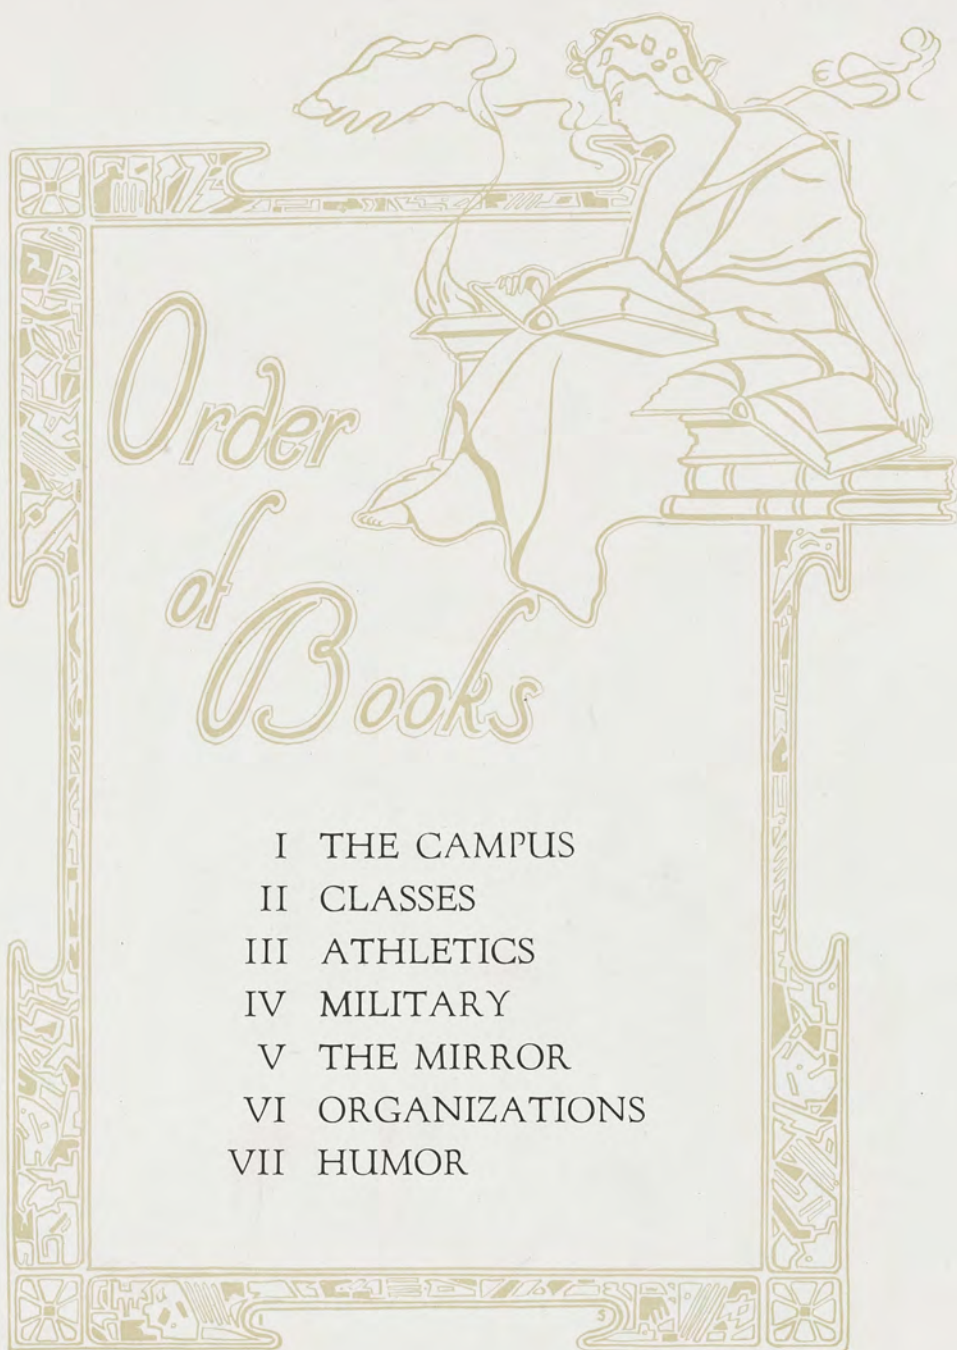

Like Balboa, he has led us
across the divide and
claimed for M. A. C. the
golden Pacific of our
dreams. :: :: :: :: :: ::

FOREWORD

THIS Twenty-First Volume of the Wolverine, we present to you—fellow students—with the sincere hope that the college memories it may recall in future years will serve as an ever present inspiration and an incentive toward greater accomplishments for our M. A. C.

TO THE MEMORY OF

Walter B. Barrows,

late professor of Zoology and Physiology, we dedicate the Class Section of this 1923 Wolverine. For twenty-nine years his good sportsmanship was an inspiring example to M. A. C. To him the great out doors was home and life was a game of unfailing zest. Birds and men paid equal tribute to him by their love.

Holcad Editor and a few
other things.

'EB' HOLDEN, '23
He led the Aggie Grap-
plers during the past
season.

'BILL' JOHNSON, '23
Took the hard knocks as
leader of the 1923 Foot-
ball Team.

'FRED HENSHAW, '23
Guided the Union thru a
most important year.

ALBA STINSON, '23
The first President of
the H. E. Club.

HOWARD ROOT, '23
Was always ready when
something had to be
done.

'TOMMY' ATKINS, '23
Star high jumper and
Capt. of the 1923 Track
Team.

'BERNIE' RANDALL, '24
Was responsible for the
success of most '24 soc-
ial activities.

'BUS' MORRISON, '23

as Ass't Editor of the
Wolverine.

'DON' CLARK, '24
Track and the organiz-
ation section of the Wol-
verine kept him working.

RUTH CHAMBERLIN, '23
Ran the Co-ed section in
the Holcad last year.

'GUS' THORPE, '23.
Gus was always busy--
especially at "guard."

'HARV' PRESCOTT, '24.

Worked hard on the Union Opera Board and as Wolverine Adv. Manager.

'DOT' STUART, '23

She spurred our soldiers on as a sponsor of the Cadet Corps.

'DUTCH' VANOPPEN, '23

When not busy with his swimming team he taught the boys to drill.

'PARK' TETER, '23

Thru his efforts made the 1923 Union Opera a success.

NAOMI HENSLEY, '24

'JIM' KIDMAN, '24

"24's" tireless representative on the student Council.

'P. J.' HARTSUCH, '24

Editor of the Holcad and gets 'A' in most everything.

'MAX' CHENEY, '24

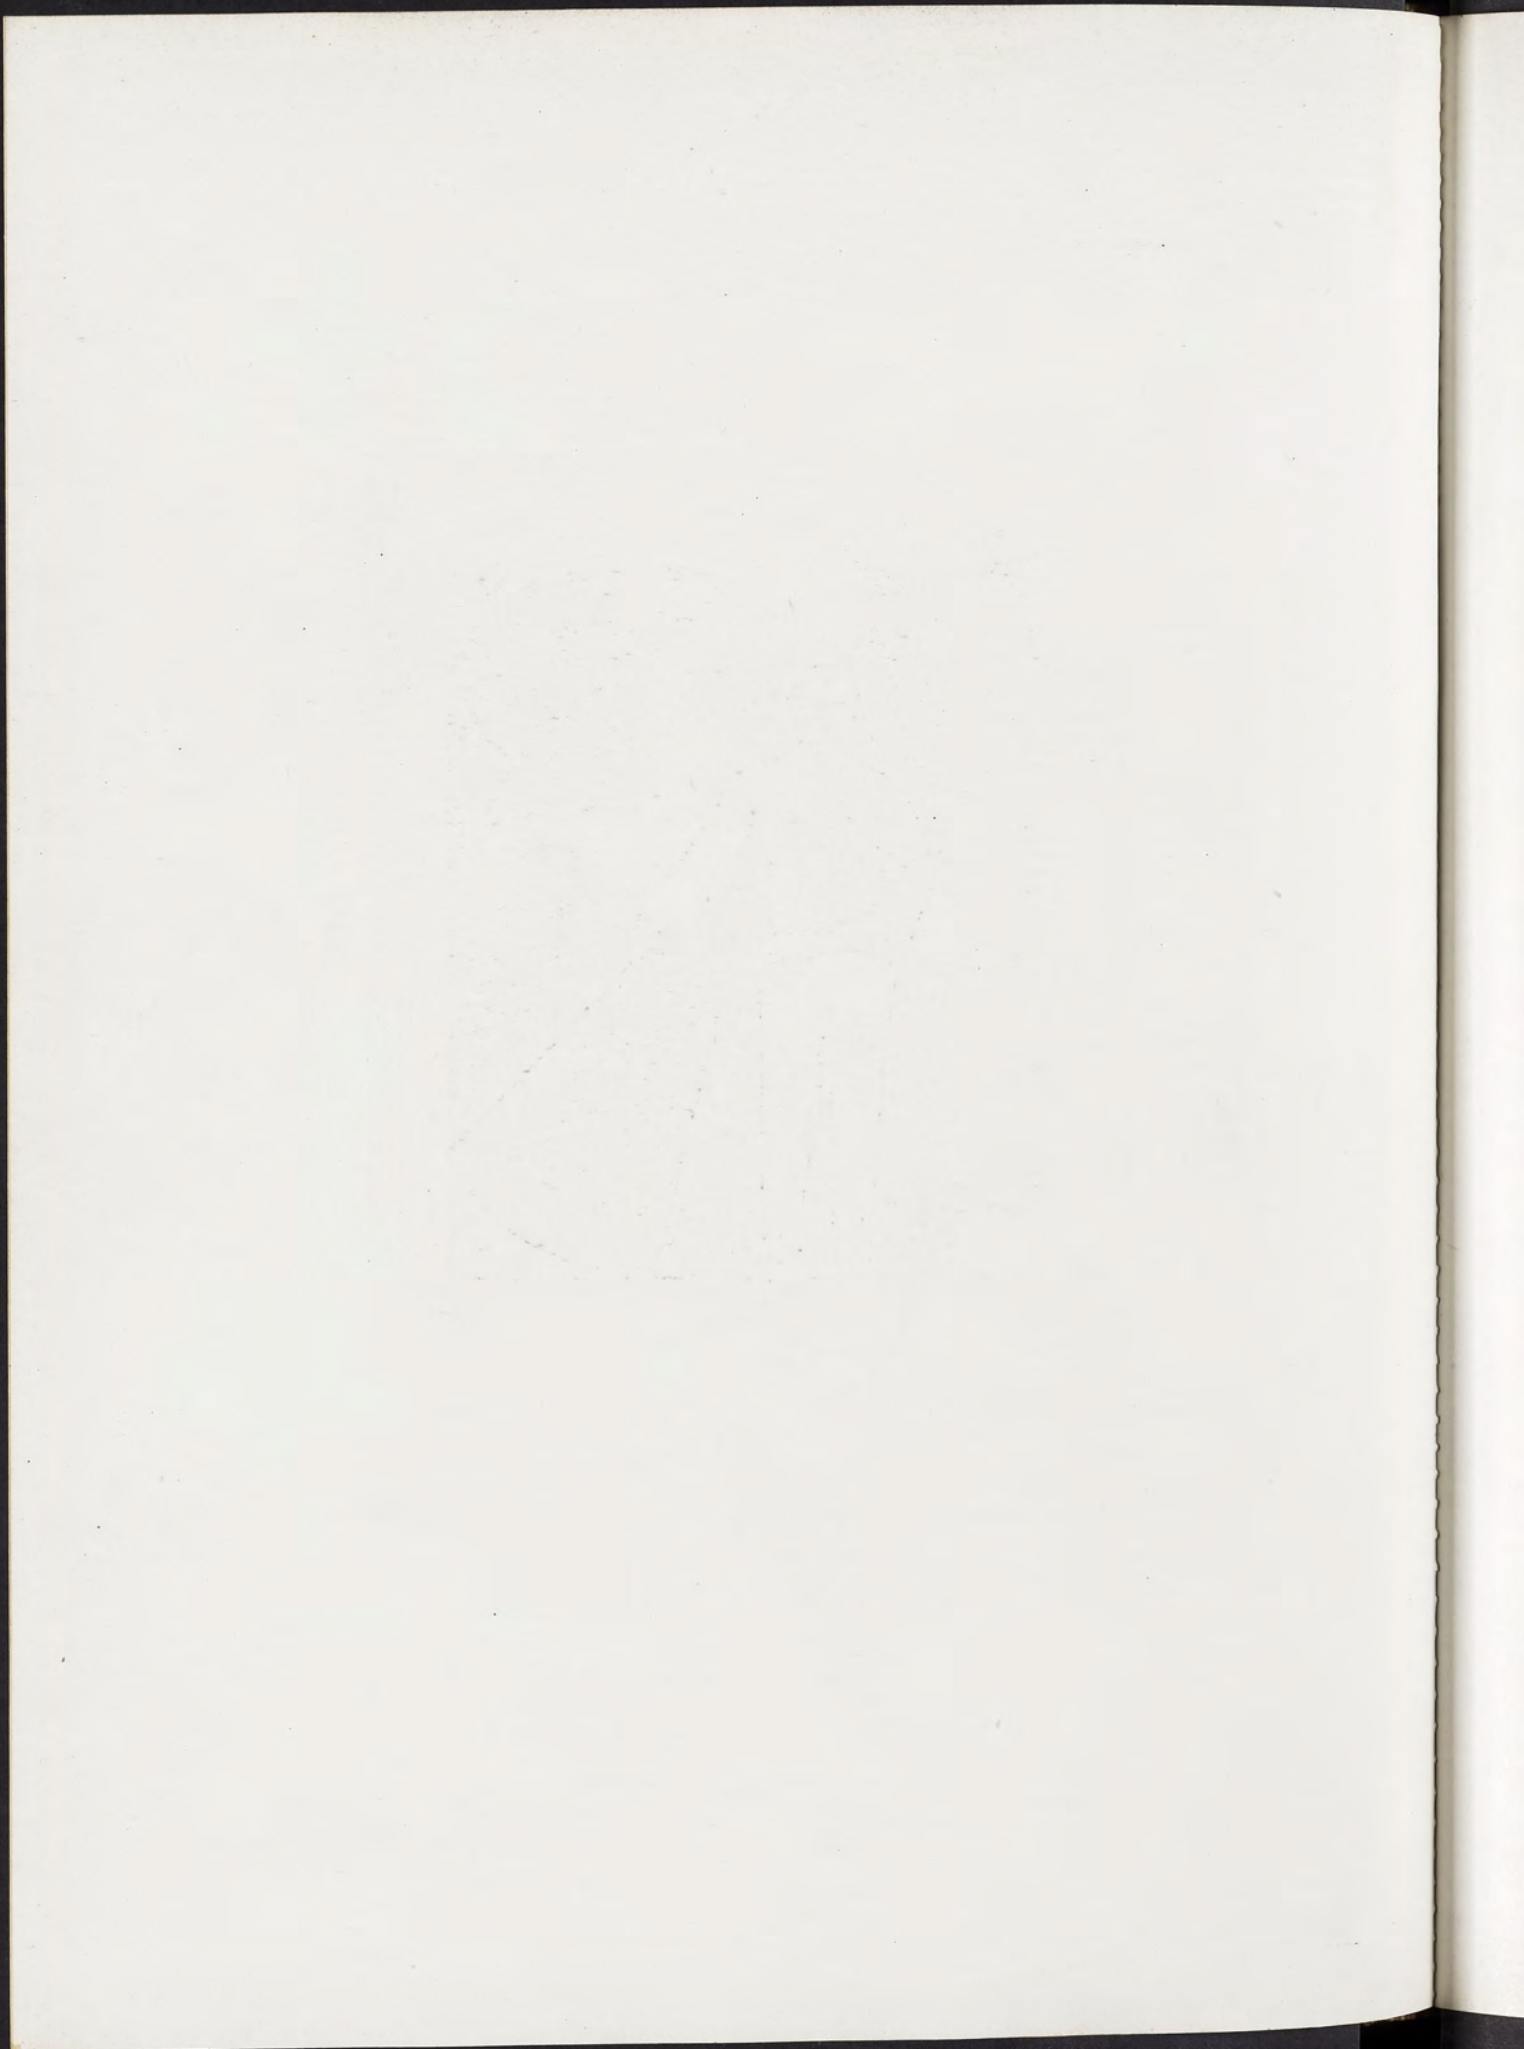

The busiest man on the Wolverine staff was the Class Editor.

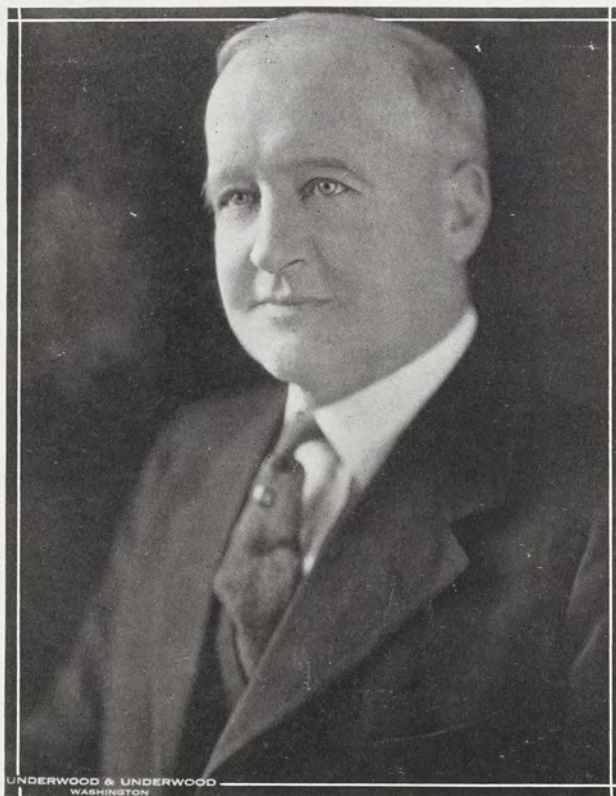

"E. C." PERRINE, '24

He did a mighty fine job as head workman on the Union Building Drive.

TO SECRETARY HALLADAY, EVERY AGGIES' FRIEND AND
COMRADE, THIS SECTION IS GRATEFULLY DEDICATED.

ALBERT M. BARRON
Acting Director of Athletics.

WOLVERINE

LYMAN L. FRIMODIG

Assistant Director of Athletics

As a graduate of M. A. C. where he attained the distinction of being the Aggies' foremost all around athlete, and after several years of successful coaching, Frim is now the Assistant Director of Athletics. He is not actively engaged in coaching but his spirit and personality are felt in the policy of the department.

ALBERT M. BARRON, head football and track coach, took his position as Acting Director of Athletics in fall 1922, and since then has changed the policy of the department, especially from the standpoint of the individual student and of intramural activities, for the betterment of the institution.

FRED M. WARNER

Basketball Coach and Assistant Football Coach

A three sport man at the University of Chicago, and a man of wide coaching and athletic experience, Walker has proven himself a valuable part of our coaching staff. His power was felt as a backfield coach in football, but more emphatically as varsity basketball coach.

WOLVERINE

JOHN MORRISEY

Baseball Coach-1922

Morrisey, a major league ball player from Cincinnati, and the manager and promoter of various clubs since then is a keen baseball player, fan, and coach. Having coached winning Aggie teams before the war, he returned last season to help out in an emergency. He was respected and well liked as a coach and a man.

RICHARD RAUCH

Assistant Football Coach

Swimming Coach

Dick, who was a star athlete at Penn State, has given his tireless energy to the development of our football line, and in the coaching of Aggie swimmers.

L. D. BURHANS

Instructor of Physical Education

Burhans, during his year as instructor has greatly increased the value of the Athletic Department to the M. A. C. student through his program of physical education and intramural athletics.

WOLVERINE

JACK HEPPINSTALL

Trainer

For nine years Jack has been the friend and trainer of Aggie athletes, caring for their bruises, injuries, and welfare, and exerting his best efforts that M. A. C. might have winning teams.

BURHANS, with the aid of JACK and JIMMY, has been making it possible for the Athletic Department to offer its best for the average man in the line of physical education and intramural sports. These phases are very important in any institution for they reach the greatest number of students.

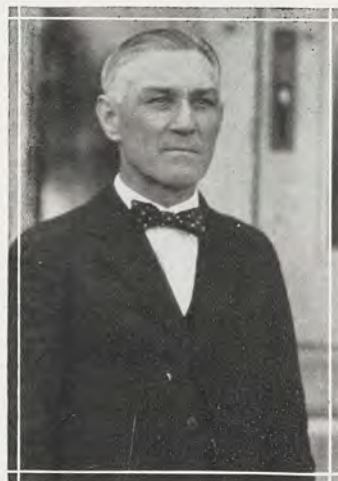

JIMMY DEVER

Wrestling Coach

Boxing Coach

Assistant Instructor in Physical Training

Being an "old timer" himself, Jimmy has used his skill and experience in coaching boxers and wrestling teams. He has ably assisted as a trainer and instructor of physical education. His is the admiration and friendship of every Aggie man.

JIMMY GAMBLE

Varsity Cheer Leader

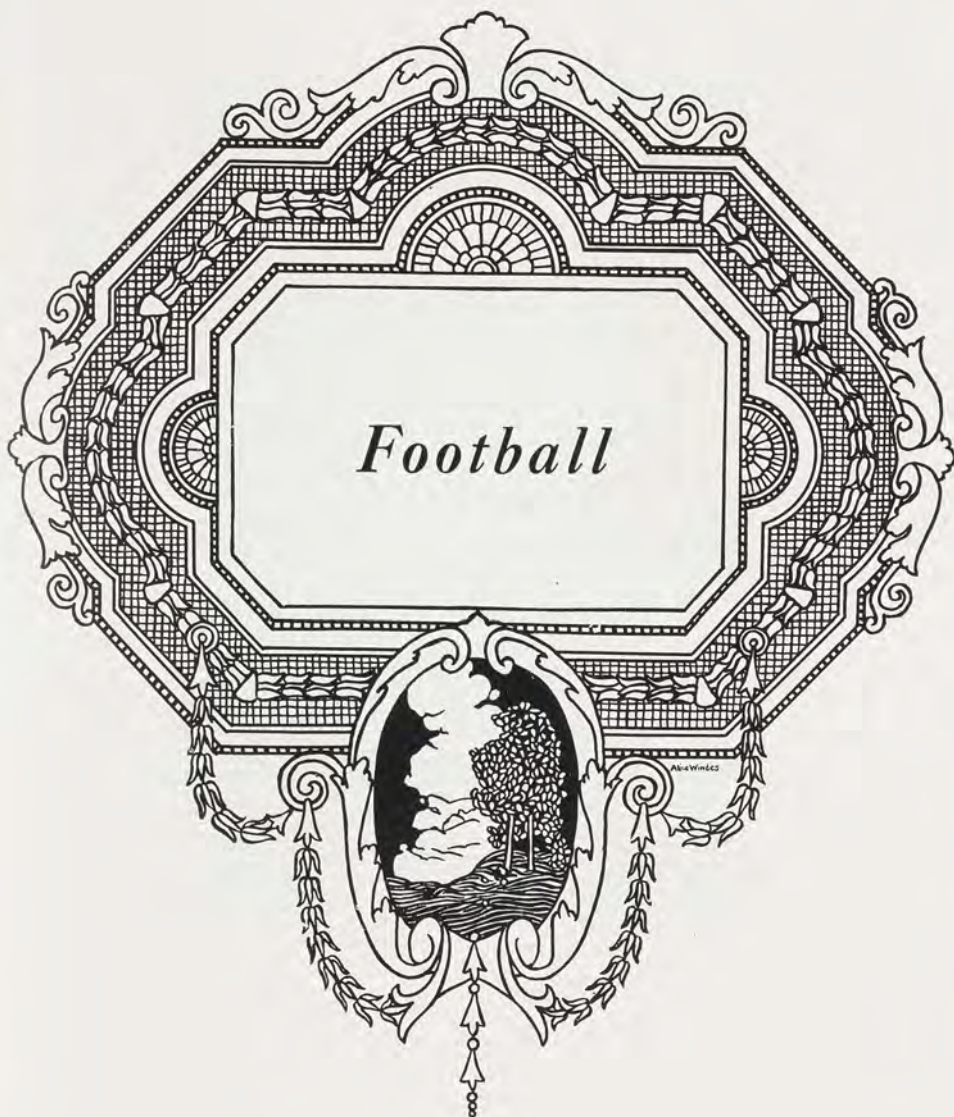

Small of stature, but full of pep, Jimmy was always on the job to lead the cheering which pushed Aggie teams on to victory. His leadership at Wabash is history in the annals of that school.

THE ATHLETIC SITUATION

Since the war, every season has found new coaches at M. A. C. Every year was going to be the Aggies' big year, but the dream has as yet not materialized. Last year the season opened with a practically new coaching staff, the most complete M. A. C. has ever had. On the surface of things no progress has been made. But to go deeper into the subject big changes for the good are going on. The four major sports, football, baseball, basketball and track, have been carried out with a more than average degree of success, especially track and basketball. The minor sports, tennis, swimming, wrestling, and the most recent addition, varsity rifle shooting, have made good progress. The fighting Aggie spirit that made M. A. C. famous before the war is coming back slowly but surely from its post war slump. M. A. C. has been handicapped in the past by having to meet schools out of her class entirely. Schools that were either too small or too large. During the past season an effort has been made to match the school with schools of its own caliber and size, and where this has been done M. A. C. has been well able to hold its own. Basic changes have been going on and a foundation is being laid over which the Aggie banner can be raised permanently.

CAPTAIN BILL JOHNSON

"Captain Bill Johnson, cool, capable, and ready for any emergency, led his men by action and example."

THE SEASON

Playing a hard ten game schedule, two games more than faculty rulings allow, and making long trips for four of the five games played away, the team was put to a severe test and in the light of games won did not come out successfully. Seven games were with schools of our own class (a new precedent to follow) two were with small schools, and the other game was with Michigan. Our men and coaches worked hard and faithfully all through the long season, and carried the Aggie pennon honorably against all opponents.

SUMMARY OF THE SEASON

The 1922 football season started officially on September 11, 1922, with the beginning of early training on College Field. A large squad of good, though chiefly inexperienced material, assembled and worked hard and faithfully under the direction of Coach Barron, and Assistant Coaches Walker, Rauch and Miller to get into shape for the games scheduled. The first game of the season, after three weeks of training, resulted in an easy victory over Alma. The game showed, however, that the team was still far from being a smooth working machine. After another hard week of practice, and a few changes, the Aggies had to be satisfied with the tying Albion in a hard fought game played in the rain on a muddy field. The next week the team traveled to Crawfordsville, Indiana, and was beaten by Wabash in a hard fought battle. The "Little Giants" were deeply impressed by the spirit of the team and the Aggie rooters, who journeyed down to see the game, most of them bumming their way. It will be a long time before they forget the fighting spirit of the White and Green.

The Aggies showed their mettle by defeating South Dakota the next week in a game during which the team was never in danger. The Indiana game followed, the team being accompanied by the band and over 100 rooters who took advantage of all manner of trans-

portation. The game was bitterly contested and should have been M. A. C.'s but several bad breaks of luck particularly the recall of a fair touchdown, worked against the men. The game showed what the Aggies could do when matched with a school even though it be a Big Ten school, of its own class.

Michigan's superior team hopelessly outclassed the Aggies, speed being its greatest asset, and all touchdowns being made by passes and wide runs. The Aggie line was never once penetrated for any big gain. The results of the next two games were unique in that the opposing teams never once crossed the Aggie goal line. Both Ohio Wesleyan and Creighton drop-kicked over the bar three times. The home-coming game with Massachusetts Agricultural College, to which Michigan Agricultural College is a parent institution, resulted in an easy victory for the Michigan team, the men displaying the best football shown during the season. On Thanksgiving Day, the Aggies travelled to St. Louis, played in rain and mud, and again had to be content with a tie score.

Everything considered the season was a fair one because most of the team was composed of men of no previous varsity experience. Furthermore, the season showed that when matched with a school of its own class, M. A. C., could hold its own.

C. W. FESSENDEN, *Captain*

Hard working and efficient as always Fessey finished his third year of varsity basketball.

THE SEASON

Taking charge of basketball at the beginning of what appeared to be a season of discontent for Aggie court followers, Coach Walker developed from an unpromising group of material, a team of winning caliber; a team that often thrilled the stands with its superior fight and teamwork; a team that often snatched victory from its opponents when it seemed most certain.

SUMMARY OF THE SEASON

As a strategical commander, M. A. C. has had no equal to Fred Walker, University of Chicago three sport man, and coach of wide experience. His ability was severely tested in basketball for he had only one varsity man and a bunch of unpolished material from which to build a team. Many court followers expected a disastrous season for the Aggies, and it seemed that their expectations would be confirmed when the team in a ragged game lost by a lopsided score to Notre Dame. The games with Western State Normal and Valparaiso seemed to further confirm the opinion that the Aggies were up against it. But Aggie followers received a pleasant surprise when the team showing greatly improved play won from Carnegie Tech. So rapidly was the team developing that the Aggies expected to defeat Michigan the following week. However Michigan was too fast and smooth working for M. A. C. and the team was sorely handicapped in the center position, having no man who could fill the place well. The game with St. Ignatius which followed showed that the team was still far from right. The superior scoring ability of the visitors easily won for them. The Victoria game however showed improvement. The team really hit its stride during the Ypsilanti game, when in a memorable battle the Aggies won a well played, hard fought game by superior team work, fight, and strategy. In the Michigan game which followed the team lost to its opponents, for although all other things equal, the greater stature of the Michigan men greatly handicapped the smaller and lighter Aggies. In this game the team found a center, a man to fill the position that had long hindered the team, and from that time on the Aggies travelled at a fast pace, playing well in all departments of the sport. Revenge was taken at Notre Dame in a hard fought overtime battle, the team winning by a basket thrown in the last few seconds of the game. Luck seemed to be against the boys when they played and lost their last two games away from home.

The men of the squad deserve much credit for they worked long, hard, and faithfully, and played in many of the games to give the regulars a chance to rest now and then. They were an important factor in making the team. The work of the individual men of the team, marked all the way through by a will to win, offensiveness, speed, skill, and teamwork, and the strategy of the team often thrilled the spectators.

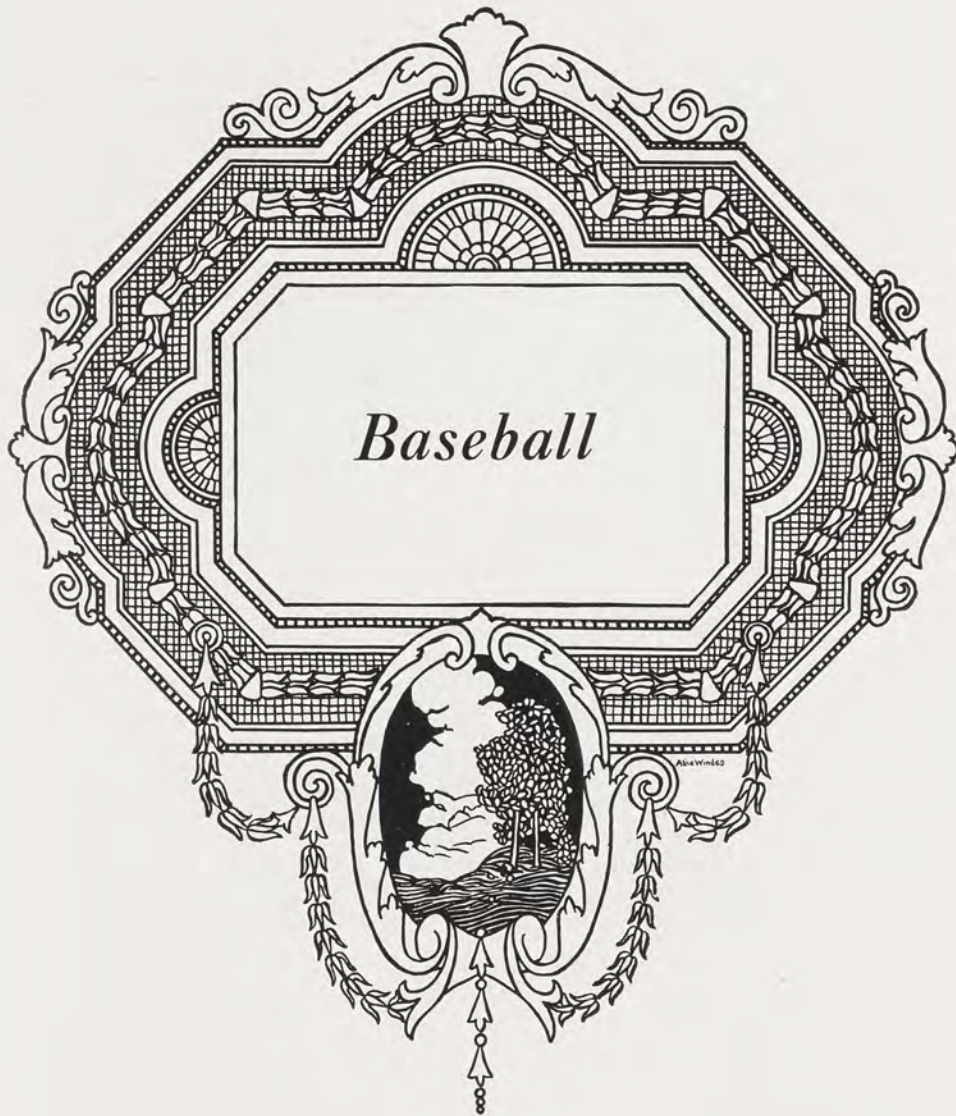

The season was a distinct success.

A LINER

SUMMARY OF THE SEASON

John Morrissey, accepting the job as coach of the Aggie baseball in spring of 1922 gave much of his time during the season toward teaching his candidates how to play the game. Having had a wealth of baseball experience as a major league player, and as the manager, director, and coach of various successful ball teams, the Aggie men learned much from his teaching. It was his policy in coaching, not to make each man learn to play the game according to certain set standards, but to help each man develop and use correctly his own natural tendencies. It was Morrissey's task during the season to develop men for several openings and he accomplished his task.

After starts against Olivet and Kalamazoo, which were frustrated by rain, the Aggies lost to Western State Normal in a close game, the score being 4 to 3. Two days intervened and the team started on a five day five game schedule, winning the first game from Albion at home by a good score, and hitting the road for the remaining four games. The team won from Kalamazoo but lost to Wabash in a bitterly contested struggle. The Aggies had a one sided slugging and running match at Armour Institute, winning by a score of 31 to 7. Notre Dame checked the Aggies' pace by defeating them the following day at South Bend. Rain prevented the M. A. C.-Michigan contest. The second contest with Notre Dame at East Lansing was hard fought, the Irish winning by a small score. DePaul University came into camp and took the measure of the Aggies to the tune of 10 to 1 in the first game. The following day with the student body pulling for and demanding a win, the team won by a score of 2 to 1. Ypsilanti Normal came to East Lansing a few days later, with fond hopes but went home sadder but wiser. The weather man again interfered and prevented the Michigan and Kalamazoo games. The team got a much needed rest. Within the same week the team revenged its defeat at the hands of Western State Normal earlier in the season by winning 11 to 10. On May 17, Wisconsin came here and defeated the Green and White by a score of 10 to 1. Smarting under the defeat, the Aggies trounced Chicago

WOLVERINE

"Y" three days later by a decisive score of 15 to 1. Kalamazoo again fell before the team. The last three games of the season were played away from home, the Aggies losing the two hard fought games to Bethany, and winning the game from Oberlin on June 17. In the second game with Bethany, Stan Pacynski, Captain-elect for 1923, in a heroic effort to bring in the winning run after twelve innings of playing broke his leg sliding into third. Stan is still suffering because of his effort for his Alma Mater.

CAPTAIN DeGAY ERNST

Ernie, who was track captain for two years, is the Aggies' greatest track athlete of recent times. He was the mainstay of the team and always did a lion's share of the scoring.

THE SEASON

Building an Aggie track delegation that was efficient in all departments of the game, and which proved to be of winning caliber in every meet it entered, was the accomplishment of Bert Barron in his first year as varsity coach at M. A. C. A season marked by a series of important victories in which Aggie tracksters smashed old records, and the team as a whole established a new standard for future track squads, was that of 1922.

SUMMARY OF THE SEASON

Having a wealth of material and being ably directed by Coach Barron, the 1922 track team had a successful season. Nine of the sixteen men were seniors and almost to a man, their efforts resulted in new track records for M. A. C. The scope of Aggie activities was increased materially over that of recent years and new and bigger feats were undertaken.

The team had an easy time winning from Western State Normal and DePaw in the indoor season, and showed well in the track carnival. At this gathering of the best schools in the state, Ernst tied Sargent of Michigan in the 40-yard low hurdles and ran him a close second in the 40-yard high hurdles. He also took second in the 40-yard invitational dash, which event he won the year before.

The outdoor season beginning with the Drake Relays, was even a greater success. M. A. C. won the 2-mile College relay with a team composed of Brendel, Baguley, Hartsuch, and Houston, in record time of 8:16 2-5. Ernst won the 440-yard hurdles in 54 2-5, 1-5 of a second slower than the world record. A first was taken in both events entered. These men made a name for the Michigan Aggies at Drake where the best schools in the west were gathered to compete for honors. Then followed easy victories over DePaul and Oberlin. In a hard fought meet, every event closely contested, and both schools evenly matched, Ohio State won with a few points to the good. This was the greatest meet of the season. M. A. C. easily won the State Intercollegiate and DePaul University Meets which followed. The season was the best M. A. C. has had in years.

The Freshmen Football team, under the able coaching of Blake Miller, famous in the days when the Aggies were the Champions of the West developed into a good-playing, hard hitting aggregation. It was the Freshmens' duty to furnish opposition for the varsity at all times, and the yearlings did it well. Miller worked his men with the object of developing varsity caliber for the next season.

The team opened its season against Grand Rapids Junior College, which was played off it's feet by the eager Fresh. A victory over Assumption at Windsor, Ontario followed. Then came the tussle with Michigan Military Academy, an outfit composed of former high school stars, and perhaps the strongest prep school team in the country. Exhibiting good football, a knowledge of the fundamentals of the game, and superior condition, the All-Fresh won a victory from the Military men. The last game of the schedule, played on a heavy, muddy field, which seemed to handicap the team severely, was lost to Notre Dame Fresh.

The Fresh had a good season, they learned a lot, and next year should help in producing a winning varsity football team.

ALL-FRESH BASKETBALL 1923

Coached by Doc Heasley, last season's varsity captain and star forward, and under the direction and methods of Coach Walker, the team developed into a speedy organization akin to the varsity in its style and manner of play.

With these Freshmen available for varsity next season, and with the old varsity team, which will be back, minus only one man, M. A. C. should have the best court team in the west.

The Freshman track squad was not as strong as it has been in former seasons. Except for the efforts of a few consistent performers, the Fresh had no sure scorers as is shown by their record for the season. However a few outstanding men were developed, who should make strong bids for the varsity in another year.

The tennis season at M. A. C., as the scores will show, was a distinct success, the Aggies losing but three of the nine games played, two of which were lost by but one point. The team had the honor of bringing to the school the Michigan State Invitational Meet Cup, by winning both the singles and the doubles titles at the Kalamazoo College Courts. With one of the finest schedules Aggie teams have ever had for next season, tennis bids fair to become a major sport soon.

VAN NOPPEN and BROWN won their minor sports monogram. KIEFABLER won his numerals.

The Aggie swimmers started the season well by easily defeating Grand Rapids Junior College. From then on however, when matched with the superior teams of conference schools, the team was unable to come through with any creditable scores. The scarlet fever epidemic interfered with the season and prevented the team proving its real worth.

Women's Athletics

Physical training is required of all freshman and sophomore girls at M. A. C. For the upper-classmen it is elective and during the past year the elective courses have been broadened in order to meet the needs of women who expect to teach this kind of work in connection with Home Economics.

The several phases of the work covered include natural dancing; all athletic games; swimming and life saving; theory of play and children's games; and scouting which include camp cookery, camp management, and camp selection. Last fall an enthusiastic group of about thirty juniors and seniors enrolled in this advanced course. Although it is but a small beginning it is hoped that this work will soon be given as a major course.

Playing a strong, heady and consistent game both as individuals and as a team the 1922 Co-ed. Tennis Team proved formidable opponents to all those who played against them. Not always victorious, they were never beaten until the last ball was dead and showed by their determination and sportsmanship a fine example of what an Aggie team should always be.

During the past year the Co-ed. Rifle Team has placed shooting among the most important of the women's activities. Though the team was unable to turn in scores which would equal those of some of the best teams in the country—against whom they competed—a marked improvement was shown. Under a new and effective system of instruction directed by Capt. Pinckney of the Military Department it is expected that a team will be developed next year that will be equal to any woman's rifle team in the country.

The officers of the 1923 team were Margaret Plant, Captain; and Thelma Kling, Manager.

Life Saving Corps

The American Red Cross Life Saving Corps of the Michigan Agricultural College was organized during the Spring term of 1922. The charter members of the organization were:

D. JERMIN
D. SANFORD
H. BUCKLEY
I. SEVERANCE
G. CORCORAN
L. MERILL
D. STOUGH

M. RANNEY
R. BYRON
O. CLINTON
M. KANE
R. STANTON
K. BAERT
M. KING

The girls added to the corps this year by their merit are:

L. VANLOPICK
M. WELCH
H. JONES
M. GALLUP
D. McWOOD

F. FOSTER
L. GROVER
M. KEMPF
M. PLANT
S. KING

The aim of the organization is to equip the girls with a knowledge of the principles of swimming and life-saving so that they will be able to act instantly in case of an emergency. The test to which each girl is put is a combination test of strength, technique, and judgment. The corps has taken as its slogan "Every swimmer a life-saver", and is looking forward to a fuller realization of its hopes in the coming year.

Regular Army Officers and Non-Commissioned Officers

The Reserve Officers Training Corps at M. A. C. gives the student selection of one of the three combatant arms of the service, Cavalry, Infantry and Artillery. There are two officers and several non-commissioned officers of the Regular Army in charge of each unit.

The Corps is organized as a regiment, and is under the leadership of officers appointed from those taking the advanced work in the Junior and Senior years. Those taking this advance work receive three college credits each term, commutation of rations amounting to over three hundred dollars for the two years, and the privilege of attending the summer camp of their department. The Artillery summer camp is at Fort Monroe, Virginia, and the Cavalry and Infantry camp at Camp Custer, Michigan. The advanced course when completed entitles one to a reserve commission in the branch selected.

The War Department has recognized the standing of this corps of Cadets and has allowed the Professor of Military Science and Tactics the privilege of naming four of its Seniors for commissions in the Regular Army, subject only to a physical examination.

Military Science is required of all male students in the Freshman and Sophomore years and is elective for Juniors and Seniors. Specialization is started in the Freshman year when the men are assigned to the various branches. During the first year, however, the courses are very similar, consisting of the fundamentals of close and extended order drill, bayonet work, target practice, minor tactics, first aid, and some use of the pistol and other small arms. Marksman medals are awarded to those making high averages on the range.

M. A. C. Federal Dept.

B. M. PROULX

Vocational training was instituted at M. A. C. for those disabled in military or naval service soon after the war was over. At first the work was looked after by Mr. Faunce, then Sec'y to Pres. Kedzie, but as the volume of the work increased an office was opened up by the Federal Board for Vocational Education, which was later merged in the U. S. Veterans Bureau. Mr. Homer McCoy had charge of this office from the time it was started in September, 1921, until the latter part of 1922, when Mr. Proulx, who had been teaching for a year and a half in the school, was put in charge. Mr. Proulx holds the office at this writing.

Until the end of the winter term 1923, a preparatory school had been maintained by the college for the Veterans Bureau on the fourth floor of the Ag. building for those who wished to take college training

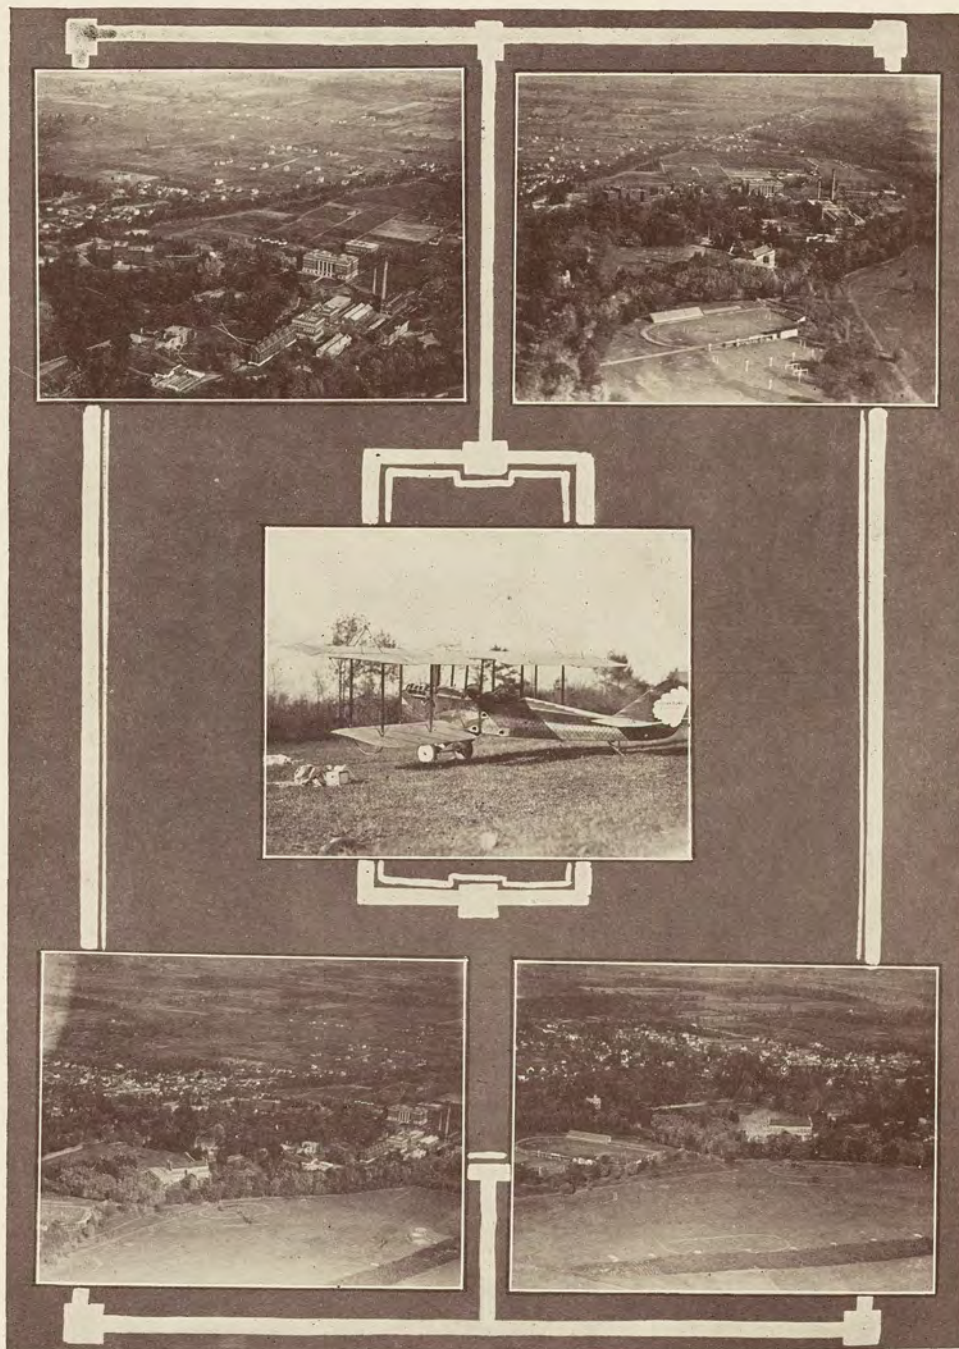

but lacked the necessary entrance qualifications. For a time the number of Federal men at M. A. C., averaging about 200 and running as high as 250, was about equally divided between preparatory or guidance school men, short course students, and those taking regular courses. At the end of the winter term, 1923, there were 106 in regular work, 78 men taking short courses, and 14 men in the preparatory school. All those in the guidance school have finished their prep. course and have been equipped to enter regular College work. So that now about 60 per cent of the Federals are in regular courses and the remaining 40 per cent in short courses.

The government pays for the tuition and books for the men in training and allows to each one a monthly "training pay", varying according to the man's dependents for living expenses.

The Federal Men have their own club, The Gun and Blade, their own basketball, rifle, and baseball team, competing with class and society teams, and a club room of their own over Ward "A", Wells Hall.

The Year in Pictures

SPRING

Whether it be a party, a trip up the river, a show, or just a little walk any time during the day or evening the "Coop" is the most usual starting place and surely is the greatest 'Center of Interest' during the spring term. 'Tis said that some folks study here, too!

It used to be that the 'Terrace' rivaled even the 'Building' as a meeting place for those fortunate people who, with their lessons for the coming week all prepared, could find time for the more important spring term activities.

These Co-eds. lived at the "Terrace" during the spring of 1922 and after they had gone home all but the memories of the old 'dorm' were removed to make room for the new H. E. building.

There never was a more popular place for picnics than 'Pinetum'.

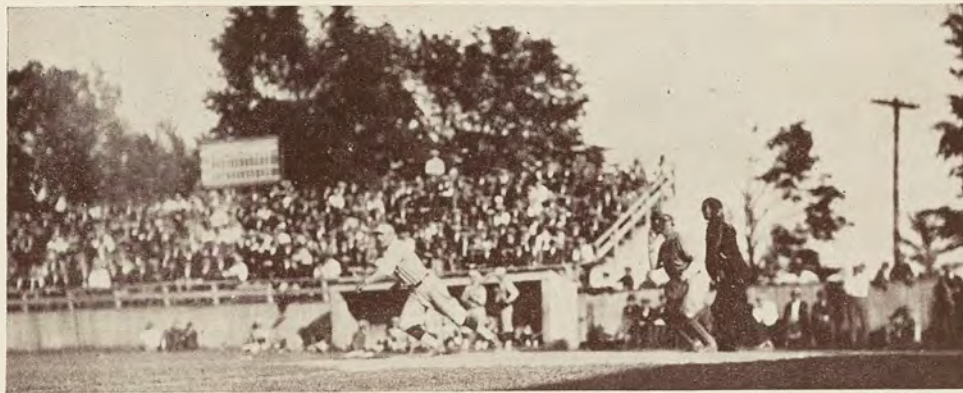

Only a short trip up the Red Cedar by canoe, what could be more fun than to land here some fine spring morning and have a real 'woods' breakfast?

Doubtless the beauties of the Botanical Garden are more enjoyed during the intermissions of a spring term party than at any other time.

With its wide lawns there is no place better equipped for out-of-door 'gym' classes than M. A. C.

Baseball games furnish the greatest thrills in athletics during the spring. That is, there are more people there to be thrilled at the home-runs and stolen bases, but—

what is there more thrilling than the finish of a hard fought race on the cinder path? And there are plenty of these, too.

The Senior 'Swing out' is one of the greatest events of the season. These dignified folks, in their caps and gowns for the first time, march around the Campus and then form their class numerals to have a picture taken. Even after this, however, some morning they will all appear—

dressed up like this—just for a 'stunt'.

The Memorial Day parade has taken on a new significance since the close of the war. Each year, on May 30th, a long line of faculty, students, and friends march to—

the monument erected to the memory of M. A. C. men who died in the World War. The floral decorations are for the most part placed there by the various societies.

In the spring of 1922 Varsity sweaters were given these members of the Co-Ed. Rifle Team. This was the first time that such an award had been made.

The water sports during Commencement Week are always a source of much enjoyment for those who come back to visit at that time.

The most exciting feature of the day begins when the various teams line up for the canoe tilt. The boys seldom have time for any practice before the event—

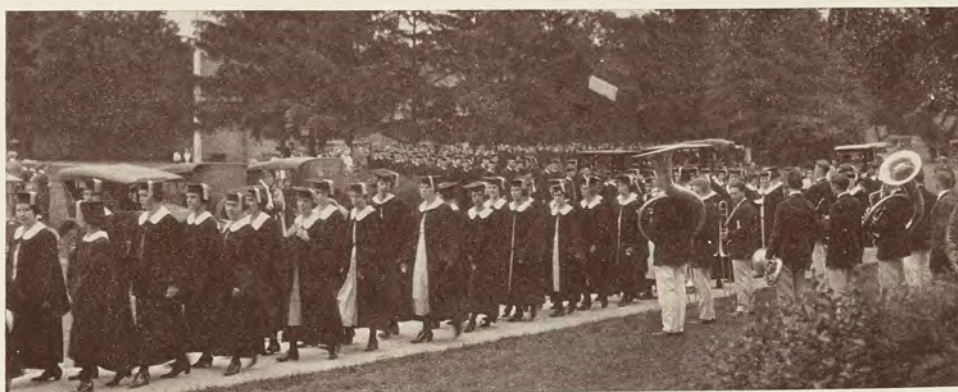

and are generally very evenly matched. One good ducking deserves another and it is a lucky team that can come through without having to swim to shore.

On Commencement Day the Seniors take their last long walk around the Campus together and pay a visit to the various buildings where they have attended classes for such a long time.

At the Administration Building they were addressed by President Friday and at the other main buildings they were given a few words of farewell by the Deans of the different divisions of the college.

At last they found their way to the Gymnasium where the final exercises were held and they became members of the alumni body.

FALL

The football team holds the stage in the fall and there is nothing that is of so much interest to all as their activities. These grim-faced fighters carried the Green and White banner during the 1922 season.

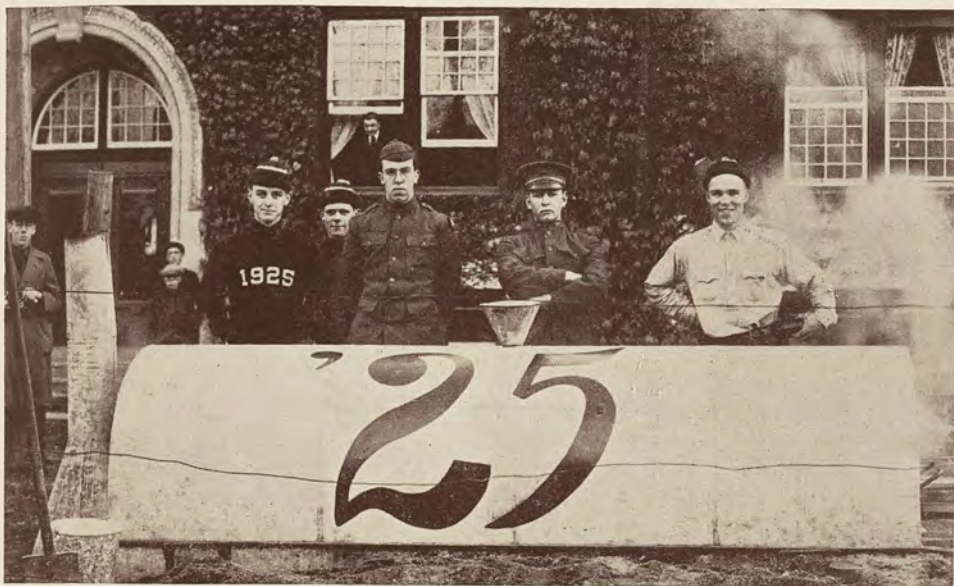

The "Soph" crew waiting for a chance at the Freshmen just before the class rush.

The two classes were quite evenly matched last year and it was a real battle when the Tug-o-War across the Cedar began. The "Frosh" finally managed to get the decision.

At the scene of the flag rush it seemed that the Freshmen would again prove stronger than their rivals. The "Sophs" won in the last minute, however.

After the class rush the Sophs turn their attention to the preparation of the Barbecue and some time in November they play host to the college. A ton or so of ox, barrels of cider, and hundreds of buns are furnished—and there is none wasted.

The Barbecue bon-fire is one of the "sights" at M. A. C.

Last fall when the Co-eds. returned to college they found a moat around the Woman's Building and had to cross this little bridge to get in and out.

When the football team starts out for some important game the whole college turns out to give them a good peppy send-off.

The team are not the only ones who take hard trips. These boys traveled some hundreds of miles in order to be there and cheer the team through the game.

One of the memorable occasions of the past year was the laying of the cornerstones of the new library and Home Economics buildings by Secretary of Agriculture Wallace.

Secretary Wallace also spoke to a large convocation of students and faculty at the gymnasium.

Soccer games bring forth some keen competition between the various class teams.

Hockey, too, is one of the most popular sports of the Co-eds. during the fall.

The start of a battle to determine the champion class soccer team.

These men were initiated into Alpha Zeta in the fall of 1922.

A parade of M. A. C.'s cavalry cadets—Fall Term 1922.

One of the regular events of the football season is Varsity Homecoming Day. The parade of society floats brings out a crowd even on as cold a day as this.

The prize for the best float was captured by the 'Tics with their 'Prairie Schooner'.

WINTER

The old Peoples Church and Auditorium are soon to be replaced by a new and modern church building. The East Lansing Church has grown rapidly and is an excellent argument in favor of the Interdenominational type. It is attended largely by students and members of the faculty.

Just after college re-opened for the winter term the Y. W. C. A. held a carnival in the gymnasium. Various groups of girls put on 'stunts' and made a lively affair of it.

The 'Circus' was one of the main features of the evening.

'Susies' Band' furnished more or less music for the affair. Most generally is was more noise and less music.

The Pythians were present to the last member and kept things moving in their corner.

The pavilion during the stock judging—Farmers' Week, 1923.

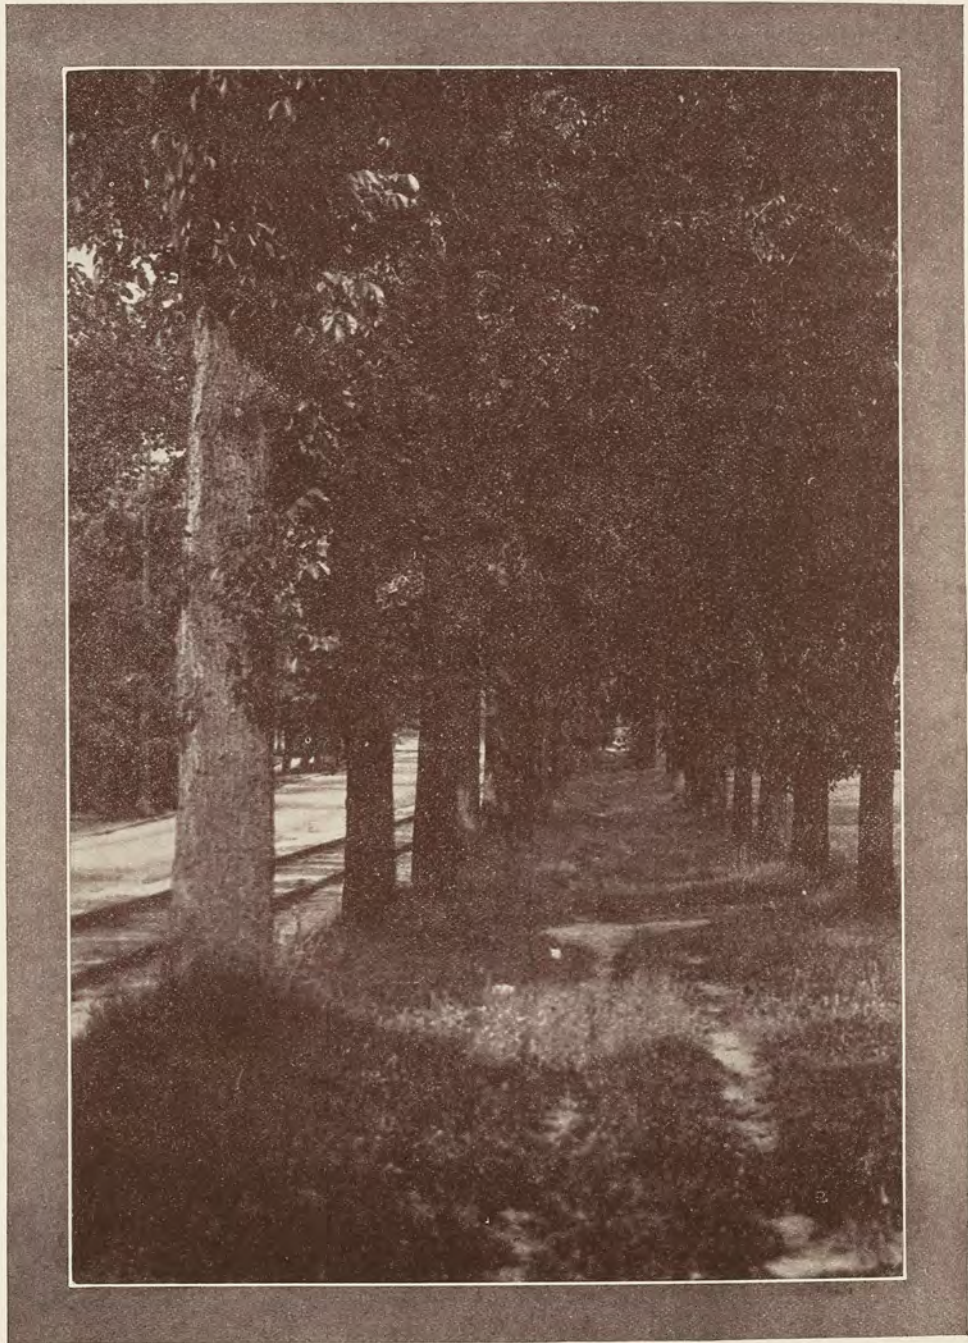

A part of the Hort. show in the Armory during Farmers' Week.

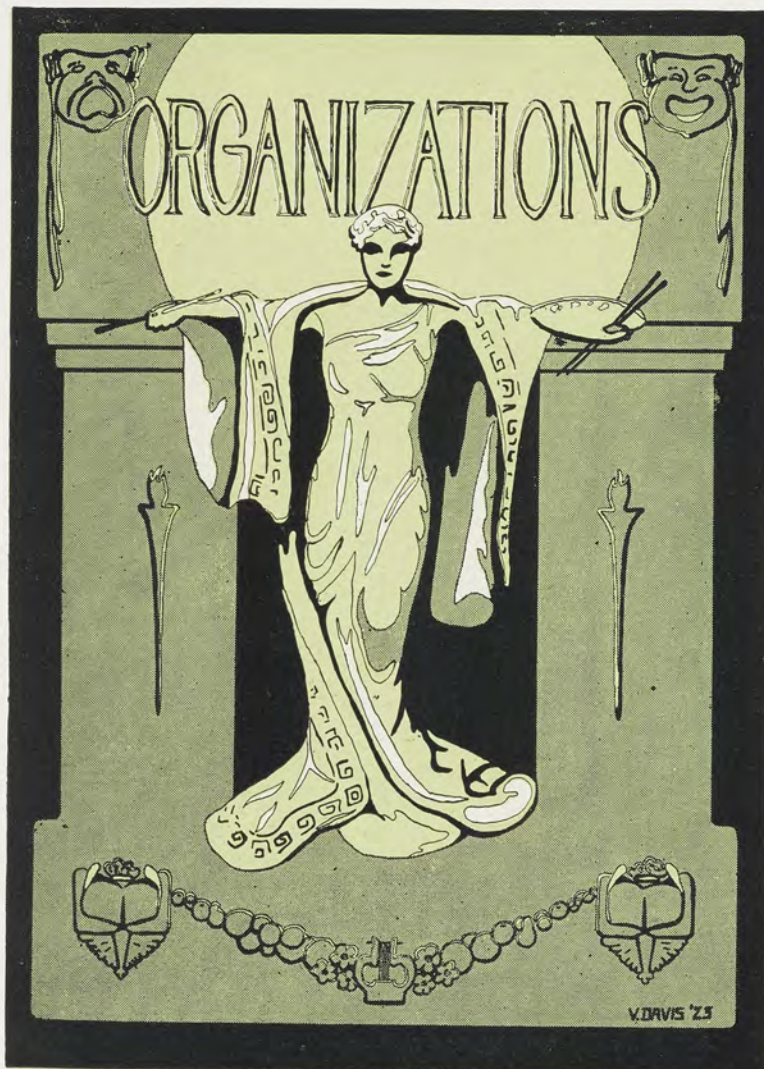

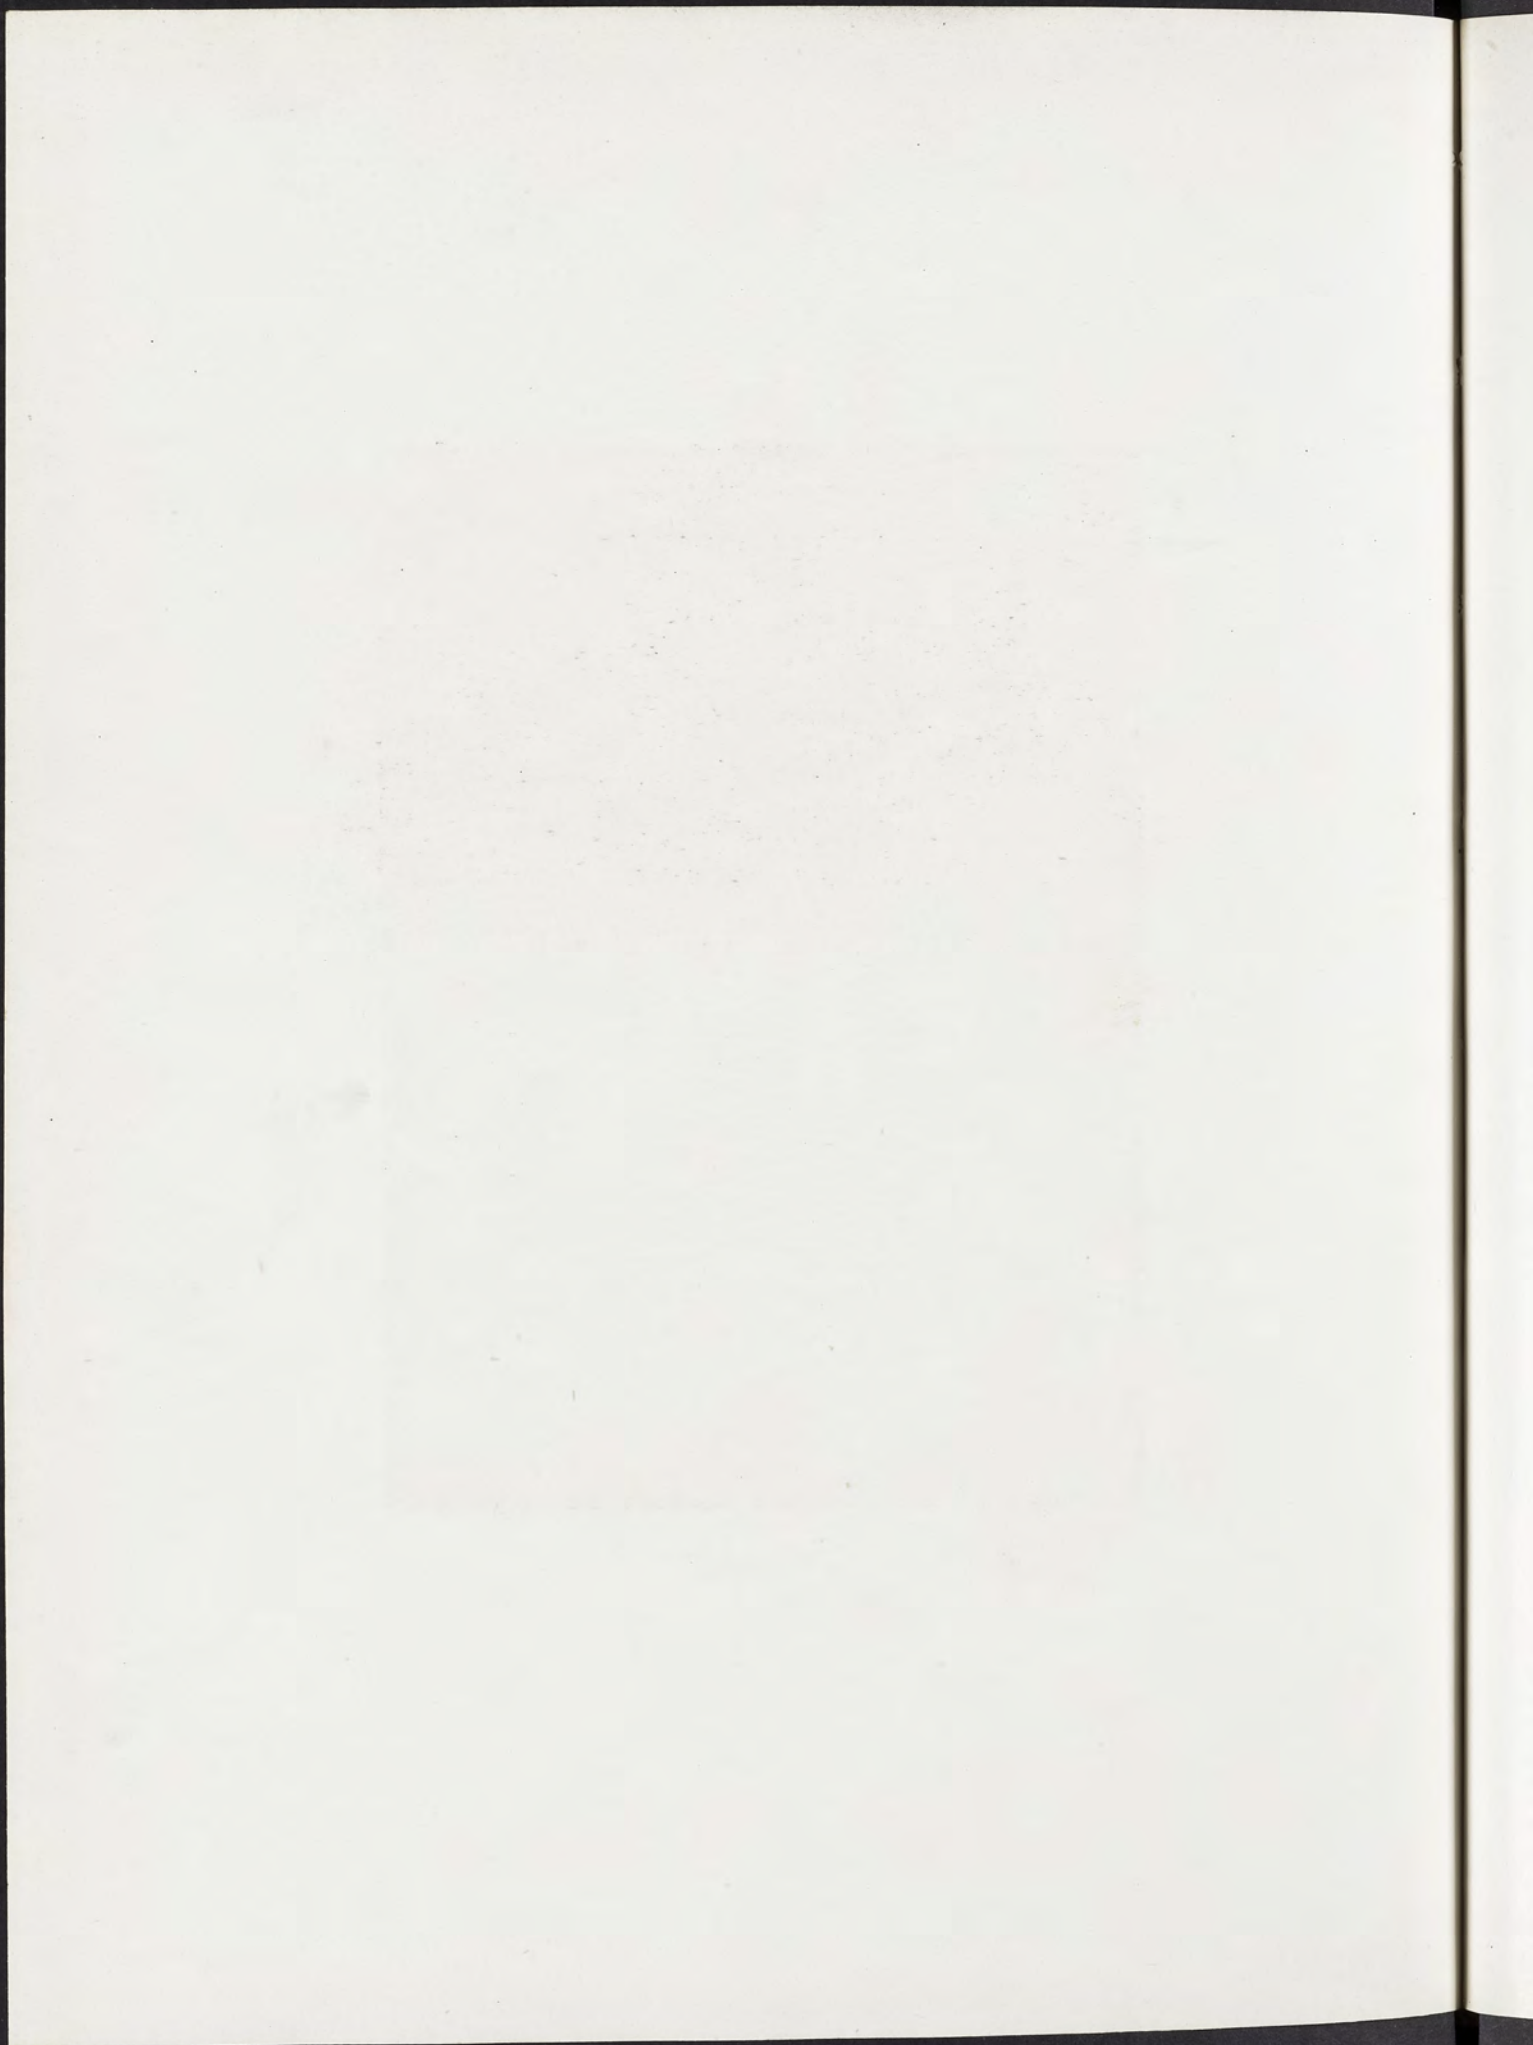

Cold and snowy weather could not prevent the annual Farmers' Week parade. All divisions of the college were represented.

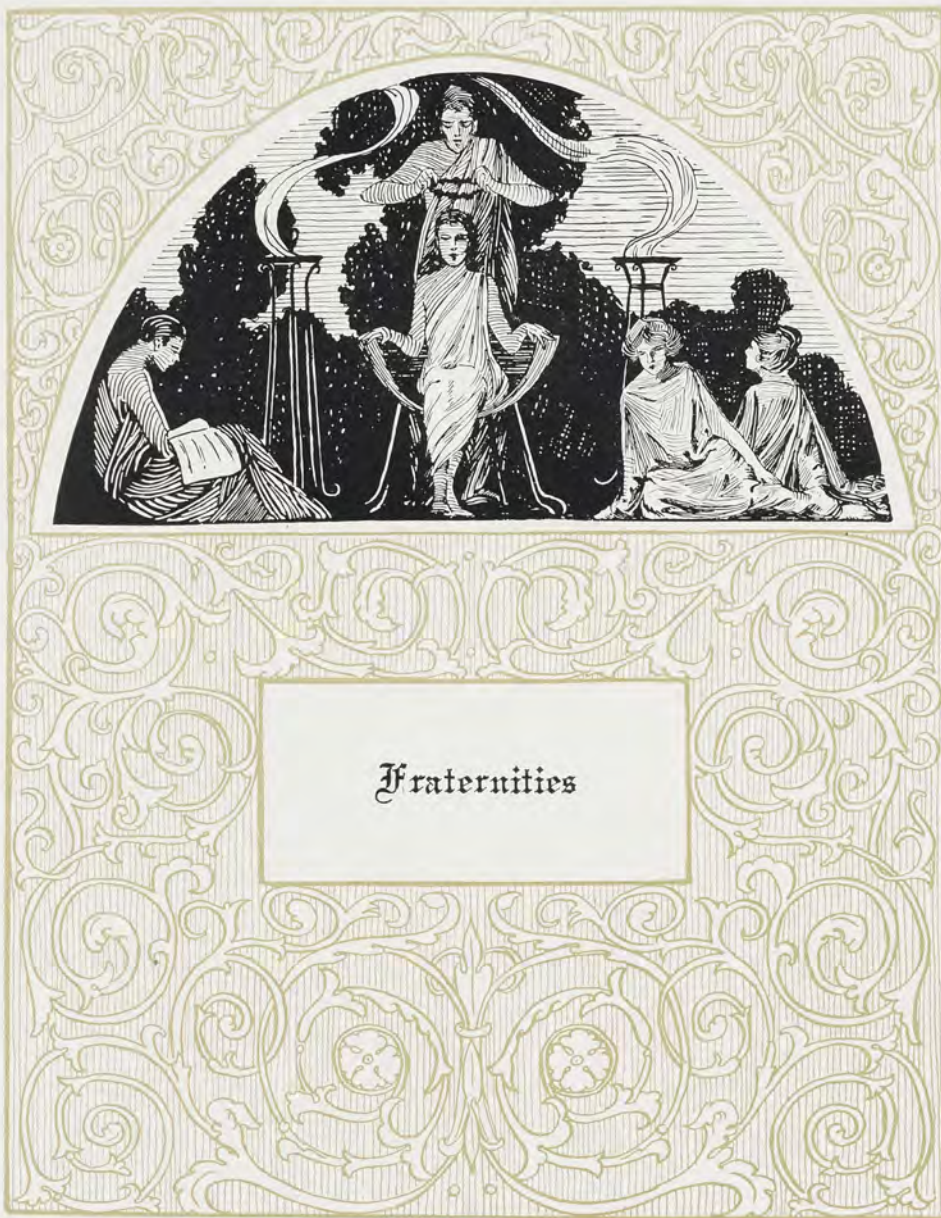

The Military Department always turns out to show the farmers that M. A. C. is still training men to fight and work both if the former becomes necessary.

The 1923 Varsity Debate season proved to be more extensive and successful than ever before. The teams opposed represented schools from as far west as N. Dakota, and as far east as Maine. Six contests were won by the Aggie argufiers, only two were lost, and three resulted in no-decisions. Much credit is due to Coach Milne and Manager Abel.

The negative team, journeying from Wisconsin to Maine, started its string of victories by defeating Marquette U. trio on April 3. At Illinois State Normal stiffer opposition was met with and the contest resulted in a tie. In the tri-state debate at Lafayette, Ind., the local team smothered Purdue to the tune of 3-0. At Wilberforce University the only defeat of the trip was suffered at the hands of the colored boys. Blufton College, putting up a strong case, held the negative to a no-decision but the Aggies came back strong at the University of Akron and won in fine style. The last two debates of the tour brought the Aggies against two strong eastern teams representing Massachusetts Aggies and University of Maine. The Green and White came out on top in the battle of words, against the Massachusetts boys, and in a twenty-four debate, at the beginning

of which neither subject nor sides were known to the teams, M. A. C. proved its worth in the debating world and completed a most successful trip by defeating the University of Maine.

The affirmative team pitted against the strong Marquette U. team, met with defeat at the opening of the season. In their most important contest, the tri-state debate with Ames, however, the Aggies won a 2-1 victory. This victory coupled with the tri-state victory over Purdue, is an achievement of which M. A. C. may well be proud.

The first season of co-ed debating has been successful, both from the standpoint of the number of debates won and of the establishment of this activity for co-eds at M. A. C. The two contests of the season were held with Western State Normal, whose affirmative team proved the stronger. The Aggie negative team on the same night brought M. A. C. its first co-ed debate victory.

Although the number of debates were limited, much interest was shown on the part of the co-eds. They are planning to put this activity on a plane with Varsity Debating within the next few years.

THE 1922 PAGEANT

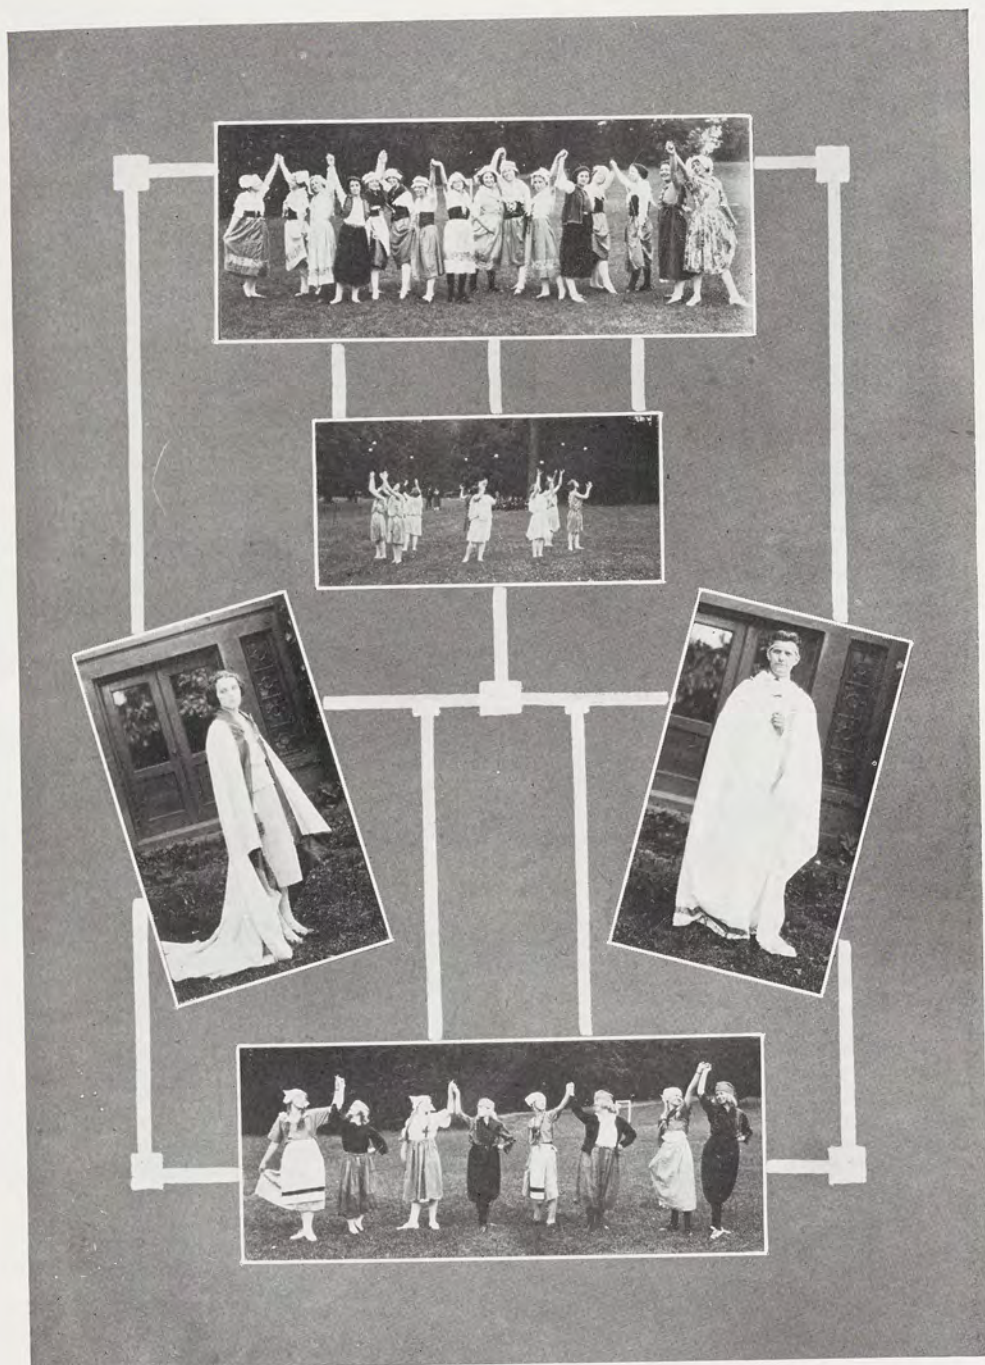

THE 1922 PAGEANT

On two beautiful evenings during commencement week, the fourth great Pageant was given in the Forest of Arden. This pageant represented dances and games from the Grecian and Roman period up to the present time. After the pageant king, Clifford Gustafson, and pageant queen, Belle Farley, were conducted in a royal manner to their thrones, Mary Emily Ranney opened the pageant with a Grecian dance. This was followed by a Grecian Ball dance, Roman games, Gypsy dance, croquet game, etc.

The bicycle girl of the nineteenth century was contrasted with the twentieth century girl who plays tennis, golf, and rides horse-back. Thus the development of games, dances, and sports thru the ages were presented to the pageant king and queen. A dance, in which all took part, was followed by a grand procession and the wings of time closed upon M. A. C.'s fourth great pageant.

"THE MERRY WIVES OF WINDSOR"

At commencement time when spring is in the air, M. A. C. folks gather in the Forest of Arden to be entertained by the play, given annually by the Dramatic Club under the direction of Prof. King. "The Merry Wives of Windsor" proved to be a most entertaining and delightful performance, carrying one's mind away from realities and into the land where books and studies are never thought of.

"CAMPUS NIGHTS"

The Third Aggie Union Opera, under the capable direction of Miss Kathryn Kennedy, presented to the people of central Michigan a snappy musical revue which typified college life and traditions on the Aggie campus. The opera, written by H. T. DeHart, brought back many dear memories to M. A. C. alumni on its tour covering the cities of Grand Rapids, Jackson, Owosso, and Lansing. Much credit is due the Union Board for the success of this production.

THE 1923 CO-ED PROM

The Co-ed Prom with the wonderful and wierd wearing apparel, the marvelous music, the peppy program, and the gorgeous glow of the moon was superb. It was the event of the feminine social whirl. It was attended by the delicate hot house flowers escorted by brilliant butterflies, by tiny field mice, by horrid bums, by dainty Pierrot and Pierrette, by the shady inhabitants of dark town, by April showers and May flowers, by the ol' farmer and his chick, and scores and scores of others.

You found yourself in Holland, Egypt, Hawaii, and early America all at once, but the Hawaii corner was most popular,—waving palms, native grass, long sandy beach, and a hazy loveable moon. The old gym rang with laughter, swayed with the hundreds of waltzing feet, applauded loud in praise of the program, and sighed wistfully as the last gay co-ed departed.

Don't Read This!

It has been a matter of very grave concern to the joke editors to devise some means of ascertaining whether or not a person has the cerebral capacity to withstand the mental stress and strain one encounters in the following section. In realizing this yet unattempted purpose there has been no limit in the employment of intellects, money, and time. We have endeavored to obtain the opinions of such eminent psychologists as the Dean of American Women Mind Instectors, Miss Ima MacErell, Mr. Bill Poster, T. N. T., Miss May I. Sneeze, Count Hoff, Prof. Charr Cole, Dr. P. Green, and the late Gunn E. Sac, T. B. of Wabash. The voting of sentiment is unanimous in declaring that a psychological examination of a very rigorous type is indispensable at this time. With the aid of the comic sections of Sunday papers and an approved dictionary of philosophical we present the following tests as the fruits of our labor. Readers are merely required to submit signed statements showing that they have received and given aid during this examination, but have at all times strictly adhered to the Honor System. Since we deem it both unnecessary and superfluous to assert that these questions must be answered correctly before this section can be understood, we will not take the time to mention it here.

Imagination Test:

1. Close your ears, fold your feet across your breast, gaze fixedly at a point midway between your shoulder blades, and imagine that you are the missing link of a chain of wienies. If you are able to feel dogmatic you are A-1.
2. Imagine that you are in an upstairs room over a vacant lot. If it is possible for you to picture yourself ejected because of delinquency in payment of rent you are unreservedly qualified.

Memory Test:

1. Observe closely a well functioning clock. See if you can remember precisely the respiration of a tick.
 2. Which is easier for you to remember, a date with a pretty girl or one with a dentist.
 3. See if you can remember the point to any one of Dr. Naylor's jokes.
 4. See if you can remember the men to whom you owe money. This is the test supreme.
- Send \$1.00 and costs for our free book on memory.

Mathematical Test:

1. Have you an eye for figures? Interpretation counts 102% in this question.
2. If it takes forty yards of calico to make a hump-backed elephant a pair of trousers, how many pancakes would it take to shingle a dog-house?
3. If B and Y are working for Q and Z dollars per hour and receive an increase of V ducats per annum, how much income tax would C have to pay if he drew as much as D? Note: B V D equals .000 @ $\frac{1}{4}$.

Pronunciation Test:

This pronunciation test reveals whether or not you are a pronounced failure. Check your results carefully with the indisputable criterion, the Blue Book. If you pronounce one of the following correctly you are a wizard, if you get two right you are a liar.

The M. A. C. Record

Established 1896

THE M. A. C. RECORD is the official magazine of the M. A. C. Association. It is published weekly, except during the summer; thirty-five issues annually.

THE M. A. C. ASSOCIATION is the organization of graduates and former students. Aiding the college to accomplish its purposes and keeping Alumni in touch with their Alma Mater are a few of its duties.

WHEN you leave college THE RECORD and THE ASSOCIATION will be the instruments through which you will keep in touch with the campus and your former associates.

THE M. A. C. ASSOCIATION has branch organizations in more than THIRTY-FIVE localities throughout the United States. They meet often and discuss old days.

You will want to be a member of the organization which makes the Union Memorial building possible.

You will want to be reminded of your old college days and make your friendships permanent.

You will want that touch with successful men and women in your chosen pursuit which THE ASSOCIATION offers.

You want all these things. They are all provided by THE M. A. C. RECORD and THE M. A. C. ASSOCIATION.

Combined They Cost You But \$2.50 the Year.

What We Will Have in the Near Future

A Church that is Different--- Its Field an Entire State

The PEOPLE'S CHURCH at East Lansing, the only church at M. A. C., has an enormous parish. It cares for the students of *all denominations*, who come from *all over Michigan*. The church provides:

1. A Shrine for Worship.
2. A Home Away from Home. *The church is open all the time, and conducts an employment bureau, and is headquarters for rooms.*
3. A laboratory for Training Leaders in Church Activities.

In the near future it will offer:

1. A School for Religious Education.
2. A Recruiting Station for religious workers.

What Is Such Training Worth to the Michigan of Tomorrow?

"No young man or woman can attend the People's Church even for a term without losing the narrowness and suspicion which are hampering our moral and religious development so often these times.

"The spirit of service in which the work of the church is carried out impresses me especially. If ever the spirit of brotherhood prevailed in the world it prevails in the People's Church, and that, I take it, is the quintessence of Christianity."

DAVID FRIDAY, President, Michigan Agricultural College.

Professor (to a none too studious student, H. H. Gasser)—“I am delighted to hear of your success on the baseball team, but you must remember that there are other things in life besides baseball.”

H. H. Gasser—“Yes, I know but I am too light for football.”

Mrs. Professor—"Are you quite sure you are true to me?"
Professor—"Why of course, dear. What an absurd question."
Mrs. Professor—"Well then, kindly explain who this Violet Ray is you are always talking about."

'23—"How many men in the Freshman class?"
Also—"Oh, about thirty."
'23—"Zat all?"
Also—"Yes, but the rest will grow up eventually."

Professor—"Success, gentlemen, has four conditions."
Voice from the back row—"Tough luck, the Dean will kick it out of college."

A Mark of Distinction---

We were FIRST IN THE FIELD with a FARM PAGE, that has been thoroughly established as a SERVICE OF VALUE, both to the farmers of Central Michigan and to the many departments of M. A. C.

Working in close connection with the various departments at the College we are FIRST TO GIVE to the farmers the last word in agricultural developments.

Senior—"Father."

Frosh—"What did he write?"

Senior—"Checks."

'25—"Did you know that fees have been cut in half?"

'26—"Is that so?"

'25—"Yes, but both halves must be paid."

"Yes, sir, the last time I saw your son down in East Lansing, he seemed to be in a quandary."

"Good land!" said Farmer Hayfield, "that's the last straw,—I can't afford to buy him one of those furrin cars."

A Bird in the Hand

"A bird in the hand is worth two in the bush"

We are taught by our dads and the rest of the push.

But here is a motto that's equally fine:
"A car on the way is worth two at the mine."

But a car on the way may be slow on the move;

The fact may another great principle prove.

The car may not move half a mile a day,

So "A car in the yard is worth two on the way."

But even a yard may be down on its luck,

Have trouble with horses, or wagons, or truck,

Whatever you need, be it soft or hard,
"A ton in the bin is worth two in the yard."

Mr. Farmer---

You are one of the producers of the nation's wealth, because *the farm* is a foundation of wealth. The portion of this wealth to which you are entitled depends on how you manage your farm; what assistance you give nature by using good seed, by providing a proper seed bed, by distributing the seed in the correct proportion by use of accurate seeding machinery, and by carefully cultivating and harvesting.

Good judgment combined with good tools will get good results.

We have made a careful, scientific study of agriculture in all its branches. We offer you the product of these years of study and experience in the John Deere Full Line of agricultural Implements.

Write us for "Better Farm Implements and How to Use Them." Let us help you win your share of success in the agricultural world.

ACHIEVEMENT

The goal of every ambitious man and firm is typified in the rapid growth of the *Jahn & Ollier Engraving Company*—the universal esteem in which their art and plates are held by the large national advertisers—and the enviable reputation for prompt deliveries which they enjoy.

The mission of all advertising illustrations is to produce sales and the growth of this firm has been measured by the success its customers have had in obtaining new business thru using "J&O picture salesmen."

Thirty thousand square feet of floor space (4 floors) and over two hundred and fifty skilled employees are required to meet the constant demand for "J&O" commercial photographs, art, color process plates and photo engraving (one complete floor is devoted to color process work).

Intelligent supervision of all work by many skillful office service men eliminates your troubles. Sales service men sent everywhere.

Distinction in Clothes

Being different—that alone does not achieve distinction in clothes. It is only when clothes are better, finer, that they possess distinction. In Stratford Clothes, distinction has been achieved through "Thought, Time and Ideals."

We are ever striving to earn and deserve our enviable reputation for offering the students of Michigan Agricultural College clothes of a distinction that is the rare exception rather than the rule in ready-to-wear clothes.
